October 16, 2023

**Notice to Parents, Students, and Employees of the
Delta Charter School**

In December 2020, a comprehensive inspection was completed of all structures in the Delta Charter School Facility for the purpose of locating and identifying “Asbestos Containing Materials”. A Management Plan was developed, by PAC Environmental Specialists, for the facility to be kept on file on site.

A copy of the plan for the facility can be located in the Director’s Office and is available for public inspection during regular school hours.

Sincerely,
Monica Miller
Director
Delta Charter School
