BSME Partner Directory

BSME facilitates an invaluable relationship between our schools and over 90 Partners, who provide products and services to schools and staff.

Schools in need of digital and educational technology providers can use this brochure to browse trusted BSME Partners. To have a look at our other Partner categories, please visit our website.

Digital and Educational Technology

3P Learning

www.3plearning.com | twitter.com/3plearning

3P Learning is a global leader in online education. Our digital resources cover mathematics (Mathletics), spelling and literacy (Spellodrome), reading skills (Reading Eggs) and Science (IntoScience). Each resource is designed to increase learner engagement and improve results.

Trusted by over 4 million students in over 17,000 schools across the world, all of our digital learning resources are designed by educators and educational technologists in partnership with schools and families. We create resources that are fully aligned with over a dozen international curricula. The diversity of activities, tasks and challenges in each resource instil a sense of achievement and a love of learning in even the most reluctant of students, with independent learning encouraged and celebrated, in tandem with rewards and competition.

Coupled with our drive to reduce teacher workload, our resources are a powerful tool both in and out of the classroom.

Browzly Ltd

www.browzly.com | LinkedIn

Introducing Browzly Phonic Bear- An essential tool for teaching phonics in early years & KS1

A Voice-AI powered, revolutionary Letters and Sounds assessment tracker for phonics classrooms that use Systematic Synthetic Phonics.

Browzly Phonic Bear engages students by listening to them read its preset reading exercises aligned with your school's chosen SSP or Phonics program. In a captivating gamified environment, Phonic Bear accurately decodes sounds, words, non-sense words & short texts making it an ideal tool for educators requiring letter sounds practice and tracking. As Browzly listens to your students read and assesses their reading, you can be free to focus on teaching phonics using our advanced data analytics that will give you instant gap analysis for every student and the entire class at your fingertips. To request your school account for a trial please follow this link to the request form to get invited.

Digital and Educational Technology

Alps
www.alps.education | LinkedIn

Alps believes that the right analytical tools have the power to help every student achieve their full potential. Our platform provides clear A Level, iGCSE and IB performance insights that enable teachers and leaders to celebrate strengths, action any gaps and drive-up student achievement.

Designed to be used throughout the year, our online platform Alps Connect provides key insight from end-of-year results to setting targets, through to your first monitoring point and beyond. Delve down from school to subject to student level and compare your performance using our swift, visual analytic tools. Our benchmarks are created against the full national dataset, rather than simply client data, so you can be sure your analysis is robust, indeed it has been trusted by schools and colleges for over 20 years.

In Autumn 2021, we launched Alps Summit our Group platform, created to take the complication out of navigating school performance within a Group. Set up monitoring points for all of your schools, as well as your own custom comparisons, to create your own group-level performance frameworks. We believe that Alps is the only analytical tool education leaders and teachers need at KS5 and KS4 and we look forward to working with you this year! Want to see us in action? Book your demo here

9ine
www.9ine.com | mark.orchison@9ine.com

9ine is a trusted partner with schools to deliver education technology services delivered by a global team of in-house experts on data privacy, technology & cyber security, technology leadership and project management. Our services give school leaders' confidence to take full advantage of technological opportunities enabling your school to realise innovation powered progression while evolving securely.

Britannica Education
britannicaeducation.com | LinkedIn

Empowering Educators, Igniting Curiosity
150 million learners | 100+ countries

Firmly at the forefront of the digital information revolution, our mission is to reimagine how the world discovers, learns and shares by providing educators with the tools and resources they need to:

- Personalise online instruction

We collaborate with experts to deliver trusted, authoritative, meaningful, and compelling content, technology and professional learning resources. Our loyal and long-standing customers trust us to foster a love for discovery and unlock student potential.

Award-winning curriculum and reference solutions include: Britannica School, Britannica ImageQuest, Britannica LaunchPacks, Britannica Library and Expedition: Learn!
Fuel a love of learning with Britannica Education.

BSME

BRITISH SCHOOLS IN THE MIDDLE EAST

Digital and Educational Technology

CENTURY Tech
www.century.tech | LinkedIn

CENTURY is the award-winning teaching and learning platform that is transforming education globally. The unique platform uses learning science, artificial intelligence and neuroscience to personalise learning for every student. It creates constantly adapting pathways for each individual - instantly addressing misconceptions and providing stretch and challenge.

CENTURY is used in schools across the Middle East, including JESS Dubai, St Christopher's School Bahrain and Raffles International School. Our schools tell us that the platform has helped:
- Students to improve their performance through truly personalised learning
- Teachers to effectively target interventions thanks to easy-to-use dashboards
- School leaders to monitor real-time progress at student, class and subject level.

Classlist
www.classlist.com | toby@classlist.com

Classlist is the world's largest school parent community app, used by 500,000 parents across 30 countries. It offers the perfect platform for welcoming and including new families in your school community.
A safer alternative to parent WhatsApp groups, Classlist brings your new and existing parents together in an inclusive, secure and respectful way. The platform is generally managed by your school parent association, who use it to communicate; organise events; collect money through Apple or GooglePay; manage fundraising; roster volunteers; run raffles; facilitate liftshares and create a parent marketplace.
Classlist is popular with International Schools where families join and leave throughout the year, and want to connect quickly with their community. It has been specifically designed to comply with new data protection requirements. Classlist was awarded StartUp of the Year at BETT, the world's largest Ed Tech conference.

"Classlist has completely revolutionalised our parent communication" (John Maguire, Executive Headmaster, British School of Bahrain)
"A powerful way for new families joining the College to connect in with our existing parents" (Parent Association Chair, United World College, Singapore).
"We've been really delighted with the way Classlist has helped us to engage with the parents" (Principal, St George's British International School, Rome).

Edpuzzle
www.edpuzzle.com | LinkedIn

Edpuzzle is an easy-to-use platform to make any video your lesson.

Edpuzzle allows teachers to embed notes and ask multiple-choice or open-ended questions to promote interactive learning through video-lessons. Teachers can track progress and prevent students from skipping sections.

Seamless integration with Google Classroom, Microsoft Teams and with other LMS, granting students' engagement directly with the assignments. Teachers can sync students' grades with their own End of Year Report.

Edpuzzle was born to help teachers in 2013. Nowadays, the platform has more than 30 million video lessons and over 500,000 active schools around the world.

BSME Digital and Educational Technology Directory

Digital and Educational Technology

FFT Education
www.fft.org.uk | steven.gumm@fft.org.uk

FFT Education is a non-profit organisation dedicated to transforming education. Our mission is to provide expert data and literacy tools to schools worldwide, supporting educators from nursery through to post-16 education. We believe in the power of informed decision-making and utilising data to inspire learning and improve student outcomes.

With a global impact, FFT's tools and resources are designed for applicability across diverse educational systems. We aim to pioneer innovation and collaboration to drive positive change in education. Rooted in evidence-based practices, FFT's Early Reading Solution offers international schools a highly supportive and proven digital reading package that covers all the key literacy skills. With over 20 years of experience supporting UK schools and 6 years working with international schools, FFT is well-equipped to support schools internationally and provide students with a world-class education.

Firefly
www.fireflylearning.com | LinkedIn

Firefly lets teachers, students and parents learn more together. With our online tool schools can set homework, track progress, create rich resources and engage parents. As a result, teachers have more time to focus on what matters most - teaching - and students can learn in ways that work best for them. Firefly is used by hundreds of schools worldwide.

Follet International
www.follettlearning.com | LinkedIn

Follett is the leading supplier of UK, US and IB library books, ebooks, textbooks and classroom resources to international schools in the Middle East and to more than 67,000 schools worldwide. So whether you need textbooks from OUP, CUP, Harcourt, Pearson or the other 5,000 UK publishers we offer, or library books including the popular Raintree titles, we can help. Follett Shelf™ and BryteWave™ reader - providing the best eBook tools available to schools
Our dedicated UK team is here to help!

Digital and Educational Technology

FlashAcademy
www.flashacademy.com | bethany@flashacademy.com

FlashAcademy®'s mission is to unlock the potential of every learner held back by a language barrier. The education-technology digital tool is designed to support English language acquisition for EAL students across the UK. FlashAcademy® is the UK's No.1 EAL platform and is trusted by over 1,000 UK schools and over 250,000 learners to accelerate their English language skills across 48 different home languages.

Lesson content in the FlashAcademy® app is aligned with the DfE Curriculum, meaning that the platform provides relevant content and materials that support students' learning, while also ensuring that they are in line with the latest educational standards. Students can build confidence with interactive lessons designed to support the whole curriculum. Additionally, FlashAcademy® offers schools the ability to create customised lessons and activities for classroom, independent, and remote learning, helping your students to build fundamental skills such as confidence in vocabulary, grammar, handwriting, phonics, reading comprehension and inference skills.FlashAcademy® allows teachers to conduct a digital EAL proficiency assessment, meaning teachers can assess their pupils' English language skills and track their progress over time. This tool provides valuable insights into students' language abilities, which can help teachers to create personalised learning plans and adapt their teaching methods to better meet the needs of individual learners.

FlashAcademy® is an innovative and effective Ed-Tech tool that helps teachers to empower their students to accelerate their English language acquisition. With its alignment with the DfE Curriculum, adaptive technology, and personalised learning plans, FlashAcademy® is a powerful tool for teachers and learners alike. By supporting students' English language acquisition, FlashAcademy® can help to improve their academic performance and overall wellbeing, making it an essential tool for any school with an EAL need!

Kinderpedia
www.kinderpedia.co | daniel@kinderpedia.co

Kinderpedia is the all-in-one K-12 digital solution for school management and communication, recognised across the world for innovation and social impact. Schoolbox
schoolbox.education | LinkedIn

Schoolbox is a global education technology provider for K-12 schools. Our mission is to empower educators by providing them with powerful digital tools to improve student learning outcomes.

The needs of our community of educators is at the heart of our product development and at the forefront of every decision we make.

To achieve this, we have created a diverse team of people who are passionate about engaging staff, students and parents in the learning journey. We believe that diversity of thought, experience and identity in our team is essential to driving innovation and growth in our business by reflecting, understanding and therefore meeting the diverse needs of our school communities.

Digital and Educational Technology

Texthelp Ltd
www.texthelp.com | education@texthelp.com

The Texthelp Group develops innovative education software tools that support literacy, accessibility, maths and science. With 60 million users across the globe, Texthelp software includes Read&Write, Equatio© and OrbitNote©. These tools work everywhere learning happens, and focus on helping implement a supportive, inclusive digital learning experience by giving all pupils the tools they need to succeed across all of their current learning platforms and devices - in school and at home. Our tools ensure content and learning is accessible for all - supporting students with dyslexia, individual needs, whose first language isn't English, those that are gifted. Built around UDL, Texthelp tools are necessary for some, and beneficial for all.

With a team of over 350 staff based across the UK, Nordics, US and Australia, the Texthelp mission is to help everyone understand and be understood. Visit www.texthelp.com for more information, find out how to get access free as a teacher, or grab a trial for your entire school and experience the impact our tools can make.

Toddle
www.toddleapp.com | LinkedIn

Built for teachers by teachers, Toddle is an AI-powered teaching & learning platform for progressive K-12 schools.

Going beyond a typical LMS, Toddle helps you streamline all your work - from curriculum planning and assessments to progress reports and school-home communication. 2,000+ leading schools around the world run on Toddle.

Unifrog
www.unifrog.org | LinkedIn

Unifrog is a university search and comparison platform trusted by schools around the world to help students find and apply for the best opportunities for them.

Our powerful search tools make it easy for students to compare every university course taught in the UK, USA, Canada, Europe, Asia and Australia on factors such as average starting salary, lectures per week, applications per place, and drop out rate. The platform helps students and counsellors with the application process, the Personal Statement and Teacher Reference tools provide best-practice guidance and also make it easy for students and teachers to exchange feedback.

Unifrog is intuitive for students, parents and counsellors, straight forward to set up, and without equal in terms of helping schools increase access to university.

Digital and Educational Technology

Veracross
www.veracrross.com | LinkedIn

Veracross is a leading global provider of cloud-based MIS solutions, purpose-built to meet the unique needs of private and independent international schools everywhere. With solutions for every department built upon our one-person, one-record database— including admissions, academics, accounting and finance, fee billing, fundraising and more—Veracross is your one-stop-shop for managing information across your entire school community.

The Veracross platform solves school data chaos, freeing you from syncing disjointed modules and giving you one shared source of truth to provide everyone with the information they need to do their job, anytime, anywhere. And the Veracross MIS features a best-in-class open API that powers deep, two-way integrations with the solutions schools are already using. With over 200 integration partners (and growing!) schools can connect the solutions that work for them today—and those they will need tomorrow—into your Veracross system of record.

With our industry-leading NPS scores, 99% customer retention, and top-tier training and support model, Veracross is trusted by more than 3000 schools in more than 60 countries to unify their communities, improve communication with parents, and streamline workflows for teachers and school staff.

Widgit Software Ltd
www.widgit.com | jonathan@widgit.com

At Widgit we desire to be better tomorrow than today. We take pride in providing the most innovative technology solutions, as well as a personalised service to help provide the best results and advice.

Digital and Educational Technology

youHQ (Life on Time Ltd)
www.youhq.co.uk | LinkedIn

What we do:
youHQ provides schools with mood and wellbeing surveys, trackers and resources to support students' social and emotional wellbeing. Highlight those in need. Inspire everyone to succeed.

Key Benefits:
- Reduce Risk
- Student-led emotional and wellbeing early discovery system
- Produce data-driven temperature checks to highlight those students who may otherwise go under the radar
- Create a supportive and proactive strategy towards positive mental health. Our evidence-based questionnaires detect issues before they occur

What schools say:
"youHQ has been absolutely amazing! It's helped us reach students that lack the courage or confidence to reach out. It's packed with useful resources for staff and students alike. The team at youHQ have helped every step of the way, you have to try the app to understand its full benefits." - Statement from Casterton College's SEMH Officer, Katie Anelli.

"Schools [...] benefit by being able to identify health needs and promote wellbeing of their students, as well as helping improve their health outcomes. The youHQ app is about strengthening young people's resilience and know they can reach out for support, or simply offload." - Statement from LCC's Children's Health Commissioner, Sham Mahmood
