

Testing Transparency 2024-25

Testing in the district is included in a document and posted on the school's website. It can be found if you hover over "District" then choose "District Documents". Click on "2024-25 KASD Assessment guide". The guide shows information on assessments used; grades tested; the purpose of the assessment; testing windows; dates scheduled in the district; how we report results to parents/guardians. Assessments with a date in the testing window but no date in the column "Dates scheduled for administration" such as State Assessments will be updated as soon as the dates are set for the district.

Here is a link to the current year's document:
