

Not up to date on all your vaccines?

We can help.

Your benefit plan lets you access non-seasonal vaccines, including RSV, pneumonia, shingles, measles and Tdap.

You can schedule a vaccine appointment at any network pharmacy.

IT'S EASY TO MAKE AN APPOINTMENT

Walk in or schedule your vaccine appointment at a nearby CVS Pharmacy®.

Aetna is the brand name used for products and services provided by one or more of the Aetna group of companies, including Aetna Life Insurance Company and its affiliates (Aetna). Pharmacy benefits are administered by an affiliated pharmacy benefit manager, CVS Caremark®. Aetna®, CVS Caremark® and CVS Pharmacy® are part of the CVS Health® family of companies. This message is for informational purposes only, is not medical advice and is not intended to be a substitute for proper medical care provided by a physician. Information is accurate as of the production date but may change. Refer to [Aetna.com](https://www.aetna.com) for more information about Aetna® plans.

Flu shots and vaccines may not be available in all pharmacies at all times. Call for availability and to make an appointment, if needed. Most vaccines require a prescription (except for the flu shot). The flu shot and many vaccines to treat common illnesses are generally covered under the Affordable Care Act by non-grandfathered group health plans and non-grandfathered individual and group health insurance coverage typically with no cost sharing if provided by an in-network provider, consistent with specified dosage limits and satisfaction of age and other vaccine specific requirements. Other restrictions may apply. Check with your health plan if you have any questions about your benefits.
