*Number of Required Doses

This table is a general guideline of the state required vaccinations needed for the start of the school year. If you are following the recommended immunization schedule, your child should meet the state's requirements. Please check with your child's healthcare provider to verify that they are up to date on their immunizations.

Many medical providers offer patient portals such as MyCHOP, MyNeMours, or MyPennMedicine, which will allow you to print proof of immunizations to send to your school's nurse.

Vaccinefinder.org is a useful tool that helps locate facilities that administer vaccines.
