

ES Varsity Tutors Program

Descriptions

Creative Writing Class

Parents

Enroll your student in the Varsity Tutors Creative Writing Class for grades 3-5! In this immersive class, your student will explore the realms of their imagination, crafting stories and characters. Each session encourages creativity through engaging prompts, fun activities, and interactive storytelling that bring their ideas to life.

Students

Hey young writers! Ready to dive into a world where your imagination leads the way? Join the Varsity Tutors Creative Writing class, where you can create your own amazing stories, invent cool characters, and take them on awesome adventures.

Weekly Story Hour

Parents

Enroll your student in the Varsity Tutors Weekly Story Hour live class! Each week, a captivating storyteller and English teacher will read a new book. When the story is done, the learning begins: your student will explore new vocabulary words learned in the book, understand the characters, and review the plot to increase comprehension, word recognition, and phonics as well as building their own storytelling skills.

Students

Hey kids, get ready for a new adventure with Varsity Tutors' Weekly Story Hour! Each week, a super cool storyteller will read a brand-new book just for you. After the story ends, the fun really starts: you'll learn awesome new words, get to know the characters, and talk about the story to better understand everything you've heard. It's a fun way to boost your reading skills and imagination! Ready to start the adventure?

Hands-On Math Lab

Parents

Enroll your student in the Varsity Tutors Hands-On Math Lab! Math is all around us, and it makes the world easier to understand and a lot more fun. In this weekly class, your student will use household items and favorite things to explore math in an interactive way. Each session is its own adventure designed to make a math topic more visual and memorable.

Students

Did you know math can be super fun when you use things like your favorite toys and stuff from around the house? Each week, we'll go on an adventure exploring different math mysteries in ways that you can see and touch. So, are you ready to play and learn? Let's make math fun together!

Summer Scholars

Parents

Did you know that most students experience summer learning loss, which means they lose some of the skills they learned as they enter the next grade? Enroll your student in Varsity Tutors classes over the summer to avoid this “summer slide!” From classes that help bridge the gap in skills like math and reading, to fun celebrity-led StarCourses, to interactive sessions with live tutors, there’s plenty to explore to keep your student engaged in learning over the summer break.

Students

Did you know that sometimes when we take a long break from school, like over the summer, we might forget some of the cool things we learned? It’s called the “summer slide,” but don’t worry, we can beat it together! Join Varsity Tutors for some super fun summer classes. You can take classes like math and reading to help you stay sharp, exciting classes with famous teachers, and even chat and learn with awesome tutors. Are you ready to make summer learning fun?

Fables & Fairytales Read-Along

Parents

Boost your child's reading skills with the Varsity Tutors Fables and Fairytales Read-Along. This is a live class led by an experienced storyteller who engages your student in a lively, interactive reading session in which they can follow along with pictures and words on the screen. Your student will build a love for reading while increasing comprehension and literacy skills.

Students

Are you ready for some magical adventures? Join the Fables & Fairytales Read-Along each week to read a new story with a storyteller, meet new characters, and explore enchanting places. You'll get to see the words and pictures on the screen so you can read along, too. After the story, you'll do some cool activities together. Let's go see which story is next!
