

# Pharmacy Technician

*Tuition free program support by California Adult Education Program (CAEP)*

## **About the Program:**

The MJC Pharmacy Technician Program is an advanced program. The Program consists of required class sessions, hands on simulation labs and externships. Students must pass drug screen and background check to enroll in the program and be placed in externship site.

Classes are held on Tuesday and Thursday evenings, to allow working students the opportunity to train for a new career.

Online instruction will also be part of the program.

This is a 10-12 month program with no semester breaks.
