

Accelerate your Career in Manufacturing with Tesla

If you are interested in finding out how you can start your career at Tesla with the MDP, scan the QR code below:

TESLA - Manufacturing Development Program 2025 Interest Form

* For our Central Valley Interns we are working with **Delta College** and **MJC** to partner soon. Get on the interest list now to be alerted once confirmed.

Tesla's Manufacturing Development Program (MDP) in partnership with Ohlone College, Fremont CA, Laney College, Oakland, CA and Diablo Valley College, Pleasant Hill, CA.

Start your career at Tesla with an education first. Learn how Tesla is accelerating the world's transition to sustainable energy.

With the Manufacturing Development Program interns attend a semester of formal college level education that will prepare them for a career in manufacturing.

- Tuition is covered for all Interns.
- Interns will earn full time pay and benefits.
- Take classes focused on Manufacturing

After successful completion of the program graduates will be offered a position as a Production Associate at the Factory in Fremont, CA or Megafactory, Lathrop, CA

Become a part of the team at Tesla and Launch your career now.
