Interactive and fun STEM Camps for middle and high school girls at Young Women's Leadership Academy

Our one-week camps are designed for girls who are interested in STEM and who want to expand their understanding of how science, technology, engineering and math apply to everyday life.

Here are a few things that you will learn and experience:

Fundamentals of HTML and coding

Fun Design Challenges and Activities

STEM Professional Guest Speakers

Chance to win a free graphing calculator

Cost is FREE!

Her path to a limitless future
