FEDERAL AND STATE PROGRAMS

Parent and Family Engagement Program

The Parent and Family Engagement Program is focused on working with schools and the community to provide families with resources and skills to help students succeed in school. Our goal is to increase student achievement by engaging and empowering parents to become partners in their children's education. Research shows students are more likely to do better in school, stay in school longer, and enjoy school more when schools, families, and communities work together.

FAMILY SUPPORT

Each school is assigned a Parent and Family Engagement Specialist (PFES) to serve as the lead facilitator of parent and family engagement activities. Their goal is to provide learning opportunities for the entire school, small groups and individually.

Parent and Family Engagement Specialists are committed to ensure all students receive a high-quality education. We know that families are unique, and it is our goal to tailor our support to meet the individual needs of families. Some of the ways we support are:

- Parent /Family Learning Opportunities
- Family Events
- Home Visits
- Frequent Check-ins
- Community Resource Referrals
- Parent Leadership Opportunities
- Tools for Learning at Home and more!

CLUSTER MODEL

The PFES work in groups based on the high school feeder pattern to ensure they are identifying specific needs in the area. They frequently collaborate and share resources to ensure they are maximizing their efforts.
