				Add Hydronic Base board in new bathroom and living room extension. Drain water from boiler system. Remove 4 foot steal section of the main loop piping near basement window to be removed. Replace section of main loop with 2 more heating element provisions. Provide and furnish 2 mono flow tees with loop isolations and purge points. Run new Heating supply and return to new heating element locations via 3/4 pex tubing. Seal all penetrations per local building code. Install 3 foot base board in the second floor bath under the window. Install 6 foot base board in the new living space under the windows. Pressure test new heating pipe during rough in phase. Start and test system operation.
