

2024 Mohave Girls Soccer

This will be my 4th year coaching this team. I look forward to an exciting season and helping you develop as student athletes. School comes first then sports. Our goal is for you to have fun while learning, build school pride, help develop your soccer knowledge/skills, work as a team and build self-esteem. We will Win with Class and Lose with Dignity. I will be evaluating all players over the next few weeks and the sports festival to determine the Tier 2/Varsity team. Please always come to practice/games with a great attitude and always give 110%. I know some players may have other obligations and may miss practice. This will not reflect in your chance to make the team. Please communicate via Google Classroom if you will not make a practice. The link is below with class code.
