

# PACKER PROCESS

## COMPASSION IN THIS CLASSROOM:

Singing is very personal to the individual musician. It is everyone's job in this room to keep choir a safe place to express yourself, take risks, and have fun. This all stems from the compassion you show others during choir rehearsals.

## COLLABORATION IN THIS CLASSROOM:

Choir is all about collaboration! Each individual singer brings something unique to the ensemble, and the choir would not be the same without them. Strive to work together to create beautiful music and accomplish great things together.

## RESPONSIBILITY IN THIS CLASSROOM:

Each member of the choir is responsible for their own actions, and how it affects the rest of the ensemble. As always, treat others as you would want to be treated.

## RESILIENCE IN THIS CLASSROOM:

I am always available for help. If my door is open, come on in and ask me a question. Also, sometimes choir rehearsals can get nit-picky and repetitive. That is just the nature of the beast, and it will be all worth it when we create a beautiful piece of art.
