

Strategic Plan Development

Setting the course for academic excellence in a caring environment
2025 ~ 2030

The Morris School District Advantage

An education in the Morris School District immerses students in an extraordinary combination of benefits: an innovative, relevant curriculum; an investment in student participation and relationships; multicultural classrooms within a cosmopolitan community; and preparation for full engagement in a global society. Our students graduate equipped with the lasting results these benefits confer on an individual's future life experiences.
