Charles County Public Schools School Improvement Plan Cycle 1

> JP Ryon Elementary

Cardinals RISE UP to any Challenge!

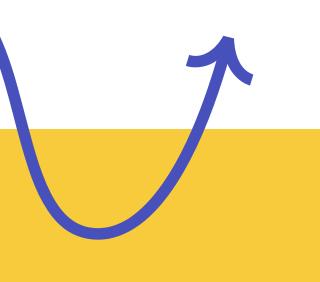

Why Continuous School Improvement

- ✓ School Improvement is the blueprint schools use to guide decision making to impact important markers of successful schools - student achievement, absenteeism, teacher retention and development, school climate and culture, parental involvement, resource allocations, and systems and structures (Grissom, Egalite, & Lindsay, 2021).
- ✓ Each school develops a School Improvement Plan (SIP). The SIP identifies priority goals, instructional and culture strategies, and supports schools will implement to raise student achievement and prepare students for college and career pathways.
- \checkmark This work starts at the elementary school and continues through high school.

Why Continuous School Improvement

Continuous improvement is based upon three core principles:

- ✓ Change takes time and involves collective effort (Bryk et al., 2015; Katz, Earl, & Jaafar, 2009).
- Change is context-specific and therefore requires constant adaptation, data collection, and learning (Bryk et al., 2015).
- Focusing on a series of small changes, combined with ongoing evidence collection and review, can lead to large-scale change (Derrick-Mills, Sandstrom, Pettijohn, Fyffe, & Koulish, 2014; Hawley, 2006; Park, Hironaka, Carver, & Nordstrum, 2013; Snow, Dismuke, Zenkert, & Loffer, 2017).

JP Ryon Elementary Vision, Misson, Collective Efficacy Statements

Vision:

Our instructional vision is to create a rigorous academic environment that prepares our students for continued academic and social achievement through increasing the capacity of instructional leaders.

Our mission is to provide consistent support to retain highly effective educators as they refine and implement best practices in an instructional environment through planning opportunities with instructional lead teachers aligned with curriculum pacing, individual and grade-level coaching with instructional coaches and collaboration with assistant principals and counselors to achieve positive behavior and social-emotional awareness to attain student achievement.

Collective Efficacy Statement:

Through the continuous school improvement process, J. P. Ryon ES will create a learning environment focused on growing educational leaders who see themselves as reflective practitioners, continuously collaborating, evaluating the instructional practices in place, and creating change for all stakeholders involved. Collectively, we will identify our areas of change based on student, staff, and community needs. The needs identified will drive our work to plan, implement and promote our mission as a school community.

Mission:

Area of Focus

We are committed to providing students with the best possible education and support. As part of our ongoing efforts to improve student outcomes, we have identified areas where we can enhance our curriculum and instruction to better meet the diverse learning needs of our students. To address these challenges, we are implementing several strategies, including:

- **Professional Development:** We are providing teachers with ongoing professional development opportunities to enhance their instructional skills and knowledge.
 - Focus is on strengthening Tier 1 instruction through collaborative planning and increasing student engagement. We believe that quality standards aligned instruction that engages and challenges students, along with differentiated instruction to meet the diverse needs of all learners, are key to achieving this goal.
- **Differentiated Instruction:** We are implementing strategies to differentiate instruction and provide targeted support for students who may need additional assistance.
- **Increased Monitoring:** We are strengthening our systems for monitoring student progress and providing timely feedback to both students and teachers.

We believe that these initiatives will have a positive impact on student achievement and help our students reach their full potential. We are committed to working together with parents to ensure that our students receive the support they need to succeed. Thank you for your continued partnership and support.

Data Summary

In the chart, please include five concise data points that identify the areas of need.

	English Language Arts Data Overview	Mathe
	21% of students in grades 3-5 were proficient learners on ELA MCAP Spring 2024	8.4% of students in Math MCAP Spring
	62% of current 3rd graders were below grade level in ELA according to Spring 2024 iReady data	73% of current 3rd according to Spring
	64% of current 4th graders were below grade level in ELA according to Spring 2024 iReady data	84% of current 4th according to Spring
	75% of current 5th graders were below grade level in ELA according to Spring 2024 iReady data	75% of current 5th according to Spring
	In grades 2-4, 73% of students were below on foundational skills in ELA according to Spring 2024 iReady data	66% of all students operations accordi

School Problem of Practice & Smart Goals

ELA Smart Goal

JP Ryon Elementary will increase the number of students scoring proficient on the MCAP ELA assessment from 21% to 25% by June 2025.

Mathematics Smart Goal

JP Ryon Elementary will increase the number of students scoring proficient on MCAP Mathematics assessment from 8.4% to 15% by June 2025.

Cycle 1: Change Practice & Cycle of Professional Learning

Change in Practice

Teachers will participate in regular collaborative planning to strengthen standards-aligned Tier 1 classroom instruction. Teachers will use Success Criteria to help students produce a welldeveloped piece of work.

Cycle of Professional Learning # 1 Overview

- Complete reflection forms for regular walkthroughs by admin/ILT
- Participate in monthly professional learning in reading and math to unpack standards and enhance Tier 1 instruction.
- Promote student discourse and engagement in the classroom using Learning Goals and Success Criteria. Charles County
