

West Chester Area School District

Employee Health Benefits Program

Understanding Your Diabetic Supplies Benefits

This document outlines your medical and pharmacy diabetic medication & supply benefits so you can determine the most cost effective available options.

Diabetic Prescriptions covered through the CVS/Caremark Prescription Plan

- Insulin
- Amylinomimetic Drugs
- Alpha-Glucosidase Inhibitors
- Biguanides
- Metformin
- Dopamine Agonist
- DPP-4 Inhibitors
- Glucagon-like Peptides (Incretin Mimetics)
- Meglitinides
- Sodium Glucose Transporter (SGLT) 2 Inhibitors
- Sulfonylureas
- Thiazolidinedione
- Glucagon Emergency Kits

Diabetic Supplies covered through the Durable Medical Equipment (DME) & Supplies benefit through the IBC Medical Plan

- Blood Glucose Monitors
- Interstitial Continuous Glucose Monitoring Systems
- Insulin Pumps and Associated Supplies
- Injection Aides
- Alcohol Swabs
- Lancing Devices
- Blood and Urine Test Strips
- Insulin Pens, Needles, and Syringes for the administration of injectable diabetic medications
