

# Scissors Grasp

*(Left-handers)*

- “Thumb” goes in the little loop.
- “Pointer” goes on white dot (white-out) on top of the big loop.
- The middle and ring fingers OR (if they all fit) the middle, ring and little fingers are placed inside the big loop.
- The scissors are positioned toward the fingers tips for cutting.
- “Pretend glue” the cutting arm to your side.
- The “helper hand” does the “driving”, moving the arm away from the side, as needed, to “steer” the paper.
