  - ***21st Century Life & Career Standards***
    - All curriculum writers/revisionists need to include standards that apply to “Career Readiness, Life Literacies, and Key Skills”. This should include a brief description of the standard and the standard number. Document only those standards and practices that apply to each unit. Use the following link to assist you [see pages of 31-36; 41-42; 53-56 for specific standard #’s and strands] https://www.state.nj.us/education/cccs/2020/2020%20NJSLS-CLKS.pdf

        - NJSLS-Math G-MG.A.3 - Apply geometric methods to solve design problems (e.g., designing an object or structure to satisfy physical constraints or minimize cost; working with typographic grid systems based on ratios).
        - NJSLS-Math N-Q.A.1. Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays.
        - NJSLS-Math N-Q.A.2. Define appropriate quantities for the purpose of descriptive modeling.
        - NJSLS-Math N-Q.A.3. Choose a level of accuracy appropriate to limitations on measurement when reporting quantities.
