## **School District Areas of Improvement and Planning - Indicators**

### **Suspension/Expulsion by Race/Ethnicity (Indicator 4B)**

**Indicator not flagged at this time.**

### **Disproportionate Representation by Race/Ethnicity (Indicator 9)**

**Indicator not flagged at this time.**

### **Disproportionate Representation by Race/Ethnicity/Disability (Indicator 10)**

**Indicator not flagged at this time.**

### **Timely Initial Evaluations (Indicator 11)**

**Indicator not flagged at this time.**

### **Secondary Transition (Indicator 13)**

**Indicator not flagged at this time.**

### **Graduation (Indicator 1)**

**Indicator not flagged at this time.**

## Drop Out (Indicator 2)

Indicator not flagged at this time.

## Assessment (Indicator 3)

Improvement and Planning Activity
During the 2021-2022 school year, the WCASD schools District did not meet the target for students with IEPs that participate in state testing. The WCASD will continue to educate parents on the data that can be gathered from the PSSA and PASA.
During the 2021-2022 school year, the WCASD did not meet target for the gap in proficiency rate against grade level academic achievement. The WCASD will support teachers in understanding the data that can be gathered by analyzing PSSA and PASA results.

## Education Environments (Indicator 5)

Improvement and Planning Activity
During the 2021-2022 school year, the WCASD did not meet target for the number of students educated inside the regular class for 80% or more. The West Chester Area School District will continue to educate both general education and special education teachers on meeting students needs in the LRE.

## Parent Involvement (Indicator 8)

Indicator not flagged at this time.

### **Early Childhood Transition (Indicator 12)**

**Indicator not flagged at this time.**

### **Post-School Outcomes (Indicator 14)**

**Indicator not flagged at this time.**

### **Resolution Sessions (Indicator 15)**

**Indicator not flagged at this time.**

### **Mediation (Indicator 16)**

**Indicator not flagged at this time.**

## **School District Areas of Improvement and Planning - Monitoring**

District has completed all monitoring corrective action/improvement plans.

## Identification Method

Identify the District's method for identifying students with specific learning disabilities

Discrepancy Model

Building Name	AUN	Branch Number	RTI	Approved RTI Use
---------------	-----	---------------	-----	------------------

## Non-Resident Students Oversight

### 1. Is your district currently a host district for a 1306 facility?

Yes

24 P.S. §1306 facilities				
Facility Name	Facility Type	Facility Type: Other	Services Provided By	Total Students in Facility
Devereux	Resident Treatment Facility		Licensed Private Academic	179
Clock Tower Schools	Resident Treatment Facility		District	1
Synergy House	Resident Treatment Facility		District	2
Valley Youth House	Residential Setting		District	1
Supportive Concepts	Residential Setting		District	1
Holcomb Adult Home	Residential Setting		District	1
Devereux Adult Group Home	Residential Setting		District	1

### 1. Describe the host's educational oversight to ensure students with disabilities are educated in the least restrictive environment while in the 1306 facility? (If not a host, answer as if you were.)

Within the West Chester Area School District there are a number of group homes, shelters, and residential treatment facilities. Through those facilities, the District is responsible for ensuring the students receive an appropriate education. Through the requirements set forth under the 1306 regulations, the West Chester Area School District, or the Chester County Intermediate unit on behalf of the West Chester Area School District, attends all scheduled IEP meetings for these students. Records are requested from the prior district upon admission. Students are placed within 5 days and for students with a disability, IEP meetings are held as soon as possible once the records are received from the previous district. At those IEP meetings, appropriate educational recommendations are made based on the data collected from all parties involved. For eligible students, the IEP team considers the complete continuum of special education services to offer a Free Appropriate Public Education (FAPE). Educational placement and or services offered are an individualized decision based on the unique needs of the specific student.

### 2. Describe the district's procedures for communicating with 1306 facilities and how the district ensures a successful transition back to school?

When a student is ready to transition back to their home school district, a transition meeting is held that includes WCASD representation, the 1306 facility, and the district of residence.

Recommendations and strategies from the 1306 placement are discussed to help ensure that the student will have a successful transition.

## **Incarcerated Students Oversight**

- 1. Does the district have an adult correctional facility that houses juveniles within its geographical boundaries?**

No

- 1. Describe the system of oversight the District would implement to ensure that all incarcerated students who may be eligible for special education are located, identified, evaluated and when deemed eligible, are offered a free appropriate public education (FAPE).**

## Least Restrictive Environment

**1. Review the district's data for Least Restrictive Environment. Highlight areas of improvement.**

WCASD is doing well based on 2022-2023 data in terms of least restrictive environment as compared with the state averages. The state average for students educated inside general education class 80% or more is 61.6% and WCASD is 57%. We are also below the state average for students in regular classroom less than 40% of the day with an average of 5.2% compared to the states 10%. We are equal with the state averages for students educated in other settings.

**2. What universal practices does the district utilize to address the academic and social/emotional needs of all students in need of accommodations to their learning environments?**

The WCASD utilizes a MTSS team (Multi-Tiered System of Supports) in all schools to address student academic and social/emotional needs. The MTSS reviews student cases on an ongoing basis and provides supports and interventions to all students where needed. Academic, behavior, and/or mental health goals are developed for each student, interventions are put in place, data is collected and then reviewed for each student. The WCASD also employs mental health therapists in each district building and intervention specialists at the secondary schools to address mental health needs. Eligibility for mental health services is made on a case by case basis and via a formalized screening process. For students requiring a higher level of social/emotional/behavioral support, the district has emotional support programs in all secondary buildings – 3 middle schools and 3 high schools, and three of our elementary schools. For students who are evaluated and found to be in need of special education services, we have learning support classrooms in all 17 of our school buildings. For students who require a more intensive level of support, we have several low incidence classrooms located throughout the District.

**3. Describe the academic programming and training efforts the LEA utilizes to ensure meaningful participation of students with disabilities in the general education curriculum.**

The WCASD provides alignment days for teachers who teach complex needs students in emotional support, autistic support, multiple disabilities support, and life skills support. This coordination between staff, K-12, enables the teachers to discuss best practices and adjustments for students enrolled in intensive programs. The WCASD also provides time in PLCs (Professional Learning Communities) for special education teachers and regular education teachers to discuss academic supports for students. The WCASD provides all special education teachers who teach reading the opportunity to participate in the LETRS (Language Essentials for Teachers of Reading and Spelling) training. LETRS enables teachers to diagnose and remediate reading needs so that students can participate in the general education curriculum to the maximum extent possible.

**4. Describe the supplementary aids and services the LEA utilizes to ensure meaningful participation of students with disabilities in extracurricular activities.**

The WCASD provides multiple supplementary aides and services for students of all abilities to participate in extra-curricular activities. Students in learning support, life skills support, autistic support, etc., attend activity fairs at the high schools to introduce them to district opportunities for participation. If a student needs to have support at a chosen extra-curricular activity, K-12, the district provides para-professional assistance, training for coaches/advisors, and equipment to

participate equitably with peers and accommodate learning and physical needs. The district supports students with disabilities specifically participating in the play/musicals, sports, and clubs. The District also has unified bocce teams at all three high schools and a unified track team at one high school.

5. **Describe the District procedures, which ensure that, to the maximum extent appropriate, children with disabilities placed in private institutions are educated with non-disabled children and have the opportunity to participate in district lead extracurricular activities?**

The WCASD provides opportunities for students in out of district placements to participate in all extra-curricular activities. Similar to above, the WCASD provides paraprofessional support, training, and equipment. If a student, or family, of a student in an out of district placement wishes to have participation in extra-curricular activities in their home school, the district provides transportation to that activity at no cost to the family. The LEA participates in all IEP meetings for students in out of district placements. At these meetings, information about participation in district activities is regularly shared via special education liaisons.

6. **Discuss the district's need to build capacity and expand programs and services in an effort to provide a continuum of services. (Consider the out of district placement chart)**

WCASD identifies that it needs to have more time for collaboration, in a formalized way, with regular education and special education teachers. The purpose for this collaboration is to review practices, accommodations, and modifications for students with complex instructional needs. Also, ongoing professional development for regular education teachers is required so that the regular education teachers understand the students and how to work with the paraprofessionals supporting students in their classrooms. Regular trainings for paraprofessional staff in making modifications and accommodations in regular education settings is needed as well. This could look like scheduled time with regular education teachers to set up the classroom at the beginning of the year, and periodic reviews throughout the year to discuss progress. WCASD plans on building on the supports needed to give special education students stronger access to extracurricular activities. The district will use SEL and PBIS to continue education on acceptance and awareness for increased student involvement and peer education.

## Positive Behavior Support

### Date of Approval

2015-08-01

### Uploaded Files

WCASD Behavior Support Services Policy.pdf

**1. How does the district support the emotional, social needs of students with disabilities?**

Currently, all students with disabilities who have behaviors that impede their learning or that of others have carefully designed goals and/or specially designed instruction addressing those behaviors. The IEP team conducts a Functional Behavior Assessment (FBA) to determine the target behaviors of concern. Once the behaviors are identified, the team analyzes the antecedent behaviors that occurred prior to the behavior being exhibited. Consequences to the students' behaviors are also documented. The team then analyzes all the shared information. Upon completion of the FBA, the team creates a Positive Behavior Support Plan (PBSP). This plan systematically addresses the behaviors of concern and reinforces newly learned, appropriate replacement skills using positive reinforcers. The PBSP is shared with all staff working with the student to ensure consistent implementation of the plan across all environments. The West Chester Area School District staffs each of the seventeen buildings with a Board Certified Behavior Analyst (BCBA). The BCBAs are a combination of district employees and contracted Behavior Analysts. The Behavior Analysts train staff on PBSPs and offer support to our students who present with more intense behavior needs. Our consultant models behavioral techniques for our staff and observes the implementation of behavioral strategies to ensure proper delivery and in-class coaching. Tier 1 supports for elementary students consists of the Second Step Program and Tier 1 supports at the secondary schools consists of SEL programming. Tier 2 supports include The Zones of Regulation, social skills groups with a school counselor, and individual behavior support plans. Students with IEPs have access to the above interventions as well as direct instruction in coping skills, social skills, and self-regulation. In addition to behavior supports, the district has mental health specialists, school counselors, intervention specialists and school psychologists in every district building. Students are referred for these services through the MTSS process, where recommendations for interventions and services are discussed.

**2. Describe training provided to staff in the use of positive behavior supports, de-escalation techniques and responses to behavior that may require immediate intervention.**

WCASD has developed a protocol to be implemented in each school building to ensure a systematic process for training the school-based Quality Behavioral Solutions Safety-Care/De-escalation teams. Safety-Care teams are established in each of our district schools. Initial and refresher Safety-Care training occurs throughout each school year. Refresher courses are required on a yearly basis.

**3. Describe the district positive school wide support programs.**

The West Chester Area School District (WCASD) believes that all children, regardless of their

disability, should be educated in the least restrictive environment to the maximum extent possible with nondisabled peers. The District fully embraces the responsibility to meet the individual behavioral needs of students to ensure they make meaningful progress. Schools are implementing characteristics of school-wide positive behavior support programs as well as creating individual positive behavior support plans to reinforce appropriate behavior and teach positive replacement skills that will be generalized throughout the learning environment.

**4. Describe the district school-based behavior health services.**

The West Chester Area School District staffs all secondary schools with an intervention specialist and mental health specialist. The role of the intervention specialist is to intervene in crisis situations and to provide supportive counseling for students who require a higher degree of care than that which a teacher or counselor can provide. Intervention Specialists also support students transitioning in and out of mental health placements to ensure students have all of the supports needed to be successful in the school setting. All counselors in the school district are trained in suicide risk assessment and violence risk assessment. Mental health screenings are available for all grade levels. Mental Health Specialists are available in all buildings and needs are determined via a screening conducted through the MTSS process. In addition, the district contracts with Devereux for a full time SAP person who provides psychoeducational lessons for policy violators, mental health services to Spanish speaking students, and short-term counseling to any student who needs it in grades kindergarten through twelve. The West Chester Area School District has a program in each high school called Achieve, Progress, Transition (APT). Academic and emotional support is available for students through this Tier III regular education intervention. Students can be in the program 1-8 periods a day based on individual needs. It can also be utilized as students transition to and from a more restrictive environment. All students considered for the APT program need to go through the MTSS process and specific goals are developed.

**5. Describe the district restraint procedure.**

Restraints to control aggressive or self-injurious behavior may be used only when the student is acting in a manner as to be a clear and present danger to him/herself, to other students, or to employees, and only when less restrictive measures and techniques have proven to be or are less effective. A District representative shall notify the parent/guardian as soon as possible of the use of restraints to control the aggressive behavior of his/her child and shall convene a meeting of the IEP team within ten (10) school days of the inappropriate behavior causing the use of restraints, unless the parent/guardian, after written notice, agrees in writing to waive the meeting. At this meeting, the IEP team shall consider whether the student needs a functional behavioral assessment, re-evaluation, a new or revised positive Behavior Support Plan, or a change of placement to address the inappropriate behavior.

## **Intensive Interagency**

**Please address any areas of concern with students who are placed on Instruction Conducted in the Home or who are at a substantial risk of waiting more than 30 days for an appropriate educational placement.**

Due to significant medical needs and complexity of medical supports needed, two West Chester Area School District students require and are appropriately placed in Instruction Conducted in the Home at this time. All Instruction Conducted in the Home placements are documented within the IEP and parents are given prior written notice via Notice of Recommended Educational Placement.

## Signatures & Affirmations

Approval Date

2022-05-04

## Uploaded Files

- x There are a full range of services, programs and alternative placements available to the school district for placement and implementation of the special education programs in the school district.
- x The school district has adopted a child find system to locate, identify and evaluate young children and children who are thought to be a child with a disability eligible for special education residing within the school district's jurisdiction. Child find data is collected, maintained, and used in decision-making. Child find process and procedures are evaluated for its effectiveness. The school district implements mechanisms to disseminate child find information to the public, organizations, agencies, and individuals on at least an annual basis.
- x The school district has adopted policies and procedures that assure that students with disabilities are included in general education programs and extracurricular and non-academic programs and activities to the maximum extent appropriate in accordance with an Individualized Education Program.
- x The school district will comply with the PA Department of Education, Bureau of Special Education's revision notice process.
- x The school district follows the state and federal guidelines for participation of students with disabilities in state and district-wide assessments including the determination of participation, the need for accommodations, and the methods of assessing students for whom regular assessment is not appropriate.
- x The school district affirms the Pennsylvania Department of Education that funds received through participation in the medical assistance reimbursement program, ACCESS, will be used to enhance or expand the current level of services and programs provided to students with disabilities in this local education agency.
