ABOUT HEIGHTS HOMESCHOOL ACADEMY

With the growing interest in homeschooling across Southern California, and a growing disenchantment with the public schools, HeightsHomeschool Academy offers several education paths for families seeking a well-rounded opportunity to manage their child's education through a faith-based lens.

HCS is a proven leader in Christian education for more than four decades. Our new program, Heights Homeschool Academy combines traditional on-campus learning in a classroom a few days a week, with the student learning from home the rest of the week.

Parents can choose the level of support preferred for their child's education, determining their on-campus engagement (up to three days per week), as well as the level of support preferred for consultation, administrative and clerical tasks, curriculum and materials selection and implementation, and direct instruction and instructional support.

Heights Homeschool Academy offers the best of both worlds for families that want more options and more control of their child's educational experiences.

Mission

The mission of HCS is to lead students and their families into a relationship with Jesus Christ, equipping them in heart and mind to influence the world for God's kingdom.

Vision

The vision of Heights at Home is to partner with parents, supporting their desire to provide a hybrid learning environment of on-campus and at-home learning. Heights@Home comes alongside parents offering support, expertise, tools, and guidance to effectively educate the children in all areas of academic development and help them to grow in the Lord.

"Let the little children come to me, and do not hinder them, for the kingdom of heaven belongs to such as these." - Matthew 19:14
