## **Cypress-Fairbanks Independent School District**

**Post Elementary School** 

2023-2024

## **Mission Statement**

It is the purpose and mission of Post Elementary, in a joint effort with faculty, staff, and parents, to provide all children an education which promotes academic, social, moral, physical, and emotional growth. We are firmly committed to establishing an environment whereby every child receives support and encouragement in fostering a healthy self-concept and which confirms our belief that all children can learn. It is our expectation that providing children with this educational opportunity will help insure that each child will become a contributing and responsible member of society.

## Vision

RISE: Respect. Integrity. Safety. Effort.

## **Comprehensive Needs Assessment**

### **Needs Assessment Overview**

Needs Assessment Overview Summary

### SCHOOL PROFILE

Post Elementary is a campus in Houston, Texas. Post opened its doors in 1960. Post is projected to serve 857 students in grades PK - 5th grades during the 2023-2024 school year, which is a decrease from the previous year of 19 students in 2022-2023.

## **COMPREHENSIVE NEEDS ASSESSMENT (CNA) PROCESS**

Post's needs assessment process is described below. The school Campus Performance Objectives Council (CPOC) evaluated the following data from the 2022-23 school year:

- STAAR
- Behavior
- EPS
- EOY Benchmarks/Reading Levels

Documentation of the process includes meeting minutes, agenda, and sign in sheets. The CPOC met on May 26, 2023 and again on September 15, 2023 to develop and finalize the CNA. The meetings were held in the Post cafeteria at 10:00 a.m. and 8:00 a.m.

At the first meeting on May 26, 2023, Dr. Stockton we reviewed all of our EOY data (EPS, EOY, Discipline) and needs assessment. We determined that our math data was significantly lower in 4th and 5th grades and we would start interventions earlier in the year.

At the second meeting on September 15, 2023, the CPOC committee discussed the purpose of the CPOC Committee and introduced our district and community representatives. Because of the delay of STAAR data and Accountability and decided that

we would continue our focus on math and behavior.

The problem statements and root causes are listed in each section of the needs assessment.

### SUMMARY OF IDENTIFIED PROBLEMS AND ROOT CAUSES

Below is a summary of the prioritized problems and related root causes identified by the CPOC for the school to focus on during the 2023-24 school year:

Our first identified priority problem is in the area of student achievement, specifically in reading. We identified that students scored 80% on STAAR. Our AA student group scored the lowest in all grade levels. Through the root cause analysis process, we identified that we need to work to eliminate the learning gaps caused by COVID-19.

Our second identified priority problem is in the area of student achievement, specifically in math. Our overall STAAR scores were 68% and fourth grade sub pops were below target. Through the root cause analysis process, we identified that we need to work to eliminate the learning gaps caused by COVID-19.

Our third identified priority problem is in the area of discipline. Our student incident data increased by 55% last year. Through the root cause analysis process, we identified that teachers lacked de-escalating strategies to support keeping students in their classrooms.

### **Student Achievement**

#### **Student Achievement Strengths**

The following strengths were identified based on a review of the 2022-23 data.

- Reading: We met or exceeded all but two of our STAAR CIP Targets in every grade level at the Masters Level.
- Reading: All of our Third and Fourth graders met or exceeded our 2022 target.
- Math: Third, Fourth and Fifth grades reached 50% or higher at Approaches.
- Science: Almost all our subpops exceeded 70% at Approaches.

#### **Problem Statements Identifying Student Achievement Needs**

Problem Statement 1: RLA: Overall students scored 80% on STAAR. Our AA student group scored the lowest in all grade levels. Root Cause: RLA: We need to work to eliminate the learning gaps caused by COVID-19.

Problem Statement 2: Math: Overall Math was 68% on STAAR. All fourth grade sub pops were below target. Root Cause: Math: We need to work to eliminate the learning gaps caused by COVID-19.

Problem Statement 3: Science: Overall Science was 75% on STAAR. Our Hispanic subpop was below target. Root Cause: Science: We need to work to eliminate the learning gaps caused by COVID-19.

**Problem Statement 4:** Students are beginning the 2023-24 school year with learning gaps. **Root Cause:** The onset of COVID-19 in the spring of 2020 and the implications of modified instructional methods necessitated by the need for immediate remote learning.

**Problem Statement 5:** Campuses serving the most economically disadvantaged/at-risk students experience larger achievement gaps. **Root Cause:** Need to deepen understanding and address specific academic needs of economically disadvantaged/at-risk students.

### **School Culture and Climate**

#### School Culture and Climate Strengths

The following are strengths of the campus in regard to school culture and climate.

- EPS ranges from 95 100%
- Increased positivity and culture on campus
- Parents feel students are welcomed and safe
- Common PBIS language and visuals reinforced throughout campus
- Quality work expected
- Safe work environment
- Information related to job is accessible
- Frequent celebrations and recognition of staff

#### Problem Statements Identifying School Culture and Climate Needs

Problem Statement 1: Post Elementary's restorative practices have improved, however still need tweaking. Root Cause: Without utilizing solid PBIS strategies, teachers are not equipped to work with changing student behaviors.

## Staff Quality, Recruitment, and Retention

#### Staff Quality, Recruitment, and Retention Strengths

The following are strengths of the campus in regard to staff quality, recruitment, and retention.

- Added additional Behavior Interventionist
- One of our strengths is the experience level of our teachers.
- We identify the needs of our students and provide staff development for our teachers.
- We are building teachers' capacity and growth by providing coaching. Teachers are given a coach (who is not their appraiser) to set a collaborative goal, a time to meet, develop a plan for improvement and are provided timely and specific feedback.
- New teachers to Post are given a mentor in which they participate in monthly Mentor/Mentee meetings to discuss various topics.
- Administrators attend and support content level planning.

#### Problem Statements Identifying Staff Quality, Recruitment, and Retention Needs

**Problem Statement 1:** Teacher/Paraprofessional Attendance: Staff attendances exceeds student attendance. **Root Cause:** Teacher/Paraprofessional Attendance: Staff attendance procedures should to be communicated to teachers throughout the year.

### **Parent and Community Engagement**

#### Parent and Community Engagement Strengths

The following are strengths of the campus in regard to parent and community engagement.

- Pre-K/Kinder Corral
- 2nd 5th Meet the Teacher
- Virtual Open House
- Winter Wonderland
- Family Fun Night
- Monthly grade level activities
- Watch Dog Dads

#### Problem Statements Identifying Parent and Community Engagement Needs

Problem Statement 1: Parent and Community Engagement: Due to continued concerns regarding COVID and student safety, we need to find ways to encourage parents to attend school events in person. Root Cause: Parent and Community Engagement: We need to strengthen our committee designated to plan activities to involve parents.

## Goals

**Goal 1:** Academic Achievement: The district will ensure academic performance and achievement levels that reflect excellence in learning and attainment of both high expectations and high standards for all students.

**Performance Objective 1:** Curriculum and Instruction & Accountability: By the end of the current school year, students will meet or exceed the STAAR performance targets as noted on the attached CIP data table.

The targets listed below meet minimum expectations. Campuses are responsible for meeting the CIP targets as well as state and federal accountability targets.

## CYPRESS-FAIRBANKS ISD Standard Expectations

The following activities will no longer appear in the *District Improvement Plan* or the *Campus Improvement Plans*, since they represent practices that are expected to happen in an ongoing manner to provide instructional "standard operating procedures."

#### **Curriculum and Instruction**

- The District provides a common curriculum for all subjects at every grade level with appropriate learning
  experiences based on the Texas Essential Knowledge and Skills (TEKS) and ensures that all students, no matter
  which campus they attend, receive the same curriculum.
- The District curriculum staff updates and revises the curriculum regularly considering teacher input, state and district assessment data, and current research and best practices. The curriculum includes scope and sequence, pacing guides, instructional resources, model lessons, and assessment items that support the content area while addressing the needs of a diverse student population.
- The District curriculum resides in Schoology, the learning management system. Schoology is used to its fullest capacity: lesson planning, resource selection, assessments, data digging, and data interpretations for instructional decisions. Teacher teams, campus administrators and district staff use Performance Matters to disaggregate assessment data using various reports that allow them to view data at a district, campus, teacher, classroom and individual level.
- Teacher teams meet weekly (the appropriate number of times using Schoology) to plan collaboratively and develop effective, relevant lessons that focus on creating classroom experiences that meet students' needs while maximizing first-time instruction and learning. These classroom experiences provide opportunities in which students
  - use technology (including but not limited to Chromebooks, online textbooks, animations/videos, simulations, reports, assessments, information graphics, probe ware, graphing calculators, programs, etc.) to support the learning of the TEKS;
  - generate and translate between multiple representations (graphs, diagrams, pictures, equations, tables, poems, advertisements, etc.);
  - o develop academic language proficiency through speaking, reading, writing, and listening;
  - develop stamina to solve complex problems, read long passages and questions, and transfer knowledge to other situations and/or disciplines; and
  - have time to make sense of their learning (reflective journaling, student discourse, collaborative group work, Socratic seminars, etc.).
- The District provides and campuses follow student placement guidelines and scheduling protocols (Blue Book, Elementary Administrative Handbook, Master's Scheduler Handbook, etc.) ensuring that students are placed in the appropriate classrooms/programs and are ready and able to achieve at high levels.

#### Monitoring

- Campus leaders use various strategies, processes, and/or procedures to monitor the standard expectations to ensure fidelity. Examples include but are not limited to
  - review of lesson plans;
  - participation in team planning by administrators;
  - participation in data review/data dig sessions; and
  - o monitor Schoology use.
- Campus leaders gather data, and coach teams and individual teachers in order to improve the impact of first-time instruction and learning.

#### Assessment and Data Analysis

- The District develops and campuses administer assessments (District Progress Monitors, benchmark assessments, unit tests, check points, etc.) based on the established assessment calendars.
- Teacher teams review student data from multiple sources (DPMs, benchmark assessments, unit tests, check points, etc.) and develop a response that supports and defines methods for re-teaching and re-evaluating to ensure all students learn the content.
- Each teacher reviews data at the individual student level in an effort to adjust instruction and provide support so that every student has opportunity to master the content.

## Elementary Content Area Standard Expectations

#### Literacy (Reading and Writing)

- Maximize instructional time by developing, posting, and consistently following a literacy schedule.
- Teach/re-teach the reading and writing process throughout the school year and ensure that students read and write each day.
- Foundational TEKS should be taught daily through explicit and systematic instruction.
- Utilize reading and writing strategies to teach and reinforce critical TEKS (think aloud, modeling reading and writing processes in -lessons, interactive read aloud with accountable talk, independent reading and writing, small group instruction, conferring, and whole group share time).
- Use varied, authentic literature as mentor texts in reading and writing.
- Allow student choice during independent reading time from classroom and digital libraries.
- Post and use anchor charts, created with students, in literacy classrooms.
- Maintain a monitoring notebook as documentation of individual student's progress observed during small group instruction and/or reading/writing conferences.
- Use varied, research-based strategies to teach revising and editing skills and apply language conventions within the context of writing.
- Use District and campus data to differentiate literacy instruction using individual conferences, small group instruction, and/or strategy group instruction.
- Integrate social studies and theater arts TEKS in literacy classes through read aloud and the reading and writing block.
  - 1:1 Technology in the Language Arts classroom should provide opportunities for students to:
    - Use Chromebook devices to engage in face-to-face and digital creation and collaboration
    - o Locate and access information and resources stored in different platforms such as Google Drive and Schoology
    - o Communicate and share conclusions using digital tools such as Google Suite, Flipgrid, WeVideo etc.
    - Incorporate the use of digital tools such as:
      - Google Suite
      - Scholastic Literacy Pro

- Amira SuiteHMH Suite
- Library Resources
- Scholastic Storyworks (2<sup>nd</sup>-5<sup>th</sup>)
   Boost Reading
- Schoology
- Incorporate the use of technology inside the Language Arts classroom when it is the most effective and developmentally appropriate tool for the task being asked of the student
- Utilize only after explicit and systematic instruction of literacy processes has occurred and not in place of first instruction

#### Mathematics

- Model and expect students to use a problem-solving process.
- Post and use classroom-created anchor charts in math classrooms.
- Facilitate fact fluency/numeracy for 10-15 minutes daily during math instruction to develop automaticity. This can be accomplished using ST Math Puzzle Talks, Number Talks, Math Talks, CFISD Fact Fluency Plan, ORIGO Box of Facts, and other content conversation routines.
  - "Procedural fluency refers to knowledge of procedures, knowledge or when and how to use them appropriately, and skill in performing them flexibly, accurately, and efficiently." NRC (2001)
  - Automaticity is fast recall of facts which seemingly appear instant.
- Use math manipulatives to help students develop concept understandings.
- Include teaching strategies and questions designed to promote higher-level thinking in lesson plans to improve first-time learning, which includes time for productive struggle.
- Use and encourage students to use precise mathematical vocabulary.
- Use Interactive Math Notebooks in 2<sup>nd</sup>-5<sup>th</sup> grade.
- Incorporate the use of small-group instruction to meet the needs of individual learners.
- Encourage student discourse/discussion including "what do you notice/wonder" and justifications.
- 1:1 Technology in the math classroom should provide opportunities for students to:
  - Use Chromebook devices to engage in digital creation and collaboration
    - Incorporate the use of digital tools such as ST Math, Gizmos, ClassFlow, Interactive Textbook, Schoology, Google Suite, etc.
    - Incorporate the use of technology inside the math classroom when it is the most effective tool for the task being asked of the student
    - o Communicate and share products using digital tools such as Google Suites, WeVideo, FlipGrid, etc.
    - Use technology to discover relationships and/or make connections between representations of mathematics, beyond skills practice

#### Science

Teachers will develop science-literate students by creating learning opportunities using the 5E Instructional Model (grades 2-5) that engage students in scientific practices that require them to

- Ask questions, identify problems, plan and conduct classroom and field investigations to answer questions according to grade-level TEKS expectations (K-1 = 80% of the time, 2<sup>nd</sup>-3<sup>rd</sup> = 60% of the time, 4<sup>th</sup>-5<sup>th</sup> = 50% of the time).
- Use a science notebook (grades 2-5) to collect and organize data in simple graphs, tables, maps, and charts.
- Analyze data using math to derive meaning, identify patterns, and discover relationships.
- Engage in a common inquiry experience to make sense of and develop scientific concepts and vocabulary.
- Develop evidence-based explanations and communicate findings, conclusions, and proposed solutions.
- Engage respectfully in scientific discussion by listening, speaking, reading, and scientific writing.
- Incorporate the use of technology when it is the most effective tool for the task.
- 1:1 Technology in the science classroom should provide opportunities for students to:
  - Use Chromebook devices to engage in face-to-face and digital collaboration;
  - o Locate and access information and resources stored in different platforms such as Google Drive and Schoology
  - Explore simulations (e.g. Explore Learning Gizmos, Interactive textbook, etc.);
  - Collect and represent data using digital tools such as digital microscopes, Google Suite, etc;
  - Communicate and share conclusions using digital tools such as; Google Suite, Flipgrid, WeVideo etc.

#### **Elementary Physical Education/Health (K-5)**

- Utilize best practices for providing skills-based instruction in elementary physical education and health
- Utilize best practices to achieve moderate to vigorous physical activity
- Differentiate teaching strategies to meet individual student needs including allowing for student choice when possible and appropriate
- Provide engaging instruction with the goal of promoting the development of lifelong health and fitness
- Utilize technology to encourage movement and physical activity as appropriate
- Utilize district curriculum resources available to teachers to provide rigorous and relevant learning experiences
- Provide the required fitness assessments for students in grades three, four, and five
- Participate in activities and events that promote school and community involvement

#### Elementary Music (K- 5)

- Develop the singing voice as the foundation of music learning through folk, patriotic, seasonal, and songs of diverse genres
- Provide music experiences through activities that include listening, movement, improvisation, and playing a variety of classroom pitched and unpitched instruments
- Create lessons and utilize activities that develop understanding of the elements of music such as rhythm, dynamics, melody, harmony, tone color (timbre), texture, and form
- Utilize district curriculum resources available to teachers to provide rigorous and relevant learning experiences
- Use 1:1 technology as a resource for self-exploration of topics and careers in music
- Encourage students to connect learning in music with other areas of knowledge such as math, reading, and social studies
- Participate in activities and events that promote school and community involvement

#### Visual Arts (K-5)

- Model and teach artistic thinking which means prompting curiosity and asking questions to develop ideas.
- Create open-ended lessons encouraging the voice and experiences of students through creative approaches and unique solutions.
- Introduce a variety of processes/media to demonstrate skills and techniques (not solutions).
- Explore careers associated with visual culture.
- Encourage students to connect learning in art with other areas of knowledge such as math, reading, and social studies.
- Reflect on teaching practices to enhance professional development.
- Utilize the resources available to teachers including the CFISD adopted instructional materials, 1:1 technology, CFISD Benchmarks and CFISD Curriculum Standards.
- Encourage excellence by providing multiple opportunities for the students to compete in various settings including the Houston Rodeo School Art Contest, and the Texas Elementary Art Meet (TEAM contest).
- Participate in activities and events that promote school and community involvement, such as campus and districtwide art exhibits.
