SPOTLIGHT ON EDUCATORS

BRIAN HIGHLAND - Seventh Grade Science Teacher

This week I visited Mr. Highland's seventh grade scientists at work. The students enthusiastically explained to me that they were exploring all the different features of the microscope and how to use it. Students then drew and described the amoeba, paramecium, and other microorganisms they observed.

youth mental health resource guide

don't carry it alone.

WE'VE GOT YOU

stamforyouthmentalhealthalliance.org

There are many resources to support the mental health of children and adolescents in Stamford. This guide was created by the city's Department of Health & Human Services in conjunction with the Stamford Youth Mental Health Alliance (SYMHA) to provide a listing of organizations and services by category where each listing includes a key for the languages that are spoken there. The SYMHA strives to make resources available and increase access and eligibility to the entire community, so that families can identify support and get help as quickly as possible. In addition to the information in this guide, the SYMHA's website includes helpful resources such as a self-care student planner, sample questions to ask a therapist and more, which can be found at:
