

WHARTON INDEPENDENT SCHOOL DISTRICT

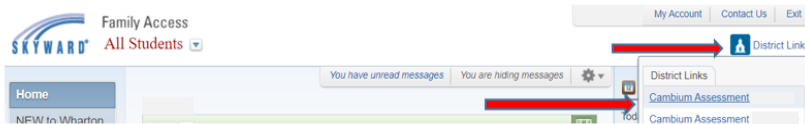

Department of Assessment and Accountability

Single Sign On is a feature that has been added to parent SKYWARD access in Wharton ISD. This feature allows parents direct access to their child's State assessment scores with one click.

The Texas Assessment Student Portal offers parents and students the following resources:

- Understanding your Child's Score
- All about the STAAR test
- How to help your child prepare
- Literacy and Lexile® Measures
- The Quantiles® Framework for Mathematics
- FAQ's

When a guardian logs into Skyward, look for District Links in the top right corner. Click this link and choose Cambium assessments. There will be a line for each student if you have multiple children enrolled in WISD.

This will open a new window and log the guardian directly into the Texas Assessment Family Portal. Once in the Family Portal, choose the school year you would like to see scores for. Click **view detailed report** or **download detailed report** for more information on each test.

View Detailed Report will provide you access to:

- Overall results
- Category results
- Test questions
- Responses
- Lexile® Trend
- Resources to help your child
