We want you!

We need to determine our committee.

The recommended composition of school community councils for other schools is four (4) parent or guardian members and two (2) employee members (including the principal). The school community council is not required to have the recommended composition and can by majority vote of a quorum of the council determine how many members the council will have, provided that there are at least two (2) school employee members and there are at least two (2) more parent or guardian members than school employee members. The number of parent or guardian members of a school community council who are not educators employed by the school district shall exceed the number of parent or guardian members who are educators employed by the school district.

Each community council shall elect a chair from its parent or guardian members and a vice chair from its parent or guardian members or school employee members other than the principal. Utah Code §53A-1a-108 (2014)
