

Weekly Classes*

Chess Club

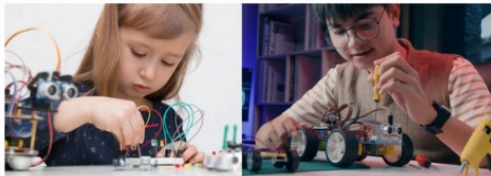

(Chess for kids ages 6 - 13)

Mon & Wed (In-person) 4pm-6pm

Fri (Online) 4pm-5:30pm

NEW! Fri (In-person) 6pm-8pm

The OLC Kids Chess Club is a club for kids who love to play and learn about chess. Learn tactics & strategies from our Candidate Master instructors.

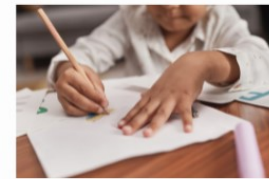

Arduino Club

(Robotics for kids ages 7 - 13)

Tue & Thur (In-person) 4pm-6pm

Arduino is an open-source platform that is best for beginners learning electronics. Learn how electronics work from intro to microcontrollers to sensors to DC & servo motors.

Art Club

(Art for kids ages 6 - 9)

Tue & Thur (In-person) 4pm-5pm

Explore various art forms from drawing to 3D art and make beautiful projects. Little artists will develop creativity, imagination and new art-making techniques.

Spring & Summer Camps

OLC Spring & Summer Chess Camps

See website for updates.

Join our week-long camps consisting of chess instruction and play. We have separate sessions for beginners and for intermediate & advanced players.

OLC Robotics Summer Camp

See website for updates.

Students will learn about Arduino programming. Beginner students will learn from introduction to circuits to fundamentals of coding to enhancing their computer skills. Intermediate students will apply their skills to build an electronic game.

OLC Art Summer Camp

See website for updates.

This is an art camp where students will get the chance to create various projects based around a specific theme. Activities will include watercolor painting, drawing, crafts, and art games.
