

Home Language Survey (HLS)

- All LEAs are required to have the statewide HLS in the registration process, ensures one is completed by parents for EACH child enrolled, and utilizes it as a tool in the identification process of ELs. The HLS is completed once in a student's academic experience with a school district. The HLS does not need to be completed by families annually, unless the family is enrolling a new sibling. HLS must be kept in the students cumulative file.

Our Home Language Survey is filled out upon a student's enrollment. The form is given with enrollment paperwork and can also be found on the KASD website.
