UNITED NATIONS DAY

For 72 years, Jakarta Intercultural School (JIS) has prepared students from across the globe to be best in what they aspire to and at the same time, be best for the world they live in.

Jakarta Intercultural School

An important part of JIS high school is service learning. All students are required to complete Creativity, Activity and Service activities throughout High School. It is important for students to be well rounded and give back to their community. With service learning built into the curriculum, our students develop into confident, creative, respectful, empathetic, and environmentally responsible people. The academic growth they achieve at JIS ensures their ongoing contribution to the world community will be significant.

## 2023 UPDATES

As we see the value in providing leadership opportunities for all students, we have restructured co-curricular activities to allow for equitable leadership opportunities and to maximize community impact. Starting this school year, JIS students will only be allowed to have one campus-wide leadership role.

JIS's science curriculum has been updated to integrate Chemistry, Computer Science, and Physics (Gr. 9) and Biology, Computer Science, and Environmental Science (Gr. 10) to ensure breadth and depth for scientific literacy and to allow students to access all higher level science courses in Gr. 11 and Gr. 12.

GEORGETOWN UNIVERSITY

### Map of the Modern World

JIS is proud to partner with Georgetown University's School of Foreign Service (SFS) and offer this blended online and face-to-face course developed more than a quarter century ago to "banish geographic illiteracy". This course provides students with a better understanding of physical and political geography of the contemporary world map and helps them understand current world issues and coming change. This is a required course for all Georgetown SFS students, and JIS is proud to be the first international school to offer it to high school students.
