

# **Modesto City Schools**

# 2024-2027 Local Control and Accountability Plan (LCAP)

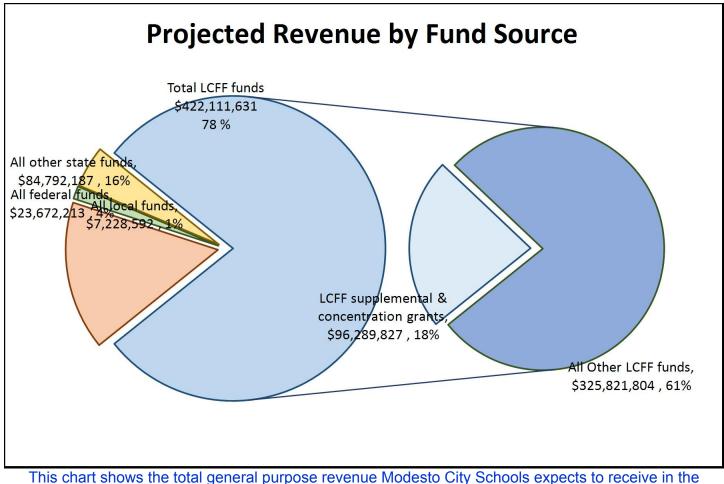

## **LCFF Budget Overview for Parents**

Local Educational Agency (LEA) Name: Modesto City Schools CDS Code: 50 40717 0000000 School Year: 2024-25 LEA contact information: Brad Goudeau Deputy Superintendent Goudeau.B@monet.k12.ca.us 209 492-1454 School districts receive funding from different sources: state fund

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

#### **Budget Overview for the 2024-25 School Year**

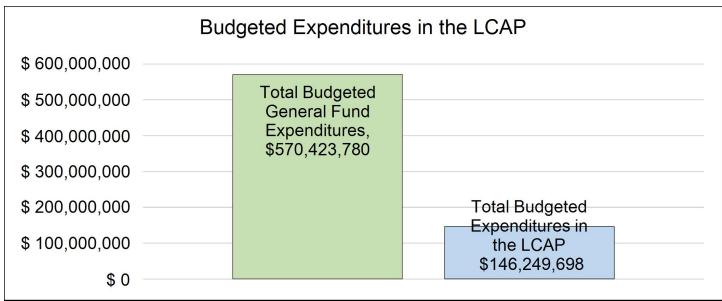

his chart shows the total general purpose revenue Modesto City Schools expects to receive in th coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Modesto City Schools is \$537,804,623, of which \$422,111,631 is Local Control Funding Formula (LCFF), \$84,792,187 is other state funds, \$7,228,592 is local funds, and \$23,672,213 is federal funds. Of the \$422,111,631 in LCFF Funds, \$96,289,827 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

## **LCFF Budget Overview for Parents**

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Modesto City Schools plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Modesto City Schools plans to spend \$570,423,780 for the 2024-25 school year. Of that amount, \$146,249,698 is tied to actions/services in the LCAP and \$424,174,082 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

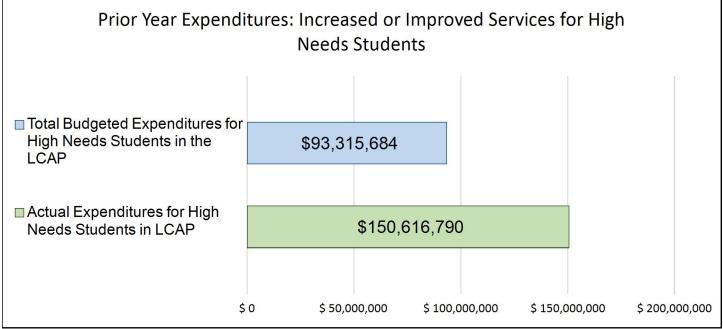

District expenses existing prior to the LCAP process have been identified as base services, those expenses have not been recorded directly related to an LCAP goal.

#### Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Modesto City Schools is projecting it will receive \$96,289,827 based on the enrollment of foster youth, English learner, and low-income students. Modesto City Schools must describe how it intends to increase or improve services for high needs students in the LCAP. Modesto City Schools plans to spend \$97,864,493 towards meeting this requirement, as described in the LCAP.

## **LCFF Budget Overview for Parents**

### Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what Modesto City Schools budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Modesto City Schools estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Modesto City Schools's LCAP budgeted \$93,315,684 for planned actions to increase or improve services for high needs students. Modesto City Schools actually spent \$150,616,790 for actions to increase or improve services for high needs students in 2023-24.

## **Goal Analysis**

An analysis of how this goal was carried out in the previous year. A description of any substantive differences in planned actions and actual implementation of these actions.

Overall, the actions and services in LCAP Goal 1 were implemented. Effects from the pandemic were still evident and impacted the ability to meet some of the growth metrics.

Staffing to support curriculum development and coordination was maintained during the school year. This support provided the opportunity for teachers to have a greater understanding of how to use the curriculum in developing effective lessons. Prep Providers continued to support the sites to enable teachers to work together to analyze student achievement and plan the next steps, while also supporting physical education, science, and character education. Williams Act was positive for the district with all sites meeting the established criteria.

The graduation rates have increased from baseline, but continue to fluctuate yearly. Decreased student-to-counselor ratios and the addition of the Student Assistance Administrator have provided more guidance, education, and direct support for students. With the creation of the counselor data dashboards, counselors and administrators are better able to regularly monitor and use the data to assist students. Data has reflected positively in showing a reduced number of students on the annual dropout list and more students meeting A-G requirements. 7-12 Site Intervention Teams (SIT) met regularly to further support students with academic, attendance, behavioral, or social-emotional concerns.

AVID continues to be a positive action for the district with an increase in the number of students achieving higher grades at the junior high level, the number of AVID graduates meeting A-G requirements, and the number of elementary sites offering the AVID program. CTE pathway completion and the number of students enrolling in CTE courses both showed positive successes. The Junior Reserve Officers' Training Corps (JROTC) maintained a strong enrollment during the year.

Programs and actions supporting English learner students showed positive results in the number of students receiving the State Seal of Biliteracy as well as the number of students reclassifying as English proficient. At the elementary level, students demonstrated increased proficiency in both language arts and mathematics on the CAASP assessments. ELPAC data continues to show growth in students moving up a performance level each year.

Support for students was increased at all levels. All 22 elementary sites continued with MTSS programs, while efforts to implement MTSS programs at the junior high and high school levels were explored. The MTSS support at the elementary level showed positive results in students' reading fluency as measured by internal assessments. DIBELS data indicated a decrease of 7% to 14% in students scoring at the intensive level depending on the grade level. Remediation and credit recovery opportunities for students were increased through increased Extended Summer School and both winter and spring intersessions. RISE expanded by adding mathematics to the current language arts/reading model. RISE was also offered at the junior high and high school levels to support remediation and enrichment.

Enrichment opportunities continue to grow for students. Summer school enrichment increased almost 300% from the prior year. Additionally, the afterschool programs doubled the number of students participating. Student participation in visual and performing arts (VAPA) continued to grow. Students participating in junior high athletics grew as did the number of offerings. Esports was implemented at all high schools and junior high schools either before or after school and at elementary schools during the ASES program. Junior high activities and athletic directors are helping to coordinate the growth of new programs at the junior high level. STEM continues to be supported. Project Lead the Way school sites increased from six to seven in 2022-23. Outdoor education continues to be a priority for the district with all elementary sites participating.

Access for students with disabilities continues to show progress. At the Elementary level, student time in general education increased over the prior year. Graduation rates for students with disabilities have increased.

Student academic achievement was similar to the prior year but still below the baseline for both ELA and Math. CAASPP assessments continue to show impacts from the pandemic. Interim assessments during the 2023-2024 school year indicate the possible 2023-2024 performance results in both ELA and Math will show an increase in performance over the previous year when test results are available. The Physical Fitness Testing was administered with the revised guidance from the State. However, no comparable results are available due to the changes.

Attendance and chronic absenteeism continued to be a concern, just as with the State of California. Only three school sites achieved a 95% daily attendance rate. The impacts of the pandemic are evident not only in student attendance but also in student behaviors and actions. Disciplinary incidents, including suspensions, were high at all grade levels. There continues to be a need to provide mental health support for students (and staff) still working through the effects of the pandemic.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Variance due to contract settlements with bargaining units, increased short term independent study, and athletic & music supplies.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

The effectiveness of the actions varied across the different instructional areas and actions.

Based on CAASPP results, actions related to ELA and Math would be deemed to be ineffective, showing a decrease in Distance From Standard compared to the baseline. These results are indicative of the effects of the COVID-19 pandemic and the significant challenges in maintaining effective instruction, especially with the transition to remote learning and then back to in-person learning. Student progress was significantly impacted as evidenced in the number of students requiring additional support academically and social-emotionally.

Actions related to early literacy and to academic intervention were effective, meeting their respective goals and increasing student benchmark scores and decreasing the number of students scoring well-below benchmark.

Actions related to students being "prepared" in the College and Career Indicators were varied in their effectiveness. Students receiving the Seal of Biliteracy fluctuated yearly, but overall increased. The graduation rate had a small increase over the baseline, but did not meet the established goal. Students struggled to meet the a-g requirements, but this was a direct reflection of the disruption of the pandemic on student learning and achievement. CTE pathways continued to be effective in helping students meet the CCI requirements.

Actions for English Learners with regard to CAASPP results followed the same pattern as for all students, show the negative effects of the pandemic on student achievement. Actions related to reclassification, the Dual Language Academy (DLA), and the Newcomer Program were effective in increasing achievement and English learner growth.

The majority of the implemented actions related to MTSS have been effective in improving various metrics related to student achievement, attendance, and behavioral outcomes. Strategies such as MTSS interventions, mental health support, and the RISE programs have shown consistent positive results. However, some areas like chronic absenteeism and suspension rates have shown improvement but require continued efforts to meet set goals.

The actions related to student enrichment and engagement have been largely effective, with many exceeding their set goals. Programs such as Summer Enrichment, VAPA Opportunities, Athletics, and ASES have shown substantial growth in student participation, indicating high interest and engagement. Junior High Activities and Esports have also been successful in providing opportunities for students to be involved

in various activities, promoting overall student well-being and engagement. Continued support and expansion of these programs can further enhance student enrichment and engagement in the district.

The actions taken to support students with disabilities were effective. Interventions to improve student performance showed positive results as measured by the DIBILS assessments. Graduation rates did not meet the stated goal, missing by 0.1, but did show an increase over the baseline indicating effectiveness with the actions.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As part of the review of the current LCAP, the district collaborated with educational partners to analyze the Strategic Goals. Through this process, MCS has revised the Strategic Goals in preparation for the upcoming three-year LCAP.

Strategic Goal 1 has been revised to incorporate previously implemented actions, now requiring ongoing monitoring and refinement as well as new actions to address the areas of concern identified.

In the journey to ensure great instruction, prepare students for successful college and career pathways, and support the growth of English learners, the district embarked on a comprehensive review of its actions and services. Having delved into the effectiveness of the strategies, the district discovered both areas of success and opportunities for improvement.

The analysis revealed that while efforts in math and ELA instruction had not yielded the desired outcomes, successful programs such as Early Childhood Development/Literacy and Intervention in ELA have made significant strides in improving student performance. Recommendations were made to refine instructional strategies, provide additional support for educators, and increase professional development opportunities to drive data-driven instruction effectively. Interim benchmark assessments will be evaluated for rigor and alignment with the grade level standards and CAASPP assessment.

The impact of the COVID-19 pandemic loomed large, disrupting traditional learning environments and presenting challenges in maintaining effective programs. Despite this, programs like Career Technical Education (CTE) and Newcomer Program have shown resilience and adaptability, indicating the importance of structured frameworks and targeted support for student success.

The district's commitment to increasing students' preparedness for college and career paths was also scrutinized. While some initiatives like AVID have faced setbacks, Career Technical Education (CTE) made significant progress in preparing students for college credit courses and CTE pathways. Recommendations were made to enhance support for college and career readiness preparation, increase college credit and dual enrollment opportunities, and refine strategies to ensure UC/CSU eligibility.

The growth of English learners toward English proficiency was another key focus area. Programs such as Reclassification, DLA, and Newcomer Program have shown remarkable success in improving academic outcomes for English learners. Recommendations were made to develop targeted instructional strategies, enhance ELPAC support, and expand successful programs to reach more students.

In the quest to develop a Multi-Tiered System of Support (MTSS) for all students, the district had seen positive outcomes in areas like mental health support and intervention programs but recognized the need for continued efforts to address chronic absenteeism and suspension rates. The impact of the COVID-19 pandemic had brought about challenges in attendance and student engagement, emphasizing the importance of targeted approaches and ongoing evaluation.

Finally, the district's commitment to increasing access to general education for students with disabilities has shown mixed results. While efforts had led to a decrease in students in the well-below benchmark range, improvements in graduation rates for students with disabilities remained a challenge. Recommendations were made to provide tailored support and resources to enhance access to general education. Training will focus on support for general education teachers on inclusive practices to meet the needs of their students.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

## **Goal Analysis**

An analysis of how this goal was carried out in the previous year. A description of any substantive differences in planned actions and actual implementation of these actions.

Overall, the planned actions for Goal 2 were successfully implemented, although there were notable impacts during the three-year LCAP period due to the COVID-19 pandemic.

The number of professional development (PD) offerings for both certificated and classified staff continued to increase during the school year, with numerous new courses offered. PD focused on equity continued to grow in number. Staff from all areas of the district had the opportunity to participate. The PD catalog continues to grow with more courses and course time options. Courses were offered both in-person and virtually. The catalog allows for tracking the completion of professional development and the ability to provide new opportunities for staff to explore.

The implementation of actions related to professional development for Designated ELD teachers, Integrated teachers, and administrators has been successful, with all outcomes meeting or exceeding the desired goal for 2023-24. Participation in training for the Sheltered Instruction Observation Protocol (SIOP), a research-based and validated instructional model to address the academic needs of English learner students, increased over the prior year.

Additionally, training in DIBELS to measure student acquisition of literacy skills shows that 99% of all TK-6 teachers have been trained and implemented the process in their classrooms. Other specific teacher professional development opportunities continue to show positive trends with Critical Reading Routine Training in grades 4-6 increasing from 11 teachers in 2021-22 to over 64 teachers in 2023-24, Lesson Studies in grades 7-12 growing in both ELA and math, LETRS professional development increasing from 125 the first year to 147 in year two, and Swun coaching continuing to grow each year.

With the addition of the Classified PD Coordinator and the Classified PD Trainer, the number of opportunities for classified staff significantly increased. Professional development for new classified staff was held on a monthly basis to help acclimate them to their new positions and to MCS. Additionally, classified-specific trainings were coordinated as was previously done for certificated staff. The Classified PD Trainer also held one-on-one training to support staff in gaining new knowledge to assist them in their daily routines and duties.

Instructional Coaches provided continued support to teachers. Over 75% of the coach's weekly schedule was categorized as work to support the standards and effective instructional practices for all students and student groups. Survey responses continued to support the importance of instructional coaches to assist teachers in their teaching practices, data analysis, and the focus on the Instructional Core. Monthly coaching for TK-6 teachers with Swun Math, our curriculum partner, remained a priority, despite substitute staffing challenges.

MCS is able to offer teachers and administrators the opportunity to clear their credentials. This year over 100 teachers and 32 administrators are participating in the program with support from MCS mentors. This program continues to grow and helps our credentialled staff be prepared to meet the challenges of our students.

MCS continues to support teachers in equity grading practices and the development of effective Professional Learning Communities (PLCs). All sites have staff participating in professional development related to student mastery of the standards.

Having enough substitute teachers to provide coverage in the classroom was still a challenge, but through thoughtful planning, the district was able to minimize the number of occasions when a teacher needed to return to the classroom and not attend training.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Variance is due to contract settlements with bargaining units regarding increase in professional development incentive.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

The targeted professional development efforts in the areas of literacy, mathematics, English Language Development (ELD), effective PLC Teams, culturally responsive instruction, and leadership development were generally effective, with varying levels of success across different focus areas. While some goals were not fully met, the overall impact was positive in providing crucial training and support for educators and staff.

The COVID-19 pandemic moderately affected the delivery and effectiveness of targeted professional development, with reduced in-person opportunities and challenges in transitioning to virtual platforms. Despite these obstacles, efforts were made to adapt and provide virtual training, but the impact may have varied across programs and participants.

In ensuring all administrators, teachers, and staff have professional development to build their capacity as professionals, the efforts were moderately effective due to delays in implementing the PD survey system. The Principal Leadership Pipeline and professional development for staff of students with disabilities were highly effective, indicating strong commitment and engagement.

The pandemic significantly disrupted the PD survey system and professional development programs, but the commitment to professional development remained, with programs adapting to the changing circumstances.

In supporting students in their development of MCS Character Traits through training on Restorative Practices and Character Trait Instruction, the efforts were highly effective, with significant increases in trained teachers and decreases in student discipline incidents. Recommendations include continuing and monitoring these efforts to ensure consistency and effectiveness.

The impact of the COVID-19 pandemic on these training efforts resulted in decreased effectiveness due to disruptions in training sessions, with the true impact potentially being greater without the pandemic's restrictions. Continued monitoring and adaptation will be crucial moving forward to ensure the success of these professional development programs.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Following a thorough review of the current LCAP, the district collaboratively engaged with educational partners to reassess the Strategic Goals. This process has led to significant revisions in the Strategic Goals in preparation for the upcoming three-year LCAP, incorporating key reflections on prior practices.

One notable change is the introduction of new metrics and goals that align with the current benchmark data, ensuring that progress is measured effectively and accurately. This shift aims to provide a clearer understanding of achievements and areas needing improvement.

The MCS Strategic Goal 2 expanded from 3 sub-goals and related actions to 5 sub-goals and related actions. Wording has been updated to reflect the movement of the district with relationship to the goal. Additionally, new actions are being added to address identified needs related to utilizing technology as a too for enhancing instruction and training related to equity and access with respect to Equitable Grading Practices, Site Equity Teams, and data disaggregation.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

### **Goals and Actions**

#### Goal

Goal #	Description
3	Provide a safe, welcoming, and respectful learning environment for every member of the school community while ensuring effective district-wide communication for students, staff, families, and community partners.

High School: 100% of sites will have implemented one of the approved STEM/Computer Science Programs.

### **Goal Analysis**

An analysis of how this goal was carried out in the previous year. A description of any substantive differences in planned actions and actual implementation of these actions.

Overall, the planned actions for Goal 3 were successfully implemented, although there were notable impacts during the three-year LCAP period due to the COVID-19 pandemic. Despite these challenges, all recommendations from the Safety Task Force were implemented and upheld to ensure the safety of students and staff.

Parent engagement demonstrated steady growth, as evidenced by metrics measuring social media engagement and attendance at parent activities and training. However, the results of the parent survey remain an area for improvement, with metrics indicating similar results to the baseline. The utilization of Parent Square to enhance communication experienced increased adoption by parents.

The Parent Ambassador Program has yielded positive outcomes, yet faced challenges in assigning a single ambassador to each school site. Presently, 16 ambassadors are responsible for covering the 34 school sites, highlighting a need for further optimization.

Efforts to enhance operational efficiencies and implement technology initiatives produced positive outcomes each year. All students and teachers now possess uniform devices, and surveys indicate satisfaction with both technology and technology support. Despite the challenges posed by the pandemic, these actions were effectively implemented, contributing to the overall success of Goal 3.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Variance due to contract settlements with bargaining units and an increase in technology infrastructure.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Actions taken to ensure health and safety protocols at all schools and facilities were highly effective, with all Safety Task Force recommendations successfully implemented. The onset of the COVID-19 pandemic heightened the urgency to enact these measures, emphasizing their effectiveness in safeguarding students and staff.

Efforts to highlight exceptional students, families, staff, programs, schools, and community partners were generally effective. However, there exists an opportunity to expand recognition and celebration beyond the current practices at Board of Education meetings.

Initiatives aimed at enhancing two-way communication with educational partners have proven effective, as evidenced by increased interactions on social media platforms, showing an 11.5% rise compared to the prior year. Parent attendance at events and training, such as Parents Make a Difference, not only surpassed the goal but also continues to grow. The introduction of the Parent Ambassador Program during the middle of the three-year LCAP has resulted in positive outcomes, improving engagement and communication with parents. However, the challenge remains in hiring enough Parent Ambassadors to assign one to each school. Presently, sixteen ambassadors cover the 34 school sites, indicating the need for further recruitment efforts.

The district has made concerted efforts to gather feedback from families and students, along with providing training on positive and culturally responsive customer service. These efforts, though challenging to measure, have faced obstacles during the COVID-19 pandemic, impacting the ability to fully implement staff training. Survey results have shown minimal improvement in current satisfaction rates, highlighting an area of focus for the new LCAP actions.

In terms of operational efficiencies through technology, the district has demonstrated notable success. Achieving or surpassing goals in network uptime, customer service, student device access, data management, staff standardization, and STEM programs underscores a commitment to utilizing technology effectively for educational and operational purposes. Continued emphasis on cybersecurity, training, and ongoing assessment will further bolster these accomplishments.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Following a thorough review of the current LCAP, the district collaboratively engaged with educational partners to reassess the Strategic Goals. This process has led to significant revisions in the Strategic Goals in preparation for the upcoming three-year LCAP, incorporating key reflections on prior practices.

One notable change is the introduction of new metrics and goals that align with the current benchmark, ensuring that progress is measured effectively and accurately. This shift aims to provide a clearer understanding of achievements and areas needing improvement.

Recognizing the importance of student voice in decision-making, actions have been adjusted to actively involve students in the process. This includes creating avenues for students to provide feedback and input on initiatives and policies that impact their education directly.

In response to previous ineffectiveness in gathering parent and student feedback, new surveys have been designed and implemented. These surveys serve as crucial tools for assessing satisfaction levels, gathering suggestions for improvement, and ensuring that the needs of parents and students are heard and addressed.

Building upon successes in technology, the district has outlined a plan for the next steps in technological advancement. This includes strategies to further enhance operational efficiencies, improve access to resources, and provide continued support for students and staff.

Efforts to promote communication with parents have been bolstered, recognizing its significance in fostering a collaborative and supportive educational environment. The district continues to prioritize initiatives that facilitate transparent and effective communication channels between schools and families.

In summary, the review of the current LCAP has resulted in changes to goals, metrics, desired outcomes, and actions. Reflection on prior practices has led to adjustments aimed at improving student involvement in decision-making, implementing new surveys for parent and student feedback, advancing technology, and enhancing communication with parents. These changes signify a commitment to continuous improvement and responsiveness to the needs of the school community.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table. Table.

# **Goal Analysis**

An analysis of how this goal was carried out in the previous year. A description of any substantive differences in planned actions and actual implementation of these actions.

Overall, the actions and services in the LCAP for Goal 4 were implemented as planned. Budget planning included the 6% minimum reserve, the LCAP Advisory Committee met on a regular basis throughout the year, the number of security patrols was maintained, and the Enrollment Stabilization Plan continued to show positive results comparted to the previous year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material difference between the Budgeted Expenditures and the Estimated Actual Expenditures nor where the material differences with regard to Planned Percentages of Improved Services or Estimated Actual Percentages of Improved Services for Goal 4.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

The district has shown effectiveness with regard to the actions in Goal 4. The current minimum reserve continues to meet or exceed the 6% goal, the LCAP Advisory Committee met for six meetings during the year with feedback considered in the LCAP goals, the Budget Advisory Committee met several times during the year, nighttime security patrols were maintained, and the Enrollment Stabilization Plan is showing positive trends in enrollment over the last two year.

4.1 The district successfully upheld a minimum reserve, guaranteeing financial stability. The Budget Committee ensures decisions are guided by community input, fostering transparency and accountability. Through regular meetings and feedback collection, the LCAP Advisory Committee ensures the LCAP remains responsive to the community's needs and priorities, thereby improving the effectiveness of budget allocations.

4.2 The district has not created or executed a 3-year budget plan beyond the standard legal obligations. However, the district has maintained fiscal responsibility, as demonstrated by the annual certification of the budget.

4.3 The district has effectively improved school security by maintaining and expanding security cameras and nighttime patrols. It is essential to continue prioritizing these security measures to safeguard the ongoing safety and well-being of the school community.

4.4 The district has successfully developed and initiated a 3-year plan to stabilize enrollment. High school enrollment has exceeded the target, and elementary enrollment has shown a two-year increase, closely approaching the stated goal. Despite the challenges posed by the COVID-19 pandemic, these growth trends demonstrate the positive impact of the plan. Continuous monitoring and adjustments will be necessary to continue improving enrollment figures.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on the analysis and reflection on prior practice for Goal 4, the overall actions will be continued due to their positive outcomes. Actions 4.2, 4.3, and 4.4 have been updated to match the new Modesto City Schools Strategic Goals for 2024-2027. The district will continue to focus on fiscal responsibility, budget oversight, security measures, and enrollment stability. There will be a focus on the development of a 3-year budget plan and ongoing monitoring of site improvements and enrollment is highlighted for the upcoming LCAP cycle. Metrics have been updated to reflect current information and establish new goals.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

# **Goal Analysis**

An analysis of how this goal was carried out in the previous year. A description of any substantive differences in planned actions and actual implementation of these actions.

Regarding the implementation of actions and services outlined in LCAP Goal 5, there are successes and challenges to note. Overall, these actions were implemented. The use of online forms to streamline workflow processes has proven effective and has seen significant usage. The use of online forms has exceeded the initial goal by 15%. The vacancy rate has not met the goal but has decreased from the baseline. The vacancy rate has been impacted by the need to hire new positions. Existing positions are being filled at a higher rate.

However, challenges persist, particularly in the realm of hiring. While there has been improvement, hiring challenges remain a concern, especially for certain positions. Efforts to address these challenges have been ongoing. Additional job fairs have helped provide a greater pool of candidates for positions and raised awareness in the community of MCS as a potential workplace. Career ladders and collaborative efforts with community agencies have provided new pathways to employing staff. Employee surveys, a key component of Goal 5, have been successfully implemented, although they required additional effort to create and implement.

A notable success is the continued growth in the representation of minority employees. Various minority groups have seen increases in representation, though some fluctuations have been observed. This is a positive step forward, indicating progress toward diversity and inclusion goals.

In summary, the actions and services of LCAP Goal 5 have largely been implemented, with successes such as the effective use of online forms and increased minority representation. However, challenges remain, particularly in hiring, which continues to be an area of focus for improvement.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There is not a significant difference between the planned versus actual percentages for Improved Services. Differences in budgeted versus estimated expenditures are due to decrease in hiring incentives being paid out for 2023/2024.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

The implementation of initiatives aimed at fostering a district culture valuing all employees encountered delays in the HR surveys, yet these surveys ultimately proved effective. Both the New Hire Survey and the Current Employee Survey demonstrate the effectiveness of actions in this realm. Conversely, the Exit Survey yielded neutral results, signaling an opportunity for improvement.

Efforts to strengthen partnerships with local agencies have shown overall effectiveness. The district surpassed its goal for participation in external job fairs and collaborative partnerships, enhancing employee attraction. Although University and College Partnerships fell short of

the goal, there was an increase in engagement. While there are areas for improvement in meeting specific numerical targets, the endeavors undertaken have effectively bolstered relationships with local agencies.

Actions supporting the expansion of recruitment and hiring for retention and diversity have also proven effective. Career ladders have been established, leading to increased workforce diversity, particularly in Hispanic/Latino representation. MCS has hosted multiple job fairs to facilitate hiring and fill vacant positions, although hiring remains challenging, not just for MCS but for all schools in the region. The workforce expansion has impacted overall vacancy rates, yet current positions are being filled at an accelerated pace.

Efforts to enhance communication and collaboration within and between district divisions, departments, and sites have been effective, notably in significantly improving HR process efficiency. While conducting yearly surveys and evaluating communication systems are positive steps, the delay in implementing specific surveys affected the analysis of effectiveness.

In summary, the actions related to Goal 5 have demonstrated effectiveness overall. Despite some challenges and areas for improvement, initiatives have successfully contributed to a district culture valuing employees, strengthened partnerships with local agencies, improved recruitment and hiring practices, and enhanced communication and collaboration within the district.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As part of the review of the current LCAP, the district collaborated with educational partners to analyze the Strategic Goals. Through this process, MCS has revised the Strategic Goals in preparation for the upcoming three-year LCAP.

Strategic Goal 5 has been revised to incorporate previously implemented actions, now requiring ongoing monitoring and refinement. While the establishment of external pipelines and collaborative efforts to attract employees remains crucial, there is also an emphasis on developing internal pathways for staff to transition into new positions. The implementation of online forms has been completed and now necessitates monitoring and refinement to enhance the process.

Metrics have been updated to reflect current baseline data and establish new goals for continued progress. Survey data, partnerships, utilization of forms, and employee diversity all have updated baselines and goal metrics. Additionally, a new metric for retention is being introduced to assess the effectiveness of actions aimed at retaining staff.

# A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table. Table.

2024 LCAP Annual Update for the 2023-24 LCAP for Modesto City Schools

### Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at <u>lcff@cde.ca.gov</u>.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

# **Goals and Actions**

### Goal(s)

#### **Description:**

Copy and paste verbatim from the 2023-24 LCAP.

### **Measuring and Reporting Results**

• Copy and paste verbatim from the 2023–24 LCAP.

### **Metric:**

• Copy and paste verbatim from the 2023–24 LCAP.

### Baseline:

• Copy and paste verbatim from the 2023–24 LCAP.

### Year 1 Outcome:

• Copy and paste verbatim from the 2023–24 LCAP.

### Year 2 Outcome:

• Copy and paste verbatim from the 2023–24 LCAP.

#### Year 3 Outcome:

• When completing the 2023–24 LCAP Annual Update, enter the most recent data available. Indicate the school year to which the data applies.

### Desired Outcome for 2023–24:

• Copy and paste verbatim from the 2023–24 LCAP.

Timeline for completing the "Measuring and Reporting Results" part of the Goal.

					Desired Outcome
Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	for Year 3
					(2023–24)
Copy and paste verbatim from the 2023–24 LCAP.	Copy and paste verbatim from the 2023–24 LCAP.	Copy and paste verbatim from the 2023–24 LCAP.	Copy and paste verbatim from the 2023–24 LCAP.	Enter information in this box when completing the 2023–24 LCAP Annual Update.	Copy and paste verbatim from the 2023–24 LCAP.

### **Goal Analysis**

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

• Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

• Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. "Effectiveness" means the degree to which the actions were successful in producing the desired result and "ineffectiveness" means that the actions did not produce any significant or desired result.
  - o In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

California Department of Education November 2023

# **Local Control and Accountability Plan**

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Modesto City Schools	Brad Goudeau	Goudeau.B@monet.k12.ca.us
	Deputy Superintendent	209 492-1454

# Plan Summary [2024-25]

# **General Information**

A description of the LEA, its schools, and its students in grades transitional kindergarten-12, as applicable to the LEA.

Modesto City Schools (MCS) is a long-standing educational institution that has been serving the local community since 1871. The district comprises both an elementary district (TK-8) and a high school district (9-12) under a common Board of Education and administration. It serves approximately 30,000 students across 34 different school campuses, including 21 elementary schools (TK-6), one TK-8 elementary, four junior high schools (7-8), seven high schools (9-12), and an extensive alternative education program including one continuation high school. Of the 34 schools, Robert Elliott Education Center has been identified as a qualifying school for LCFF Multiplier funding.

The demographic profile of students in the elementary district (TK-8) for the 2023-24 academic year indicates that 86.5% are socioeconomically disadvantaged, 34.5% are English Learners, and 13.1% have disabilities. In the high school district (9-12), 66.9% of

students are socioeconomically disadvantaged, 16.3% are English Learners, and 12.0% have disabilities. The district is a multi-district SELPA (Special Education Local Plan Area) and provides a full continuum of services to approximately 3,700 identified students, with the majority served on school sites.

Hispanic students constitute the largest ethnicity in both districts, followed by white students, those identified with two or more races, and Asian students. The district-wide population has 0.65% identified as homeless and 0.31% classified as foster youth.

Modesto City Schools faces challenges related to aging infrastructure, with an average facility age of 63 years. Two bond measures have been passed to address facility needs at the TK-8 level, and a recent facility bond at the 9-12 level was approved in November 2022.

In terms of educational goals, the MCS Board of Education has adopted Strategic Goals aligned with the Local Control and Accountability Plan (LCAP) to increase student achievement. The district emphasizes a single coherent, integrated approach to achieving these goals, with regular updates provided to the Board throughout the year. School Plans for Student Achievement (SPSA) at individual sites integrate LCAP goals and align budgets with student needs to accelerate student achievement.

Modesto City Schools articulates a clear vision, mission, and set of values.

Our Vision: Every student graduates with the skills, knowledge, and character traits essential to thrive and contribute to society.

Our Mission: We provide rigorous, relevant, and diverse educational programs that engage and motivate all students to reach their individual potential by:

- Providing a safe and welcoming learning environment.
- Ensuring all students have access to the highest quality instruction and learning conditions, and graduate, college and career ready.
- Creating a culture of high expectations for all students and employees.
- Supporting our staff in making data-driven decisions that are in the best interest of students.
- Encouraging trust through open, honest, and ongoing communication across all members of our school community. and supporting staff in making data-driven decisions.

Our Values:

We Believe:

- Every student deserves our best, every day and in every situation.
- All students will know we believe in them, and that they are the focus of our work.
- Every interaction with students matters and is an opportunity to each and show we care.
- Positive, collaborative school-community relationships are built on trust and respect.
- Educating the whole child is maximized by creating meaningful partnerships with communities, families, parents/guardians, and educators.
- Our students and employees will strive to model our nine character traits.
- Continuous learning and sharing new ideas, best practices, and offering support to one another helps us improve.

## **Reflections: Annual Performance**

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Over the past few years, our internal data dashboards, alongside the California School Dashboard, serve as evidence of progress in various areas of student performance, including Local Indicators, LCAP goals, and School Climate. The challenges posed by the pandemic have impacted our ability to gather data, thereby affecting our ability to measure progress accurately. Notably, our most significant progress has been in shifting the District's culture to positively influence student outcomes. Transforming culture is a substantial challenge in any large organization and necessitates ongoing dialogues and support.

To this end, the District established the Instructional Core with a clear vision: Every student deserves a guaranteed instructional program, not left to chance, but intentionally designed. This program includes Board-adopted curriculum, research-based best practices, and authentic relationships and assessments that inform instruction. The Instructional Core is structured around four key areas:

1. Supporting All Learners: Intentionally planning lessons with consideration for strategies, scaffolds, and interventions that create equitable learning opportunities for all students.

2. Board-adopted Curriculum: Intentionally utilizing the currently adopted curriculum to ensure equitable access for all students to rigorous content standards. Understanding how the curriculum design supports students' progression over time.

3. Engaging Students using Language and Literacy: Designing lessons that engage and support all learners by providing daily opportunities to interact with content through reading, writing, listening, and speaking.

4. Professional Learning Communities (PLCs): PLCs are the vehicle we use to guarantee the success of the Instructional Core. Fully engaging in the process of identifying what students need to learn, how it is to be taught, what to do if they don't reach mastery, and what to do if they excel, with regular review of student formative data to guide instruction.

The commitment to "all learners" encompasses every student, irrespective of gender, socio-economic status, at-risk factors, racial, ethnic, or cultural background, exceptional ability, disability, or Limited English Proficiency.

Our progress in this initiative has been anchored in specific areas:

1. Data-driven Decision Making: The District and school sites have consistently made data-driven decisions to monitor and communicate growth. Across the District, the sophistication of data analysis has increased, leading to impactful change and enhancing transparency and accountability in our work. Administrators actively participate in data reviews throughout the year, refining their focus on goals. These reviews have driven continuous improvement efforts and will remain integral to our future progress. The District is actively developing data reports to assist sites in making well-informed decisions. Efforts are ongoing to create live and dynamic data dashboards to aid various educational

partners in making timely, data-driven decisions and improving monitoring processes.

2. Professional Learning Communities (PLCs) Support: Offering training and support for PLCs allows for the review of student data and engaging in focused conversations on strategies to enhance student performance. The District continues its support for PLCs through ongoing leadership training and coaching. Insights derived from data disaggregation and discussions have guided targeted Professional Development (PD) in areas of need.

These concerted efforts underscore our commitment to enhancing student outcomes through intentional and data-informed instructional practices.

Due to the COVID-19 pandemic, several measures on the California School Dashboard were modified in reporting. However, analysis of current and past CA Dashboard data, alongside local data, reveals positive growth in various areas:

- Increased third-grade reading fluency (Internal Data)
- Increased number of English Learner students passing core classes (Internal Data)
- Increased English Learner progress K-8 (CDE data)
- Increased high school A-G completion (CDE Data)
- Increased number of Advanced Placement exams taken by students (College Board Data)
- Increased number of 9-12 students completing CTE coursework (Internal Data)
- Increased graduation rate for all students and Students with Disabilities (CDE data)
- Increased number of students receiving the State Seal of Biliteracy (Internal Data)
- Increased number of students enrolling in college credit courses (Internal Data)

Schools within the district have placed a heightened emphasis on providing opportunities for remediation and additional support. Specifically, new programs and interventions have been implemented to support our unduplicated students. While progress has been evident, the District remains committed to continuous monitoring of data and providing targeted Professional Development to enhance our efforts further. This ongoing commitment aims to build upon our positive trajectory.

The district remains committed to amplifying the community voice for enrichment, particularly focusing on supporting socioeconomically disadvantaged students who may have limited access to enrichment opportunities at home. Here are some of the initiatives and programs that have been implemented:

- Increased student participation in visual and performing arts programs
- Exposure to performing arts for every student in 1st, 2nd, 5th, and 8th grades
- Expansion of after-school programs for grades TK-8
- Offering Outdoor Science Camp to every sixth-grade student
- Providing Career Technical Education opportunities for high school students to explore various career paths
- Expansion and creation of before and after-school enrichment activities for grades TK-12

The community has demonstrated increased engagement with our schools as more opportunities for participation have become available.

Some examples of these initiatives include:

- College presentations
- Family Math Nights
- Round-up events at both high school and elementary levels
- Programs such as Parent Ambassadors and Parents Making a Difference
- Parent meetings focusing on transitioning to the next grade level

Through the LCAP, additional staff and resources continue to be supported to strengthen the partnership between schools and parents, enhancing the overall educational experience for our students.

Modesto City Schools remains committed to tackling equity issues, a steadfast focus for the Educational Services (ES), Student Support Services (SSS), and Curriculum Instruction and Professional Development (CIPD) divisions. These divisions are dedicated to delivering professional development through evidence-based programs and practices, ensuring that school sites are actively confronting disparities among student groups. In recent years, educators have engaged in enlightening sessions led by esteemed speakers such as Dr. Pedro Noguera, Dr. Doug Reeves, and Dr. Nancy Dome. These presentations centered on fostering a supportive culture that champions equity, particularly for English Learners and minority students.

In both the K-8 and 9-12 districts, there is a pressing need to boost student achievement in English Language Arts (ELA) and mathematics, as progress has either stalled or declined slightly based on CAASPP data. The introduction of new standards and curricula, coupled with the transition to distance learning during the pandemic and the subsequent return to in-person instruction, has necessitated a significant shift in teaching strategies. School sites are prioritizing the Instructional Core by consistently employing effective and high-quality instructional methods to actively engage students. The aim is to reduce the necessity for remediation by ensuring the successful initial teaching of fundamental skills and concepts. The added strategy of co-teaching has shown strong evidence that student achievement is improving based on interim math assessments.

Effective use of technology to enhance lessons, deepen student understanding, and connect concepts is a focus at all grade levels and all sites. Research supports that the effective use of technology can have the greatest impact on struggling students by providing embedded scaffolding and connecting lessons to real-world experiences. Providing ongoing professional development is required to ensure technology is used effectively as a teaching tool with the teachers making decisions on its integration for effective lesson design. Professional development during the school year is challenging when it requires substitutes (availability) as well as pulling teachers from their classrooms. The CIPD department will continue to work with teachers on integrating technology as part of the overall focus to increase student performance.

Ongoing professional development maintains a focus on effective English Language Development (ELD) instruction. All K-6 teachers are consistently receiving training on language arts curriculum, specifically integrated and designated ELD instruction. Additionally, teachers are undergoing LETRS training, delving into the science of reading to enhance their understanding of effective reading instruction.

The Math Taskforce continues to convene to pinpoint areas requiring the most attention and propose strategies to enhance students' math proficiency. To standardize math instruction and offer teacher support, the Swun math curriculum has been adopted for TK-6, with a strong

emphasis on providing coaching to educators.

Engaging parents continues to be a District goal as more of our students have significant social-emotional needs that impact educational success. Before the pandemic, attendance at Open House, Back-to-School Night, Round-up, and parent conferences showed an increase. However, with the closure of school campuses and the move to distance learning, many sites saw parent engagement decline as parents struggled to connect virtually. With the return to in-person learning, sites are focused on how to engage parents in the educational process. We recognize that parent involvement has a positive impact on student success. Therefore, the District continues to provide support and resources in this area.

The 2023 California Dashboard indicated the following schools received the lowest performance level/color on one or more state indicators:

### ELEMENTARY DISTRICT (TK-8):

- Beard Elementary (Suspension Rate)
- Bret Harte Elementary (ELA)
- Burbank Elementary (ELA)
- El Vista Elementary (Suspension Rate)
- Fairview Elementary (ELA)
- Franklin Elementary (ELA, Math, EL Progress)
- Garrison Elementary (Math)
- Kirschen Elementary (ELA)
- Lakewood Elementary (ELA)
- Marshall Elementary (ELA, Math)
- Martone Elementary (ELPI)
- Robertson Road Elementary (ELPI)
- Sonoma Elementary (Suspension Rate)
- Tuolumne Elementary (ELA, Math, Suspension Rate)
- Wilson Elementary (Math)
- Orville Wright Elementary (Math, Suspension Rate)
- Evelyn Hanshaw Middle School (Suspension Rate)
- La Loma Junior High (Math, Suspension Rate)

#### HIGH SCHOOL DISTRICT (9-12):

- Grace Davis High School (ELA)
- Thomas Downey High School (EL Progress)
- Robert Elliott Education Center (College & Career Readiness)
- Peter Johansen High School (Math)

The 2023 California Dashboard indicated the following district-level student groups received the lowest performance level/color on one or

more of the state indicators (see 2023 Dashboard Results for LCAP - Lowest Performance Level Breakdown attachment for students groups at individual schools) :

### ELEMENTARY DISTRICT (TK-8):

ELA Student Groups:

• Very Low/Red - African American, English Learners, Foster Youth, Hispanic, Homeless, Socio-economically Disadvantaged, and Students with Disabilities

Math Student Groups:

• Very Low/Red – English Learners, Homeless, and Students with Disabilities

Suspension Student Groups:

• Very High/Red – African American, Foster Youth, Homeless, and Pacific Islander

### HIGH SCHOOL DISTRICT (9-12):

Suspension Student Groups:

• Very High/Red – African American, Homeless, and Students with Disabilities

Graduation Rate Student Group:

• Very Low/Red – Students with Disabilities

College & Career Readiness Student Groups:

• Very Low/Red – English Learners, Foster Youth, Homeless, and Students with Disabilities

Ongoing targeted professional development in mathematics and English Language Arts (ELA) will continue to aid teachers in effectively implementing the curriculum. The Standards for Mathematical Practice and ELD standards will remain key areas of focus. Essential standards will be pinpointed during regular Professional Learning Community (PLC) collaboration meetings, enabling teachers to plan with a clear objective.

Continuous research into effective interventions will be pursued for situations where re-teaching has not adequately met the needs of individual students or groups. Special education will continue to utilize the core curriculum, supplemented with scaffolded resources for both math and ELA instruction.

Additional support for our homeless population will include assigning a dedicated point of contact to address transportation and academic needs. Collaborations between parents, Modesto City Schools (MCS), and various programs will concentrate on strategies to assist homeless and foster youth in narrowing the identified achievement gaps.

A district-wide emphasis on mathematics will feature research-based practices aimed at closing achievement gaps. Professional development opportunities will persist for teachers to better support students facing challenges in their learning journey. MCS will maintain its commitment to offering support to all students, ensuring they are equipped for college and career readiness.

An intensified focus on raising awareness and highlighting available programs will be directed at homeless, Hispanic, socioeconomically disadvantaged, and English learner student groups. Courses in computer programming and engineering will be introduced at sites capable of maintaining enrollment, as research reports suggest these courses enhance college and career readiness for all students.

The District will continue to deepen the understanding of the PBIS and Restorative Practices and implement these research-based practices with greater sophistication. Additionally, the District is partnering with Dr. Nancy Dome to provide professional development related to equity so that all staff has greater knowledge and understanding of the challenges faced by our students and with Dr. Doug Reeves on equitable grading practices. The sites will analyze their discipline data with an emphasis on their student groups. The District maintains intervention centers at each high school. Certificated staff and Center for Human Services Student Assistance Specialists are available in intervention centers and all MTSS campuses to support students' academic and social-emotional needs. Incentives are provided to support positive student behavior.

### **Reflections: Technical Assistance**

As applicable, a summary of the work underway as part of technical assistance.

Modesto City Schools (MCS) has embarked on a journey of technical assistance (TA), specifically through Differentiated Assistance (DA), to address critical areas of improvement. The district's eligibility for this support, under Education Code (EC) sections 47607.3, 52071, 52071.5, 52702, or 52702.5, stems from the identified needs within both the elementary and high school districts based on the 2023 CA Dashboard.

Elementary District Qualifying Factors:

For the elementary district, the qualifying factors include issues affecting African American/Black students, Foster Youth, and students experiencing homelessness. These challenges manifest in low Math and English Language Arts (ELA) performance and high Suspension Rates.

High School District Qualifying Factors:

Similarly, the high school district faces hurdles with homeless student populations impacting Suspension Rates and College & Career readiness. Additionally, Students with Disabilities (SWD) encounter barriers affecting Suspension Rates, Graduation Rates, and College & Career readiness.

In response to these challenges, MCS proactively engaged the Stanislaus County Office of Education (SCOE), which was designated as the technical assistance provider for DA. Together, we have forged a collaborative partnership to analyze the reasons behind the district's DA status and craft actionable improvement steps.

Actions Identified in Collaboration with SCOE:

Through the guidance and expertise of SCOE, several key actions have been identified and implemented (related actions in parentheses):

- 1. College & Career Indicator (CCI):
  - Implementation of School Links a 4-year course and college/career planner (1.2)
  - Expansion of dual enrollment opportunities for students to access college credit courses (1.2)
  - Ensuring alignment of diploma and CCI expectations district-wide, with clear communication (1.2)
  - Integration of functional skill development, especially for students with severe disabilities, into the vocational aspect of CCI (1.2, 1.6)
  - Promotion of the completion of Career Technical Education (CTE) pathways (1.2)
- 2. Graduation Rates:
  - Introduction of co-teaching strategies for both General Education and Special Education (SPED) students (1.1, 1.6)
  - Increased emphasis on intersession programs and the expansion of Summer School offerings tailored for SWDs (1.4, 1.6)
  - Continuation and expansion of collaborative efforts with CA Ed Partners (1.1, 2.1)
  - Ongoing training in inclusive practices to create supportive learning environments (1.6, 2.2)
- 3. Suspension Rates:
  - Revitalization of Positive Behavioral Interventions and Supports (PBIS) across all 7-12 sites, with targeted efforts at elementary levels (funded through a SCOE three-year contract grant) (1.4)
  - Adoption of a consistent approach utilizing Intervention Centers as alternatives to home suspension (1.4)
  - Continuation of Restorative Practices (RP) training for staff (2.2)

4. Math and ELA Proficiency:

- Professional development support for evidence-based instructional practices in math (1.1, 2.1)
- SCOE Collaboration with MCS on developing Professional Learning Communities (PLC) for staff to support target student groups and achievement (2.1)
- Partnered with SCOE to review/evaluate the ELA benchmark assessments for alignment to standards and level of rigor with CAASPP expectations (1.1)
- Focus on the Instructional Core to support students through lesson design and delivery (1.1, 2.1)
- Continued remediation support for students achieving below grade level via summer school, intersession, and RISE (1.4)

The collaborative efforts between MCS and SCOE exemplify a dedicated approach to addressing the multifaceted challenges faced by the district. MCS actively works to ensure equitable and inclusive education for all students by focusing on CCI, Graduation Rates, Math and ELA Achievement, and Suspension Rates. As these initiatives continue to unfold, the district remains committed to fostering a supportive learning environment where every student has the opportunity to thrive academically and personally.

# **Comprehensive Support and Improvement**

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

The following schools have been identified by the California Department of Education as being eligible for comprehensive support and improvement:

```
Franklin Elementary (CDS Code: 507116760522690) (TK-6)
```

Tuolumne Elementary (CDE Code: 5071167676052849) (TK-8)

### Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

The district is committed to supporting its eligible schools in developing and implementing comprehensive support and improvement plans. District staff members engage in close collaboration with site administration at Comprehensive Support and Improvement (CSI) schools, providing ongoing guidance and technical assistance. This collaborative effort is grounded in a thorough examination of student performance data, which includes a deep dive into publicly available information on the California Dashboard as well as local internal data. By meticulously analyzing this data, the district and school administration can identify root causes and conduct a comprehensive needs assessment.

Inclusivity is key to this process. Collaboratively working with the School Site Council (SSC) and the English Learner Advisory Council (ELAC), each school site is empowered to identify and formulate goals. These goals are developed with a focus on evidence-based strategies that directly target the identified areas of need. Through this inclusive and collaborative approach, each school's goals and strategies are formalized in their respective School Plan for Student Achievement (SPSA).

Throughout the academic year, the district remains steadfast in its support of these sites. It's not just about creating plans—it's about ensuring these plans translate into meaningful actions and services for students. The district closely monitors the progress of the implemented plans, actions, and services. This ongoing monitoring allows for timely adjustments, ensuring that the strategies remain effective and responsive to the evolving needs of the school community.

This comprehensive approach underscores the district's commitment to continuous improvement and student success. By working hand-inhand with school leadership, councils, and staff, the district strives to create a supportive environment where every student has the opportunity to thrive.

### Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The district is dedicated to continuously monitoring and evaluating the School Plan for Student Achievement (SPSA) for all identified Comprehensive Support and Improvement (CSI) sites. A multi-faceted approach is employed, utilizing various data sources to provide a comprehensive view of student performance and school improvement efforts.

Data collection includes DIBELS, benchmark assessments, and performance tasks, which offer valuable insights into student progress and areas needing attention. Additionally, walk-through observations and attendance records provide crucial context for understanding the school environment and its impact on student outcomes.

The primary goal of this data collection and analysis is to identify specific student groups that may require targeted interventions or additional support. By pinpointing these groups early on, the district can swiftly implement tailored assistance to address their needs effectively.

Principals play a pivotal role in this process. They are responsible for delivering progress reports during regular data reviews, outlining the successes achieved and the next steps to be taken. These data reviews are not merely internal exercises; they are opportunities for open communication and collaboration with staff and educational partners.

Through this collaborative approach, the district ensures that all educational partners are informed of the progress and challenges faced by identified student groups. This transparency fosters a shared commitment to student success and allows for timely adjustments to the plan as needed.

The district's commitment to data-driven decision-making is evident in its willingness to adjust plans based on real-time data and the progress of identified student groups. This flexibility ensures that interventions remain responsive and effective, maximizing the potential for student and school improvement.

In summary, the district's monitoring and evaluation process is comprehensive, data-driven, and focused on providing timely support to student cohorts in need. By closely analyzing various data sources, engaging in regular reviews, and fostering collaboration among stakeholders, the district aims to create an environment where every student has the opportunity to thrive.

# **Engaging Educational Partners**

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
LCAP Advisory Committee	Parents, students, staff, and community members meet throughout the year to review the current LCAP and feedback from other educational partners and survey information to provide input on the development of the LCAP and progress on actions. Meeting Dates: • October 24, 2023 • November 18, 2023 • January 23, 2024 • February 27, 2024 • March 26, 2024 • April 23, 2024
Students & Student Groups	<ul> <li>Visits were made to the following student groups to gather feedback:</li> <li>Student Advisory Council: October 23, 2023</li> <li>Inter-High Council: January 10, 2024</li> <li>Black Student Union: January 10, 2024</li> <li>Latino Student Union; January 10, 2024</li> <li>Gay Student Alliance: January 10, 2024</li> <li>Students were provided information regarding the LCAP and gave input on what was working and what needed to be improved.</li> <li>School visits were scheduled for various grade levels and schools around the district to get feedback on the LCAP and what is working</li> </ul>

Educational Partner(s)	Process for Engagement
	and what needs to be improved. Visits occurred during January and February 2024 to the following schools: • Franklin Elementary • Rose Avenue Elementary • Bret Harte Elementary (DLA) • Mark Twain Junior High • Downey High School • Davis High School
	Students were also able to participate in three separate surveys that provided input on the actions and services in the LCAP.
	In October 2023, a School Climate Survey was sent to students in grades 3-12. In grades 3-6, students were proctored by their computer literacy teacher and completed the online survey. Students in grades 7-12 were provided a link to the survey through Schoology and asked to complete it. Over 4,000 students completed the survey.
	During November 2023 and December 2023, the first LCAP Survey was posted on Schoology and the district website. Respondents answered three questions: 1. What is working? 2. What needs to be improved? 3. What new actions should be included in the LCAP?
	In March 2024, the link to a second LCAP Survey was distributed via social media, Student Square, and Schoology. Students could rate the importance of each of the five strategic LCAP goals and what it would take to meet the goals. This survey had over 1,000 respondents and provided good information regarding the steps MCS should take with the new LCAP.
LCAP Forums - Parents and Staff	LCAP Forums were held to provide information about the LCAP goals, actions, and outcomes. Participants were provided an overview of the current LCAP Goals and outcomes. They were also able to ask questions and provide input regarding the LCAP.

Educational Partner(s)	Process for Engagement
	Additionally, participants were provided a link to the first LCAP Survey where they could record their responses to three questions: 1. What is working? 2. What needs to be improved? 3. What new actions should be included in the LCAP? Parent/Community Forums were held: • November 29, 2023 at Downey High • December 6, 2023 at Modesto High • December 7, 2023 at Davis High • December 13, 2023 at Hanshaw Middle School Two Staff Forums were held on December 14, 2023 at Downey High.
Parents and Staff	<ul> <li>Parents, students, and staff were engaged in the LCAP process through various surveys and meetings. Parents and staff had the opportunity to participate in the LCAP Forums (stated above) and to complete several surveys related to the LCAP.</li> <li>In October 2023, a School Climate Survey was sent to students in grades 3-12. In grades 3-6, students were proctored by their computer literacy teacher and completed the online survey. Students in grades 7-12 were provided a link to the survey through Schoology and asked to complete it. Over 4,000 students completed the survey.</li> <li>The first LCAP Survey was made available via social media, Parent Square, and the district website from mid-November to mid-December. Parents, students, and staff were provided a link where they could record their responses to three questions: <ol> <li>What is working?</li> <li>What needs to be improved?</li> <li>What new actions should be included in the LCAP?</li> </ol> </li> </ul>
	In late February/early March, the district sent out the annual Family Engagement Survey through our partnership with Hanover. Over

Educational Partner(s)	Process for Engagement
	<ul> <li>1,800 respondents provided information and feedback on the school and district environment, curriculum and instruction, communication, programs and resources, and district performance. Data analysis provided information on positive actions to continue and areas of opportunity that could be addressed in the LCAP.</li> <li>In March 2024, the link to a second LCAP Survey in partnership with ThoughtExchange was distributed via social media, Parent and Student Square, Schoology, and the district website that all parents, students, and staff could complete. Participants provided some demographic information and then responded to questions related to the five strategic goals and provided responses on what actions MCS should prioritize to impact the five strategic goals. Over 1,000 responses were recorded regarding the steps MCS should take with the new LCAP.</li> </ul>
District English Learner Advisory Council (DELAC)	The draft of the LCAP was presented to DELAC on May 9, 2024. DELAC members were provided the opportunity to ask questions and provide their input with respect to the goals, actions, and services.
School Site Councils	Throughout the school year, the district's LCAP was a topic of review on the agenda for the School Site Councils (SSC). Members were provided updates on actions and provided their feedback to be shared with the District LCAP Advisory Committee.
Administrators and Management	Input and feedback on the LCAP occurred throughout the year at various meetings. Administrators and managers were provided information on the LCAP and provided their input on actions and services that should be included, modified. or removed. This occurred at the Academy of Leaders meeting on January 10, 2024. HPT is comprised of representatives from Education Services, Student Support Services, Curriculum and Instruction and

Educational Partner(s)	Process for Engagement			
	Professional Development, Information and Educational Technology Services, and Human Resources. This group of administrators meets every two weeks during the school year to review/discuss pertinent issues. Several meetings were dedicated to the review of the current LCAP goals, metrics, actions, and services. Additionally, this group was tasked with the development of the new metrics for measuring performance for the new 2024-27 LCAP.			
Labor Partners - MTA and CSEA	Throughout the school year, the labor partners (MTA and CSEA) have provided input on the LCAP goals, actions, and metrics. This has occurred at regularly scheduled meetings between the labor partner and MCS. Additionally, labor partners each have a representative on the LCAP Advisory Committee.			
Community Advisory Committee (CAC) and SELPA	The Community Advisory Committee is comprised of parents of special education students in the district. Members were provided information on the LCAP goals, metrics, actions, and services. Participants were able to ask questions and provide input. This meeting was held on February 20, 2024.			
	Modesto City Schools SELPA directors provided input throughout the year on the LCAP goals, metrics, and services. This occurred during HPT and T&L meetings as part of the regular agenda for LCAP.			
Parent Advisory Committee (PAC)	The Parent Advisory Committee is comprised of representatives from each School Site Council. This district group provides input on parental engagement policies, the use of Title I funds, and actions and services in the LCAP. During the March 2024 meeting, the committee reviewed the LCAP actions and services and provided feedback on the draft proposal for the new LCAP.			
LCFF Equity Multiplier Educational Partners	The district and site administration generated input from various educational partners for Robert Elliott Education Center on the goals,			

Educational Partner(s)	Process for Engagement
	<ul> <li>actions, and services that would benefit the school site on improving student performance related to College &amp; Career Readiness and the reduction of suspensions for identified student groups. Meetings were held to provide information regarding student performance, solicit feedback, and to provide input on the goals, metrics, and actions.</li> <li>Parent Meeting: January 19, 2024</li> <li>Staff Meeting: January 23, 2024</li> <li>Student Meeting: January 24, 2024</li> </ul>
	Additionally, a brief survey was sent out the week of January 16-19, 2024 to solicit input from parents and students.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Feedback from educational partners influenced the development of the 2024-2027 Local Control and Accountability Plan (LCAP), leading to several key revisions and investments in actions and services. Generally pleased with the additional services and actions already implemented, partners noted that many of these services are beginning to have an impact. Moreover, they emphasized the positive effects demonstrated by services and supports put in place in response to the COVID-19 pandemic, highlighting their potential for future benefits.

The input from educational partners has underscored the importance of added support staff, as students are presenting with more significant needs than in previous years. Prioritizing the meeting of students' physical and social-emotional needs has been a central concern. There is a recognized need for improved equity among all student groups, prompting the allocation of increased technology and support staff resources, while also maintaining remediation and enrichment programs.

In response to this valuable feedback, the following revisions and investments were made in the 2024-2027 LCAP:

- Continued focus on school safety and security.
- Maintenance or increase in services to address student social-emotional needs.
- Targeted professional development opportunities for staff.
- Continued or increased enrichment opportunities, such as access to visual and performing arts and Esports.
- Increased support for student groups at risk of academic challenges.
- Expanded opportunities for after-school tutoring and support.
- Enhanced programs to foster college and career readiness.
- Actions to support College & Career Readiness at Robert Elliott Education Center using the LCFF Equity Multiplier Funds

# **Goals and Actions**

## Goal

Goal #	Description	Type of Goal		
1	Increase and maintain academic achievement and equitable access to enable all students to attain college and/or career readiness	Broad Goal		
State Prio	rities addressed by this goal.			
Priority	1: Basic (Conditions of Learning)			
Priority	2: State Standards (Conditions of Learning)			
Priority 4: Pupil Achievement (Pupil Outcomes)				
Priority 5: Pupil Engagement (Engagement)				
Priority 6: School Climate (Engagement)				
Priority 7: Course Access (Conditions of Learning)				
Priority	8: Other Pupil Outcomes (Pupil Outcomes)			

#### An explanation of why the LEA has developed this goal.

Through collaborative educational partner input, Modesto City Schools has identified the district's Strategic Goals (also the LCAP Goals).

The district has established this goal for several compelling reasons:

1. \*\*Equity and Access\*\*: By focusing on increasing and maintaining academic achievement and equitable access, the district aims to ensure that every student, regardless of their background or circumstances, has the opportunity to succeed. This goal is aligned with principles of equity, aiming to level the playing field and provide all students with the support they need to excel.

2. \*\*College and Career Readiness\*\*: The goal is directly linked to preparing students for success after high school. In today's competitive landscape, college and career readiness are essential for students to thrive in post-secondary education and the workforce. By targeting this goal, the district is prioritizing the long-term success of its students.

3. \*\*Instructional Quality\*\*: By ensuring a guaranteed instructional program for every student, the district is emphasizing the importance of high-quality teaching and learning. When instruction is intentional, well-designed, and aligned with standards (the Instructional Core), students are more likely to achieve academic success.

4. \*\*Data-Driven Improvement\*\*: The goal of increasing the number of students identified as "prepared" in college/career indicators and reclassifying English learners ties into using data to drive improvement. By tracking these metrics, the district can measure progress and make informed decisions to support student success.

5. \*\*Support for English Learners\*\*: The focus on increasing the reclassification of English learners and decreasing the number of long-term English learners is crucial for these students' success. It demonstrates a commitment to providing effective English language development programs and support services.

6. \*\*Multi-Tiered System of Support (MTSS)\*\*: Implementing and refining MTSS ensures that students receive the specific support they need, whether they are struggling academically or need additional enrichment. This system is designed to provide interventions at various levels of intensity to meet diverse student needs.

7. \*\*Enrichment Opportunities\*\*: Providing diverse enrichment opportunities ensures that students have a well-rounded education. These opportunities can include extracurricular activities, visual and performing arts programs, STEM initiatives, and more. Access to such opportunities can enhance student engagement, motivation, and overall academic success.

8. \*\*Inclusion for Students with Disabilities\*\*: Increasing access to general education through inclusionary practices for students with disabilities promotes a sense of belonging and ensures that these students have access to the same curriculum and experiences as their peers. This supports not only academic achievement but also social-emotional development.

9. \*\*Alignment with State Standards\*\*: Many of these goals align with state standards and priorities, such as those outlined in the California State Dashboard. By aligning with these standards, the district is ensuring that its goals are in line with broader educational expectations and benchmarks for success.

In summary, the district has established this goal to create a comprehensive and inclusive educational environment where every student has the opportunity to reach their full potential. It reflects a commitment to equity, high-quality instruction, data-driven decision-making, and holistic student support, all with the ultimate aim of preparing students for college, careers, and lifelong success.

# **Goals and Actions**

### Goal

Goal #	Description	Type of Goal
2	Ensure all employees have access to high quality professional development to support the MCS Vision.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Through collaborative educational partner input, Modesto City Schools has identified the district's Strategic Goals (also the LCAP Goals).

The district has developed this goal to prioritize the professional development of its employees for several important reasons:

By focusing on professional development in the Instructional Core, the district aims to improve teaching strategies and methodologies. This directly impacts student learning outcomes by ensuring educators are equipped with the best practices to support all learners.

Continuous professional development is essential for the growth and advancement of all staff. By investing in staff development, the district supports positive student outcomes and provides opportunities for career growth within the organization, which can improve overall employee satisfaction and retention.

Training staff to support students in developing the MCS Character Traits, and attaining the Seal of Biliteracy, and Seal of Civic Engagement shows a commitment to holistic student development. It ensures that educators have the tools and knowledge to foster character, language proficiency, and civic engagement among students.

In the modern educational landscape, technology is a vital tool for teaching and learning. Providing training in educational technology helps educators incorporate tech tools effectively into their lessons, enhancing the instructional core and preparing students for the digital world.

Equity in education is a critical goal for ensuring all students have fair and equal opportunities to succeed. By embedding equity and access into professional development, the district is working to eliminate disparities in education and support its vision of an inclusive learning environment.

Overall, this goal reflects the district's commitment to the growth and excellence of its staff, recognizing that well-supported educators directly contribute to positive student outcomes. It aims to empower all staff with the skills and knowledge needed to create an equitable, engaging, and effective learning environment for all students.

## **Measuring and Reporting Results**

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	100% of Designated ELD staff will attend regular and ongoing English Learner Professional Development (PD). Source: PD Catalog	Baseline 2023: 100%			100%

## **Goals and Actions**

#### Goal

Goal #	Description	Type of Goal
	Ensure a safe, welcoming, and respectful learning environment for every member of the school community while ensuring effective District-wide communication for students, staff, families, and community partners.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning) Priority 3: Parental Involvement (Engagement) Priority 5: Pupil Engagement (Engagement) Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Modesto City Schools, through collaborative educational partner input, has identified the Strategic Goals (also the LCAP Goals) for the district.

The district developed this goal to address several key aspects of creating a positive and effective learning environment for all members of the school community.

Equity in education is a fundamental goal to ensure fairness and inclusivity for all students, regardless of their background or circumstances.

The Equity Task Force identified areas where the district can improve to ensure equal opportunities and support for all students.

Recognition is important for motivation and morale. By highlighting excellence, the district encourages a culture of achievement and celebrates the efforts of those who contribute positively to the school community.

Effective communication is essential for building trust and fostering a collaborative environment. By ensuring timely and accessible communication, the district aims to keep everyone informed and involved in discussions about student progress and important topics.

Creating a welcoming and customer-focused environment promotes a positive experience for students, families, and staff. This helps to build a sense of belonging and support within the school community.

Technology is a valuable tool for learning, but it needs to be balanced to ensure it is used effectively and does not detract from other important aspects of education. By maintaining and updating systems, the district can enhance teaching and learning experiences. Technology infrastructure needs to be reliable as the district increases its technology footprint.

Student input is crucial for understanding their needs and perspectives. Providing opportunities for students to give feedback on policies, practices, and procedures empowers them and helps the district make informed decisions that benefit the student body as a whole.

Overall, this goal reflects the district's commitment to creating a safe, inclusive, and engaging learning environment where all members feel valued and supported. It aims to address areas of improvement while also recognizing and promoting excellence within the school community.

# **Goals and Actions**

## Goal

Goal #	Description	Type of Goal					
4	Ensure the District is fiscally and operationally sound.	Broad Goal					
State Prior	rities addressed by this goal.						
Priority	1: Basic (Conditions of Learning)						
	3: Parental Involvement (Engagement)						
Priority	Priority 5: Pupil Engagement (Engagement)						
Priority	6: School Climate (Engagement)						

An explanation of why the LEA has developed this goal.

Modesto City Schools, through collaborative educational partner input, has identified the Strategic Goals (also the LCAP Goals) for the district.

The district has developed Goal Four to ensure it is fiscally and operationally sound, with several key reasons behind each component:

- The LCFF provides funding based on student needs and local priorities. Developing a sustainable budget plan under this formula
  ensures that resources are allocated efficiently to support student success. It also promotes transparency and accountability in
  financial management.
- Involving educational partners in the budget process fosters collaboration and transparency. It ensures that diverse perspectives are considered when making financial decisions, leading to more informed and inclusive budgeting practices.
- Proper investment in facilities, technology, and infrastructure is essential for creating a conducive learning environment. This
  includes ensuring buildings are safe and healthy for students and staff, integrating sustainable practices for long-term cost savings,
  and keeping up with technological advancements for modern learning experiences.
- Monitoring feeder districts, transfers, and enrollment trends helps the district anticipate changes in student population and plan accordingly. This strategic planning ensures that resources are allocated where they are most needed, whether it's adjusting staffing levels, programs, or facilities to accommodate fluctuations in student numbers.

Overall, Goal Four reflects the district's commitment to responsible stewardship of its resources. By implementing sustainable budgeting practices, engaging educational partners in the process, investing in essential infrastructure, and strategically planning for the future, the district aims to maintain financial stability and operational efficiency. These efforts ultimately support the district's ability to provide quality education while ensuring the health, safety, and success of its students and staff.

# **Goals and Actions**

### Goal

Goal #	Description	Type of Goal			
5	Recruit, hire, train, and retain high quality staff, with an emphasis on increasing diversity.	Broad Goal			
State Priorities addressed by this goal.					

Priority 1: Basic (Conditions of Learning) Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Through collaborative educational partner input, Modesto City Schools has identified the district's Strategic Goals (also the LCAP Goals).

The district developed Goal Five to address several important aspects related to recruiting, hiring, training, and retaining high-quality staff, with a specific emphasis on increasing diversity.

Fostering a culture that values all employees is crucial for attracting and retaining top talent. When staff feel valued, respected, and supported, they are more likely to be engaged in their work and committed to the organization, leading to higher retention rates.

Building strong partnerships with local programs helps create pipelines for recruitment. By collaborating with teaching, training, and employment programs, the district can tap into a diverse pool of candidates and establish professional development and growth pathways.

Increasing diversity in the workforce is essential for creating an inclusive and equitable educational environment. By expanding recruiting and hiring processes, the district can actively seek out candidates from underrepresented groups, ensuring a more diverse and representative staff.

Effective communication and collaboration within the district are key to supporting its overall vision and goals. When divisions, departments, and sites work together cohesively, it enhances the overall efficiency and effectiveness of operations, which can positively impact staff satisfaction and retention.

Efficient hiring processes are essential for meeting staffing needs promptly. By monitoring and refining systems, the district can streamline hiring processes, reducing delays and ensuring that positions are filled promptly with qualified candidates.

Overall, Goal Five reflects the district's commitment to creating a positive and supportive environment for its staff, recognizing that the quality and diversity of its workforce directly impact the quality of education provided to students. By valuing employees, building partnerships, increasing diversity, improving communication, and refining hiring processes, the district aims to attract, retain, and support high-quality staff who contribute to the success of Modesto City Schools.

# **Goals and Actions**

### Goal

Goal #	Description	Type of Goal
6	Enhance and guarantee equal access for all students to achieve college and career readiness, while reducing suspension rates, with targeted attention on English learners, Hispanic students, Socio- economically Disadvantaged students, students with disabilities, and white students. (Robert Elliott Education Center)	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes) Priority 6: School Climate (Engagement)

Drierity 0: Other Duril Outerman (Duril Outer

Priority 8: Other Pupil Outcomes (Pupil Outcomes)

#### An explanation of why the LEA has developed this goal.

In consultation with educational partners, the goal was developed to promote equity, enhance college and career readiness, reduce disparities, address specific student needs, and make data-driven improvements to create a more inclusive and supportive educational environment for all students.

Equity in Education: The goal reflects a commitment to providing an equitable education for all students. By focusing on equal access, the district aims to address historical and systemic barriers that have disadvantaged certain student groups. This goal is aligned with the principles of fairness and justice in education.

College and Career Readiness: In today's rapidly evolving job market, college and career readiness is essential for students' future success. The district recognizes the importance of preparing students with the necessary skills and knowledge to excel beyond high school. By establishing this goal, the district aims to equip all students with the tools they need to pursue higher education or enter the workforce.

Reducing Disparities: Disparities in education outcomes, such as suspension rates, can have lasting impacts on students' lives. High suspension rates, in particular, can contribute to disengagement, lower academic achievement, and decreased chances of graduating. By focusing on reducing suspension rates, the district aims to create a more supportive and inclusive learning environment where all students feel valued and encouraged to succeed.

Addressing Specific Needs: The goal's focus on English learners, Hispanic students, Socio-economically Disadvantaged students, students with disabilities, and white students recognizes that different student groups may require tailored support. Each of these groups may face unique challenges that impact their educational experiences. By establishing this goal, the district aims to implement targeted interventions and support systems to address these specific needs.

Data-Driven Decision-Making: The district established this goal based on data analysis of student performance and outcomes. Data revealed disparities in college/career readiness and suspension rates among different student groups. By setting this goal, the district demonstrates a commitment to using data to drive decision-making and improve outcomes for all students.

## **Measuring and Reporting Results**

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
6.1	Decrease the suspension rate of English learner students and students with disabilities by 5%. Source: CA Dashboard	Baseline 2023: English Learners: 9.6% Students with Disabilities: 15.3%			English Learners: 4.6% Students with Disabilities: 10.3%	
6.2	Increase by 5% the number of students identified as College and Career Ready with a focus on identified student groups. ### **Required Descriptions**

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	Action: Ensure every student has a guaranteed instructional program - not by chance, but by design - as outlined in the Instructional Core. Need: English learner students, students with disabilities, foster youth, and low-income students face significant challenges in achieving academic success in ELA and math, as evidenced by lower CAASPP scores.	These actions address the needs of all students including English learner students, students with disabilities, foster youth, and low-income students by providing comprehensive and targeted support to improve academic achievement in ELA and math, as well as early childhood development and literacy. Here's how these actions align with the needs of these student groups. The actions are provided district-wide and school- wide to ensure a consistent and equitable	Metrics 1.1, 1.2, 1.3, 1.4, 1.5, 1.9

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Moreover, these student groups experience higher rates of suspension, lower graduation rates, and decreased school attendance compared to their peers. As a district, MCS needs to improve in all of these areas, not just for the identified student groups.	approach to education for all students, regardless of their background or circumstances. By implementing these strategies across the district, all schools have the resources and support needed to address the identified needs of the student groups in question.	
	Scope: LEA-wide	<ul> <li>Academic Achievement: ELA and Math <ul> <li>Instruction aligned to the standards: This ensures that all students, including English learners and those with disabilities, receive instruction that meets the required standards, providing a strong foundation for academic success.</li> <li>Professional Development: By offering professional development, teachers can enhance their skills in supporting diverse learners, including English learners and students with disabilities.</li> <li>Effective use of research-based instructional practices: Research-based practices are crucial for addressing the needs of diverse learners and promoting academic growth.</li> <li>Lesson Design: Well-designed lessons cater to different learning styles and abilities, benefiting all students, especially those who may struggle without targeted support.</li> <li>Increase teachers' capacity to use data: This helps teachers identify areas of weakness and adjust instruction accordingly, benefiting all students, particularly those who may need additional support.</li> </ul> </li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>Evaluate benchmark assessments: Ensuring assessments are aligned with standards and rigor levels helps in accurately measuring student progress and adjusting instruction as needed.</li> <li>Collaboration with CA Ed. Partners: Partnerships focused on rigor and equitable grading practices enhance the quality of education for all students, especially those historically marginalized.</li> <li>Early Childhood Development/Early Literacy</li> <li>Providing a robust Early Childhood Education (ECE) program and kindergarten readiness initiatives benefits students, especially those from low- income backgrounds or English learners who may not have had access to quality</li> </ul>	
		<ul> <li>early learning experiences.</li> <li>Full-Day Transitional Kinder/Kindergarten/Early Literacy <ul> <li>Robust TK programs and intervention strategies benefit all students, particularly those at risk of falling behind in literacy.</li> <li>Paraprofessionals and collaboration support ensure a holistic approach to early learning.</li> </ul> </li> </ul>	
		<ul> <li>Site Administrators</li> <li>Supplementary support for elementary site administrators ensures that schools have adequate leadership to implement and monitor these initiatives effectively.</li> </ul>	
		Instructional Technology	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>Technology integration benefits all students, including those with disabilities, by providing diverse learning opportunities and access to resources.</li> </ul>	
		<ul> <li>K-6 Prep Providers</li> <li>Providing teachers with time for lesson planning and additional lessons in PE, Social Sciences, and Character Traits enhances the overall educational experience for all students.</li> </ul>	
		<ul> <li>Curriculum Coordinators</li> <li>Maintaining curriculum coordinators ensures that educational materials and strategies are continually updated and aligned with best practices.</li> </ul>	
		In summary, these actions are provided district- wide and school-wide to address the diverse needs of all students including English learner students, students with disabilities, foster youth, and low-income students. They aim to improve academic achievement, access to quality education, and overall well-being, aligning with the goal of increasing college and career readiness for all students.	
1.2	Action: Increase the number of students being identified as "prepared" in the college/career indicators, as outlined in the California State Dashboard.	These actions collectively address the need to increase the number of students identified as "prepared" in the College and Career Indicator both district-wide and schoolwide. They provide targeted support and resources to ensure that all students, particularly English Learners, Foster	Metrics 1.10, 1.11, 1.12, 1.13, 1.14, 1.17, 1.18, 1.19

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Need: According to the CA Dashboard, students in MCS, particularly English Learners, Foster Youth, and Socio-economically Disadvantaged students, are currently achieving below the state and county averages in terms of graduation rates and college and career readiness indicators. These identified student groups are scoring lower on state indicators across all areas. This data underscores the urgency to increase the number of students identified as "prepared" in college and career indicators, as outlined in the California State Dashboard. Scope: LEA-wide	<ul> <li>Youth, and low-income students, have equitable access to college and career readiness opportunities.</li> <li>The actions are provided district-wide and schoolwide to ensure a consistent and equitable approach to education for all students, regardless of their background or circumstances. By implementing these strategies across the district, all schools have the resources and support needed to address the identified needs of the student groups in question.</li> <li>State Seal of Biliteracy (SSB) <ul> <li>By disseminating information, more students can become aware of and qualify for the State Seal of Biliteracy, particularly benefiting English Learners who may excel in languages.</li> <li>By increasing student participation in World Language courses, more students are encouraged to pursue language proficiency.</li> <li>Streamlining assessments ensures that all students have an equal opportunity to qualify for the Seal of Biliteracy.</li> </ul> </li> <li>Increase College &amp; Career Readiness for All Students/ College Credit Course Opportunities - By providing more opportunities for college-level courses, all students benefit and have an increased opportunity to meet College and Career Indicators.</li> <li>Career Exploration curriculum benefits all students, particularly those from low-</li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>income backgrounds or with limited exposure to career options.</li> <li>Counselor and administrator training ensure that all students, especially those at-promise, receive guidance on college and career pathways.</li> <li>College &amp; Career Readiness Preparation and Assessments         <ul> <li>Funding/access for assessments ensures equitable access to readiness assessments, benefiting all students.</li> </ul> </li> <li>AVID         <ul> <li>Benefits all students, particularly those in at-promise groups, by providing support for college readiness.</li> <li>Expansion in secondary and elementary schools helps prepare students for college success from an early age.</li> </ul> </li> </ul>	
		<ul> <li>Counselors <ul> <li>Funding to lower counselor ratios ensures students receive targeted support for college and career readiness.</li> </ul> </li> <li>Career Technical Education (CTE) <ul> <li>Provides diverse career options for all students, particularly beneficial for those not pursuing traditional college paths.</li> <li>Career Navigators helps guide students in career choices, particularly those needing additional support.</li> </ul> </li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>Funding for curriculum and activities introduces students to various career paths, benefiting all learners.</li> </ul>	
1.4	Action: Develop (Grades 7-12) and refine (Grades TK- 6) Multi-Tiered System of Support for all students. Need: Modesto City Schools is facing a significant challenge with a large number of students struggling to achieve grade-level standards. Both state and local data highlight the urgent need for literacy support, math support, behavioral support, and attendance support for all students. This need is especially critical for our English Learners, Foster and Homeless Youth, and low-income students. Reading literacy data, suspension rates, chronic absenteeism data, and engagement data all underscore the necessity for additional actions to support not only all students but particularly those who are marginalized. Scope: LEA-wide	<ul> <li>To address these pressing needs, it is crucial to strengthen and refine the Multi-Tiered System of Support (MTSS) for all students. This system encompasses support structures and interventions that provide targeted assistance at various levels of intensity based on student needs.</li> <li>The actions are provided district-wide and school-wide to ensure a consistent and equitable approach to education for all students, regardless of their background or circumstances. By implementing these strategies across the district, all schools have the resources and support needed to address the identified needs of the student groups in question.</li> <li>Intervention/MTSS <ul> <li>Staff for Student Support Services: These staff members can provide targeted support to English Learners, Foster and Homeless Youth, and low-income students who may require additional assistance.</li> <li>Support for Intervention/MTSS Programs: This ensures that resources are allocated to support the implementation and effectiveness of intervention programs specifically tailored to the needs of marginalized students.</li> </ul> </li> </ul>	Metrics: 1.29, 1.30, 1.31, 1.32, 1.33, 1.34, 1.35, 1.36

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>students, including English Learners and other at-risk groups, have access to the support they need.</li> <li>Paraprofessionals: Additional support staff can offer one-on-one or small group assistance, particularly beneficial for English Learners and students with learning challenges.</li> <li>After-School Tutoring/Mentorship Programs: Offered interventions can provide additional academic support and positive role modeling, particularly beneficial for students facing multiple challenges.</li> </ul>	
		<ul> <li>Mental Health/Social-Emotional Support</li> <li>Student Assistance Specialists/Behavior Clinicians: These professionals can provide targeted support to students experiencing social-emotional challenges, which may be more prevalent among marginalized student populations.</li> <li>PBIS/RP Training: These frameworks promote positive behavior and can benefit all students, especially those with behavioral challenges.</li> <li>Behaviorists/Behavioral Coaches: Offer targeted support for students with behavioral needs, particularly beneficial for Foster and Homeless Youth.</li> </ul>	
		<ul> <li>Support for Students Chronically Absent</li> <li>Attendance Liaisons/Intervention Centers: Provide targeted support to address barriers to attendance, which can</li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>disproportionately affect marginalized students.</li> <li>Foster/Homeless Liaison: Specialized support for students in these situations, addressing attendance challenges associated with mobility.</li> </ul>	
		<ul> <li>Suspension/Expulsion/Dropout Rate <ul> <li>Behaviorists/PBIS: These programs can help reduce suspension rates by promoting positive behavior and creating a more inclusive school environment.</li> <li>Restorative Practices: Offer alternatives to suspension, particularly beneficial for marginalized students who may face discipline disproportionately.</li> <li>Cultural Competency &amp; Diversity Training: This training can help create a more inclusive and understanding school culture, reducing conflict and discipline issues.</li> </ul> </li> </ul>	
		<ul> <li>RIGOROUS INTERVENTION &amp; STUDENT ENRICHMENT (RISE)</li> <li>RISE Staffing/Curriculum/Training: These programs are designed to support students with significant academic challenges, providing tailored support for those who may be struggling to meet grade-level standards.</li> </ul>	
		<ul> <li>Remediation Programs</li> <li>K-12 Remediation Programs: Offer targeted support to students who need additional assistance to catch up academically, particularly beneficial for</li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>English Learners and low-income students.</li> <li>Summer School/Intersession: These programs can provide intensive support and academic catch-up opportunities.</li> <li>Zero-Period Credit Recovery: Allows students to make up credits, important for English Learners and low-income students aiming for college or career readiness.</li> <li>eLearning/Online Courses: Provides flexible learning options, particularly beneficial for students facing barriers to attendance or transportation.</li> <li>In summary, these actions within the MTSS and intervention programs framework provide targeted and comprehensive support to all students, with a specific focus on meeting the needs of English Learners, Foster and Homeless Youth, and low-</li> </ul>	
		income students. By addressing academic, social- emotional, attendance, and behavioral challenges, these initiatives aim to create a more equitable and supportive learning environment where all students can thrive and succeed.	
1.5	Action: Ensure Students have diverse enrichment opportunities at all school sites. Need: Following the COVID-19 pandemic, the chronic absenteeism rate among students remains elevated compared to pre-pandemic	<ul> <li>Summer Enrichment <ul> <li>Qualified instructors can design engaging activities that pique students' interest, encouraging regular attendance.</li> <li>Transition programs can help students smoothly move from one grade level to another, reducing anxiety and promoting attendance.</li> </ul> </li> </ul>	Metrics: 1.37, 1.38, 1.39, 1.42, 1.43, 1.44, 1.45

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	levels. Surveys conducted with students and parents, alongside attendance data, clearly indicate the necessity to introduce enrichment activities that can captivate students' interest and promote regular attendance. This need is particularly pronounced for low-income students who often have limited opportunities to engage in activities during the school year or over summer break.	<ul> <li>VAPA Opportunities <ul> <li>Visual and performing arts programs offer creative outlets that can inspire attendance, especially for students interested in these areas.</li> <li>Experiencing professional performances can inspire students' interest in the arts and motivate regular attendance.</li> </ul> </li> </ul>	
	Scope: LEA-wide	<ul> <li>Athletics <ul> <li>Sports teams provide a sense of belonging and motivation for students to attend school regularly.</li> <li>Removing financial barriers allows more students to participate in sports, contributing to improved attendance.</li> <li>Providing opportunities at the junior high level engages students early, promoting a positive school experience and attendance.</li> </ul> </li> </ul>	
		<ul> <li>Activities <ul> <li>Various activities such as clubs, leadership programs, and events can create a vibrant school culture, encouraging students to attend regularly.</li> <li>Dedicated staff can organize diverse activities that appeal to different interests, promoting attendance.</li> <li>Building a strong extracurricular program in junior high fosters a sense of community and encourages attendance.</li> </ul> </li> <li>Expanded Learning Programs (EXLP)</li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>Leadership ensures a well-organized and varied program that attracts students and promotes attendance.</li> <li>Additional staff provide personalized attention and support, making programs more engaging and encouraging attendance.</li> <li>Well-equipped programs offer diverse activities that capture students' interest, increasing attendance.</li> </ul>	
		<ul> <li>STEM/STEAM</li> <li>STEM/STEAM activities offer hands-on learning experiences that can be particularly engaging for students, improving attendance.</li> </ul>	
		<ul> <li>Elementary Enrichment and GATE <ul> <li>Outdoor Education: Outdoor experiences at grade 6 promote hands-on learning and engagement, positively impacting attendance.</li> <li>Support for GATE: Enrichment opportunities tailored to gifted students foster their interests and encourage consistent attendance.</li> </ul> </li> </ul>	
		<ul> <li>Enrichment 7-12</li> <li>Marketing and promoting enrichment options at the 7-12 levels can spark interest and motivate attendance.</li> <li>Esports appeal to a wide range of students, providing an alternative and engaging activity that encourages attendance.</li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>Ensuring these enrichment opportunities are available district-wide ensures all students, regardless of school location or resources, have access to engaging activities.</li> <li>District-wide implementation guarantees a consistent experience for all students, fostering a sense of community and inclusivity.</li> <li>By implementing these actions district-wide or schoolwide, the impact on student engagement and attendance is magnified, benefiting a larger student population.</li> <li>Centralized planning and implementation allow for efficient use of resources, ensuring programs are well-funded and sustainable.</li> <li>Sharing successful practices and experiences across schools fosters collaboration and continuous improvement in providing engaging activities that promote attendance.</li> <li>In summary, these actions, when implemented district-wide or schoolwide, offer a comprehensive approach to addressing chronic absenteeism by providing diverse and engaging enrichment opportunities. They cater to the interests of all students, particularly benefiting English Learners, Foster and Homeless Youth, and low-income students who may have limited access to such activities. By promoting attendance through exciting programs in various areas like arts, athletics, STEM/STEAM, and enrichment, schools</li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		create a positive school culture that encourages regular attendance and student engagement	
1.6	Action: Increase access to general education for students with disabilities, including students with disabilities who are also English Learner students, Socio-economically Disadvantage students, and foster youth, through inclusionary practices. Need: Students with disabilities are performing at a lower level academically than their peers. Additionally, they have lower attendance rates, higher suspension rates, and more behavioral referrals. Scope: LEA-wide	<ul> <li>The actions are provided district-wide and school-wide to ensure a consistent and equitable approach to education for all students, regardless of their background or circumstances. By implementing these strategies across the district, all schools have the resources and support needed to address the identified needs of the student groups in question.</li> <li>Increase General Education Access for Students with Disabilities</li> <li>An instructional coach can provide personalized support to teachers, helping them develop strategies to meet the diverse needs of students with disabilities. This support can improve the quality of instruction in general education classrooms, making the curriculum more accessible and engaging for students with disabilities.</li> <li>Paraprofessionals <ul> <li>Paraprofessionals</li> <li>Paraprofessionals can offer individualized support to students with disabilities as needed. Having paraprofessionals present can increase students' confidence and ability to participate in classroom activities, potentially improving their academic performance.</li> </ul> </li> </ul>	Metrics: 1.46, 1.47

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>Support/Coaching</li> <li>Providing ongoing support and coaching to teachers helps them implement effective strategies for students with disabilities. Teachers who receive support are better equipped to address diverse learning needs, potentially leading to increased academic achievement for students with disabilities.</li> </ul>	
		<ul> <li>Technology</li> <li>Technology tools and devices can facilitate access to the curriculum for students with disabilities. Assistive technology, such as text-to-speech software or adaptive devices, can enhance students' ability to engage with content and complete tasks, improving their academic outcomes.</li> </ul>	
		<ul> <li>Training/PD (Professional Development)</li> <li>Training and professional development opportunities focus on inclusive practices, differentiation, and understanding the needs of students with disabilities. Educators who receive targeted training are better prepared to create inclusive classrooms and implement effective teaching strategies, which can lead to improved academic performance for students with disabilities.</li> </ul>	
		<ul> <li>Inclusion Specialists</li> <li>Inclusion specialists provide expertise in inclusive practices and support teachers</li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		in adapting curriculum and instruction for students with disabilities. With the help of inclusion specialists, teachers can create more inclusive learning environments where students with disabilities have greater access to the curriculum and opportunities for success.	
		<ul> <li>Inclusion Coordinator</li> <li>An inclusion coordinator oversees the implementation of inclusion practices and collaborates with staff to ensure students with disabilities are fully included in general education. Having an inclusion coordinator helps to create a cohesive approach to inclusion, leading to improved access to general education and academic success for students with disabilities.</li> </ul>	
		<ul> <li>Student Services Administrator 7-12</li> <li>A student services administrator oversees the support services and programs for students with disabilities, ensuring they receive appropriate accommodations and resources. Having a dedicated administrator focused on student services can lead to more effective coordination of support, increased access to resources, and improved outcomes, including higher graduation rates, for students with disabilities.</li> </ul>	
		<ul> <li>Overall Impact</li> <li>These actions collectively create a supportive and inclusive environment for</li> </ul>

	all learners, increasing student engagement, promoting positive student outcomes, aligning with the Board-adopted curriculum, and meeting the ongoing professional development needs of educators. There is a specific emphasis on addressing the instructional needs of English Learners. Scope: LEA-wide	<ul> <li>holistic approach to supporting ELs, involving families and the broader community in the educational process. The assessment of EL-focused PD ensures that these initiatives are effective and impactful.</li> <li>Professional Development to Support the Effective Implementation of the Instructional Core: This action provides comprehensive training for all employees, including teachers, to support the Instructional Core. Teachers will receive training on how to develop and use assessments, curriculum, and instructional strategies that align with the core objectives of the district. This training ensures that teachers have the necessary tools and knowledge to create effective learning environments for all students, including ELs.</li> <li>In summary, these actions directly address the needs of English learners by providing targeted professional development for teachers, coaches, and staff. They also support district-wide teacher training by offering a comprehensive approach to enhancing instructional practices and ensuring that all educators have the necessary resources to support student achievement.</li> <li>The actions are provided district-wide and school-wide to ensure a consistent and equitable approach to education for all students, regardless of their background or circumstances. By implementing these strategies across the district, all schools have the resources and support needed to address the identified needs of the student groups in question.</li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
2.2	Action: Ensure all staff are building their capacities as professionals in support of improving positive student outcomes and building their skills to support potential career advancement within the organization. Need: The district has identified the following needs based on the achievement of unduplicated students: Professional Development: to support teachers' instructional practices to increase the academic achievement of all students with a focus on unduplicated students. Support for English Learners through enhanced instructional practices and creating an inclusive learning environment for English learners. Support for Students with Disabilities: Providing specialized skills and practices through professional development for staff working with students with disabilities, including training on inclusionary practices and programs for bridge credentialing and added authorizations. Improving Student Outcomes: Enhancing instructional practices, providing induction support for new teachers and administrators, and offering leadership development opportunities to contribute to improved student engagement and academic achievement.	The actions are provided district-wide and school- wide to ensure a consistent and equitable approach to education for all students, regardless of their background or circumstances. By implementing these strategies across the district, all schools have the resources and support needed to address the identified needs of the student groups in question. These initiatives address the need district-wide for ensuring all staff are building their capacities as professionals to support improving student outcomes and building their skills to support potential career advancement within the district, with a specific focus on English learners, foster youth, and students with disabilities: 1. Curriculum and Instruction/Professional Development (CIPD) This ensures that there are dedicated roles within the district to provide ongoing support and guidance for administrators in matters related to curriculum, instruction, and professional development. This support ensures the smooth operation of CIPD programs and initiatives, allowing staff to focus on providing quality professional development opportunities. 2. Induction Support/Administrator Credentialing Program - Provide mentors/coaches for new teachers: This program helps new teachers, including those working with English learners, foster youth, and students with disabilities, by providing guidance and support from experienced educators. New administrators will benefit from mentorship to	Metrics 2.6, 2.7, 2.8, 2.9, 1.1, 1.2, 1.46, 1.47

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Equity and Inclusion: Promoting equity and inclusion through restorative practices training, leadership development, and professional development for all staff to create a positive and inclusive school culture. Career Advancement Opportunities: Offering leadership development programs such as Leaders in Learning, Future Principals Workshops, and Leadership Coaching to support staff in advancing their careers within the district. Alignment with Board-Adopted Curriculum: Maintaining administrator support positions and clerical support for Curriculum and Instruction/Professional Development to ensure alignment with the Board-Adopted curriculum, promoting consistency and effectiveness in instruction across the district. <b>Scope:</b> LEA-wide	<ul> <li>navigate their roles effectively, especially in supporting diverse student populations.</li> <li>3. Leadership Development By focusing on building leadership capacity, administrators are better equipped to provide targeted support for English learners, foster youth, and students with disabilities. This includes creating school-focused initiatives, fostering collaborative cultures, improving classroom instruction, and ensuring accountability. Empowering teacher leaders benefits all students, including those with diverse needs, by promoting instructional excellence and support within schools.</li> <li>4. Professional Development for Staff of Students with Disabilities This training directly addresses the needs of staff working with students with disabilities, fostering a more inclusive and supportive environment.</li> <li>5. Restorative Practices PD Restorative practices training benefits all students by promoting positive behavior management strategies. This is especially important for English learners, foster youth, and students with disabilities with disabilities with and supports and repairing harm.</li> <li>In summary, these initiatives provide a comprehensive approach to professional development, leadership development, and support programs that directly address the needs</li> </ul>	
		of English learners, foster youth, and students with

	participation in civic activities and community engagement.	training and awareness about the State Seal of Biliteracy equips staff with the information needed to help students attain proficiency in multiple languages and meet the requirements for the seal.	
	LEA-wide	needs by providing training opportunities for staff on character trait instruction, State Seal of Civic Engagement, and State Seal of Biliteracy. Additionally, providing materials/supplies and assessment support ensures that educators have the tools and resources needed to guide and support students in their development of character traits and attainment of these prestigious seals.	
2.4	Action: Ensure staff have training and support in utilizing educational technology as a tool to support the Instructional Core. Need: Based on survey data and academic achievement, the identified need is to ensure staff have training and support in utilizing educational technology as a tool to support the Instructional Core and provide equitable access for unduplicated students, particularly English learner students to improve academic achievement which is below the district average.	to ensure staff have training and support in utilizing educational technology as a tool to support the Instructional Core and provide equitable access for all students, with an emphasis on unduplicated students:	Metrics 1.1, 1.2, 1.5, 1.22, 1.23, 1.47, 2.15, 2.16
	Scope: LEA-wide	1. Education Technology Integration Training	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>Provide PD focused on utilizing technology to enhance teaching practices:</li> <li>This action offers professional development (PD) sessions specifically focused on using educational technology to improve teaching practices. Staff will learn how to effectively integrate technology into their lessons to enhance the Instructional Core. This training equips educators with the knowledge and skills to leverage technology for more engaging and effective instruction that will allow unduplicated students better accessibility to the curriculum and provide individualized assistance.</li> <li>Personalized Educational Technology Coaching and Learning         <ul> <li>Personalized EdTech Coaching and Liaisons for TK-12 teachers:</li> <li>This action provides personalized coaching and support for teachers in utilizing educational technology. Teachers will receive one-on-one guidance and assistance tailored to their individual needs and teaching styles. EdTech liaisons will serve as resources to help teachers navigate technology integration effectively, with a special focus on how to engage unduplicated students effectively.</li> <li>Embedded PD for integrating technology in the classroom:</li> <li>Embedding professional development within the classroom environment ensures that teachers receive ongoing support and guidance in integrating technology into their lessons. This approach allows for immediate application of learned skills and strategies.</li> </ul> </li></ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		In summary, these actions support the identified need by offering training opportunities, personalized coaching, and embedded professional development focused on utilizing educational technology as a tool to enhance teaching practices and support the Instructional Core. Staff will receive the necessary training, support, and resources to effectively integrate technology into their instruction and improve student learning outcomes. These actions are needed at all sites, so offering them district-wide is the most effective option for implementation.	
2.5	Action: Ensure professional development opportunities are focused on embedding equity and access support the MCS Vision. Need: Based on survey data and parent feedback, the identified need is to ensure staff has access to professional development opportunities that are focused on embedding equity and access for all students, but particularly unduplicated students to support the MCS Vision. English learner students, foster youth, and students with disabilities are struggling academically and need staff to understand the need for equity and access. Scope: LEA-wide	The actions are provided district-wide and school- wide to ensure a consistent and equitable approach to education for all students, regardless of their background or circumstances. By implementing these strategies across the district, all schools have the resources and support needed to address the identified needs of English learners, foster youth, and students with disabilities. This action directly meets the identified need by providing professional development opportunities for staff focused on equity: 1. Professional Development for Staff on Equity This action offers targeted professional development sessions specifically focused on equity. Staff will receive training on understanding and addressing issues of equity in the educational context. This includes strategies for creating inclusive learning environments, recognizing	Metric 2.17, 1.30, 3.2

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>biases, and promoting equitable practices that support all students with an emphasis on unduplicated students.</li> <li>By providing PD focused on equity, the district is actively working to align staff practices with the MCS Vision. The training emphasizes the importance of equity and access in achieving the district's vision for an inclusive and supportive learning environment.</li> <li>In summary, this action meets the identified need by providing professional development opportunities focused on embedding equity. Staff will receive training to promote equity and access, aligning with the MCS Vision of creating an inclusive and supportive learning environment for all students with an emphasis on unduplicated students.</li> </ul>	
3.3	Action: Provide timely and accessible two-way communication incorporating active listening when discussing District/student progress and other important topics with all Educational Partners. Need: Survey data reveals a notable communication gap between parents and the school. Parents express a strong desire for more information about district and school happenings. The majority of respondents prefer to receive updates either electronically or through in- person channels. Additionally, most parents reported low participation in school or district	<ul> <li>Actions to Meet Parent Communication Needs:</li> <li>1. Implement Parents Make a Difference Parent Advocacy Program: <ul> <li>Benefit for All Families: This program helps all parents understand how to advocate for their children within the educational system. It provides valuable information on resources, support, and how to navigate the school environment effectively.</li> <li>Why District-wide: Implementing this program district-wide ensures equitable access to advocacy skills for all parents, including English Learners' families, foster youth parents, and low-income</li> </ul> </li> </ul>	Metrics: 3.1, 3.2, 3.4, 3.5

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	committees and limited awareness of district events. Survey demographics indicate that parents of English learners and students with disabilities participate at a lower level overall. However, parents of English learners who respond indicate a desire for more information regarding school and district events. <b>Scope:</b> LEA-wide	<ul> <li>families. It promotes a culture of parental involvement and empowerment across the district.</li> <li>2. Parent Ambassador Program to Provide Outreach and Training to Parents: <ul> <li>Benefit for All Families: Parent ambassadors act as bridges between the school and parents, offering support, information, and guidance. They can assist all families, including those with specific needs, in navigating the educational system.</li> <li>Why District-wide: Providing this program at a district-wide level ensures that all parents, regardless of background or circumstances, have access to trained ambassadors. This promotes inclusivity and equal opportunities for all families to engage with the school community.</li> </ul> </li> <li>Increased Social Media Presence: <ul> <li>Accessible Information: Social media platforms provide an easily accessible and convenient way to disseminate information to parents. By posting updates, announcements, and resources on platforms like Facebook, Twitter, or Instagram, schools can ensure that parents, including those with limited time or resources, can stay informed about district and school events.</li> </ul> </li> <li>Timely Updates: Social media allows for real-time updates. Schools can quickly share important news, such as school closures, event reminders, or changes in policies. This immediacy is crucial</li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		for parents who may need to adjust their schedules or plans accordingly. 3. Engagement Opportunities: Social media platforms facilitate two-way communication. Parents can ask questions, provide feedback, and engage with school staff and other parents. This interaction fosters a sense of community and involvement, which is especially beneficial for English Learners, foster youth, and low-income families who may feel disconnected. While these actions are provided district-wide, they are designed to address the needs of English Learners, foster youth, and low-income families by creating a more inclusive, communicative, and supportive educational environment for all parents. They aim to build a strong foundation of engagement and empowerment for every family within the district or school.	
3.4	Action: Provide welcoming school and office environments with a focus on exceptional and engaging customer service. Need: Survey data reveals a notable communication gap between parents and the school. Parents also express dissatisfaction with customer service when they come to the school or district office. Parents of English Learners often have difficulty communicating with school staff due to language barriers.	<ul> <li>These actions are instrumental in addressing the communication gap and improving customer service, particularly for parents of English Learners.</li> <li>Create a Culturally Responsive Customer Service Focused District</li> <li>1. 	Scope: LEA-wide	<ul> <li>those of English Learners, fostering effective two-way communication.</li> <li>Understanding Dissatisfaction: Surveys can uncover specific issues parents face with customer service and communication. This data is crucial for targeted improvements.</li> <li>Survey Students: <ul> <li>Insights into Student Experiences: Understanding students' perspectives can inform how schools improve services. For English Learners, student feedback can highlight areas where language barriers impact their interactions with staff.</li> <li>Identifying Areas for Improvement: Students may have unique insights into customer service experiences at the school or district level, helping identify specific issues to address.</li> </ul> </li> <li>Provide Training to Staff on Positive and Culturally Responsive Customer Service: <ul> <li>Addressing Language Barriers: Training staff on culturally responsive customer service includes strategies for effective communication with parents of diverse backgrounds.</li> <li>Improved Interactions: Staff training ensures they are equipped to handle various cultural norms, language barriers, and diverse needs. This leads to more positive and respectful interactions with all parents, improving overall customer service.</li> </ul> </li> <li>Provide Translation Support: <ul> <li>Language Accessibility: Translation support directly addresses the language</li> </ul> </li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>barriers faced by parents of English Learners. It ensures that all communication, including newsletters, announcements, and forms, are accessible to non-English speaking parents.</li> <li>Enhanced Engagement: When parents can access information in their preferred language, they are more likely to engage with the school community, attend events, and participate in their child's education.</li> <li>In summary, these actions are specifically designed to bridge the communication gap and improve customer service, with a focus on addressing the needs of parents of English Learners. By creating a culturally responsive district, schools can ensure that all families feel heard, respected, and engaged in their child's education. While some sites may have more</li> </ul>	
		second language parents, the district needs to ensure that all sites can support the language needs of parents. Coordinating these services district-wide ensure equity and access for all.	
3.5	Action: Improve operational efficiencies by ensuring a balance of technology in the classroom and maintaining and updating systems/network infrastructure.	These actions directly support the stated needs and provide substantial benefits for English Learners, Foster Youth, and low-income students: Infrastructure for Technology	Metrics 3.7, 3.8, 3.9, 3.10, 3.11, 3.12
	<b>Need:</b> The pandemic underscored the critical need for technology to support both students and	1. Cyber Security and Robust Network Infrastructure: Robust cyber security and network infrastructure ensure that online language learning	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	staff in achieving educational goals. The increased reliance on technology brought to light challenges related to infrastructure and security that require ongoing attention. Families of low-income students and English learner students report they have less access to technology and need additional support from the district to help their students succeed.	tools and resources are accessible and secure for English Learners. Secure network operations protect the personal data and educational records of all students, ensuring their privacy and security. Reliable network infrastructure means low-income students can access online resources without interruption, leveling the playing field for learning opportunities.	
	Scope: LEA-wide	2. 24/7 Cybersecurity Monitoring and Remediation: Protecting personal and district data 24/7 ensures the confidentiality of information.	
		3. Replace and Upgrade Communication Systems: Efficient communication systems can facilitate quick and secure exchanges of information. Upgraded communication tools ensure that low- income students can easily connect with teachers, access online resources, and receive support as needed.	
		Digital Schools	
		1. Maintain/Replace Student and Staff Technology: Maintaining and replacing technology devices ensures that English Learners have access to updated language learning software and tools and that low-income students have the same learning opportunities as their peers.	
		2. Adequate Customer Service for Teachers, Parents, and Students: Access to quality customer service means low-income students, foster youth, and English Learners and their families can quickly resolve any technology-related issues, ensuring uninterrupted access to education.	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<ul> <li>Real-Time Data Management System</li> <li>1. Maintain Modesto Data Dashboard (MODD): Real-time data dashboards can track English Learners' progress in language acquisition, enabling educators to tailor support and resources accordingly. Data dashboards can highlight academic trends, facilitating timely interventions and support.</li> <li>2. Expand Site-Based Dashboard Data: Site- based dashboard data can include English Learners' language proficiency levels and specific needs, enabling targeted support. Expanded dashboard data can track foster youth's educational milestones and progress, aiding in personalized educational planning and support.</li> <li>Benefits of Application Utilization</li> <li>1. Track and Analyze Application Access, Utilization, and Benefits: Tracking application usage helps educators understand which resources are most effective for English Learners' language acquisition and the overall achievement of all students.</li> </ul>	
		These actions directly support the critical technology needs of English Learners, foster youth, and low-income students. By addressing infrastructure challenges, ensuring access to digital resources, maintaining real-time data systems, and analyzing application utilization, schools can create an environment where all	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		students have the support they need to achieve their educational goals. The actions are provided district-wide and school- wide to ensure a consistent and equitable approach to education for all students, regardless of their background or circumstances. By implementing these strategies across the district, all schools have the resources and support needed to address the identified needs of the student groups in question.	
3.7	<ul> <li>Action: Implement and monitor the recommendations identified by the Equity Task Force.</li> <li>Need: The district's Equity Task Force identified an number of needs for all students, but particularly for traditionally marginalized student groups including English Learner students and low-income students. The Task Force made recommendations to address these needs: <ul> <li>lack of teacher diversity</li> <li>placement of inexperienced teachers at sites with higher populations of marginalized student groups</li> <li>inadequate communication with parents of students of color and parents of English Learner students</li> <li>deficient levels of customer service causing a lack of trust</li> <li>inequities in grading and course access, particularly for students of</li> </ul> </li> </ul>	<ul> <li>Increase Communication with Parents</li> <li>1. 	color, English Learner students, and low-income students	<ul> <li>Parent ambassadors can serve as liaisons between the school and parents, especially for historically marginalized groups.</li> <li>They can bridge language barriers for English learners' parents, ensuring they receive important information and resources.</li> <li>Foster youth parents can receive specialized support and guidance from ambassadors who understand the unique challenges faced by these students.</li> <li>Low-income parents can benefit from ambassadors who can connect them with community resources and support services.</li> <li>Improve Customer Service</li> <li>Provide Professional Development Specific to the Area of Customer Service:         <ul> <li>Training staff in customer service can improve interactions with parents of color, making them feel more welcomed and respected.</li> <li>For English learners, staff can learn how to effectively communicate with parents who may have language barriers, enhancing their engagement and trust.</li> <li>Foster youth families may feel more supported and understood when staff are trained in customer service specific to their needs.</li> <li>Low-income families can benefit from improved customer service specific to their needs.</li> </ul> </li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		valued and respected by the school system.	
		Maintain Site Security	
		Site security plays an important role in creating a safe and welcoming environment for all students and families. When parents feel that their children are attending a secure school, it can positively impact their overall perception of the school's environment and the level of trust they have in the institution. This can indirectly contribute to improved communication, better customer service, and a more positive educational experience for English learners, foster youth, and low-income students.	
		In summary, these actions help address the identified needs by enhancing communication with parents through advocacy programs and ambassadors, improving customer service through specialized training, and indirectly supporting a positive environment through site security measures. By offering these programs district-wide, resources are utilized in an effective manner and promote equity amongst the different school sites.	
5.3	Action: Expand recruiting and hiring processes to provide support, and increase diversity in the certificated, classified, and management workforce.	Expand Recruitment and Hiring Processes 1. Decrease Vacancies: Decreasing vacancies ensure that schools have adequate staff to provide specialized support and resources for English Learners, improving their language acquisition and	Metrics 5.9, 5.10, 5.11, 1.1, 1.2, 1.10, 1.12, 1.22, 1.23, 1.29, 1.46

Goal and	Identified Need(s)	How the Action(s) Address Need(s) and Why it is	Metric(s) to Monitor
Action #		Provided on an LEA-wide or Schoolwide Basis	Effectiveness
	Based on feedback indicating that English learner students do not see themselves represented in the staff at their sites, the Equity Task Force has identified a need for greater diversity in the certificated, classified, and management workforce. Additionally, there is a need to expand the applicant pool to better meet the district's needs and enhance diversity within the workforce. <b>Scope:</b> LEA-wide	<ul> <li>academic success as well as providing academic stability for all students.</li> <li>2. Grow Talent from Within MCS: Growing talent from within encourages career advancement opportunities for existing staff, including those from diverse backgrounds. This promotes retention and a sense of commitment to the school community.</li> <li>3. Hold MCS Job Fairs for Community Outreach and Employer Branding: Job fairs engage the community and showcase the district as an inclusive and diverse employer. This can attract a more diverse pool of candidates, benefiting all students.</li> <li>4. Staff to Support Expanded Recruitment, Hiring, and Retention: Having staff dedicated to recruitment, hiring, and retention efforts ensures a focused approach to addressing diversity needs.</li> <li>Diversity of Workforce</li> <li>1. Increase Diversity of the MCS Workforce: Increasing diversity in the workforce ensures that students, including English Learners, foster youth, and low-income students, see themselves represented among staff.</li> <li>2. Partner with the Educators Rising Program through CSU Stanislaus: Partnering with programs like Educators Rising introduces students to the teaching profession, particularly those from diverse backgrounds. This can create a pipeline for future diverse educators.</li> </ul>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		3. Teacher Residency Program: Teacher residency programs provide hands-on experience for aspiring educators, including those from diverse backgrounds. This practical training can better prepare them for teaching diverse student populations.	
		4. Paid Student Teaching: Paid student teaching opportunities provide valuable hands-on experience for aspiring educators, especially those from underrepresented backgrounds.	
		In summary, these actions support the identified needs for greater diversity district-wide in the workforce and an expanded applicant pool, benefiting all students, including English Learners, foster youth, and low-income students. Coordinating these actions at the district level provides the best utilization of resources.	

### **Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and	Identified Need(s)	How the Action(s) are Designed to Address	Metric(s) to Monitor
Action #		Need(s)	Effectiveness
1.3	Action: Increase the percentage of English learners who reclassify prior to becoming long-term English learners and decrease the percentage of long-term English learners.	Added supports will provide greater opportunity for English learner and long-term English learner students to achieve at comparable levels as their peers. Teachers will be better prepared to provide scaffolding in their instruction and better	Metrics: 1.21, 1.22, 1.23, 1.26, 1.28, 1.29, 1.31, 1.33, 1.35, 1.36

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	Need: English leaner students and long-term English learner students require additional support to achieve at levels equal to their peers. Current results indicate these students are underperforming on state assessments and have higher rates of absences and suspensions. Scope: Limited to Unduplicated Student Group(s)	<ul> <li>understand the needs of these students. Added support opportunities will enhance the learning experience for these students both in the regular schedule and in an extended day.</li> <li>ELPAC Support <ul> <li>Professional development for teachers in designated and integrated ELD supports student achievement.</li> <li>Parent, student, and administrator training on the ELPAC assessment provides a greater understanding of the areas in which students will be tested and provides support for the families.</li> </ul> </li> <li>Lesson Design and Instructional Support <ul> <li>These actions support teachers in their ability to present the lesson content in a manner the assists the English Learner student to comprehend and achieve.</li> </ul> </li> </ul>	

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not Applicable.

#### Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

With almost all campuses having a high concentration of unduplicated students, MCS has worked diligently to increase the number of staff providing direct services to students. MTSS was expanded to include all elementary sites resulting in the hiring of additional paraprofessionals to assist in providing daily intervention support in reading literacy. Additionally, counselor ratios were reduced at the 7-12

levels to provide greater monitoring and support for at-promise students. Site Intervention Teams (SIT) were created to monitor students' performance, attendance, and progress and to quickly address any concerning patterns that may arise. Additional optional periods were added at the high school level to assist students needing to remediate failed grades with special emphasis on homeless/foster youth and English learner students. Student Support Administrators (SSA) were added to the junior high and high schools sites to support counselors in working with unduplicated students to provide greater oversight and improve student outcomes.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	Elementary: 1:22; High School: 1:34	Elementary: 1:18; High School: 1:27
Staff-to-student ratio of certificated staff providing direct services to students	Elementary: 1:17; High School: 1:21	Elementary: 1:16; High School: 1:18

# **Local Control and Accountability Plan Instructions**

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at <u>LCFF@cde.ca.gov</u>.

# **Introduction and Instructions**

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- Comprehensive Strategic Planning: The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- Meaningful Engagement of Educational Partners: The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (*EC* Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- Accountability and Compliance: The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (*EC* Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (*EC* sections 52064[b][1] and [2]).
    - **NOTE:** As specified in *EC* Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to *EC* Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, *EC*

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# **Plan Summary**

# Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

# **Requirements and Instructions**

### **General Information**

A description of the LEA, its schools, and its students in grades transitional kindergarten-12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK-12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### **Reflections: Annual Performance**

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

## **Reflections: Technical Assistance**

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

• If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as "Not Applicable."

# **Comprehensive Support and Improvement**

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

# Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

• Identify the schools within the LEA that have been identified for CSI.

# Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

• Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidencebased interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

## Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

• Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

# **Engaging Educational Partners**

# Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

# Requirements

2024-25 Local Control and Accountability Plan for Modesto City Schools

**School districts and COEs:** *EC* sections <u>52060(g)</u> (California Legislative Information) and <u>52066(g)</u> (California Legislative Information) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** *EC* Section <u>47606.5(d)</u> (California Legislative Information) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the <u>CDE's LCAP webpage</u>.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see Education Code Section 52062 (California Legislative Information);
  - Note: Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see Education Code Section 52068 (California Legislative Information); and
- For charter schools, see Education Code Section 47606.5 (California Legislative Information).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

# Instructions

## Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

# Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

### Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

### A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement
  process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within
  the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

# **Goals and Actions**

# Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

# **Requirements and Instructions**

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

## **Requirement to Address the LCFF State Priorities**

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The <u>LCFF State Priorities Summary</u> provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

# Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

## Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

2024-25 Local Control and Accountability Plan for Modesto City Schools

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

# Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

#### Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

### Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to
  implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the
  ELO-P, the LCRS, and/or the CCSPP.

**Note:** *EC* Section <u>42238.024(b)(1)</u> (California Legislative Information) requires that Equity Multiplier funds be used for the provision of evidencebased services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

## **Broad Goal**

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

### Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

# Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- Required metrics for LEA-wide actions: For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:
  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

#### Complete the table as follows:

### Metric #

• Enter the metric number.

## Metric

Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions
associated with the goal.

### Baseline

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan.
     LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the
  description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational
  partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

### Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

### Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

## Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

## Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "Measuring and Reporting Results" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2026–27</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> and <b>2026–27</b> . Leave blank until then.

### Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

• Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. "Effectiveness" means the degree to which the actions were successful in producing the target result and "ineffectiveness" means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

### Actions:

Complete the table as follows. Add additional rows as necessary.

# Action #

• Enter the action number.

### Title

• Provide a short title for the action. This title will also appear in the action tables.

# Description

• Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

### Total Funds

 Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

### Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a "Y" for Yes or an "N" for No.
  - Note: for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

### **Required Actions**

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - o Language acquisition programs, as defined in EC Section 306, provided to students, and
  - Professional development for teachers.
  - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

# Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

# Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

## **Statutory Requirements**

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for any action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

2024-25 Local Control and Accountability Plan for Modesto City Schools

### LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

### For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

# **Requirements and Instructions**

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

• Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will
receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

• Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage

Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

• Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

• Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

# **Required Descriptions:**

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

### Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

### How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

• As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

 Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

#### Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

#### **Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

#### Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

#### How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

#### Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school
  LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the
  funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at
  selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that
  is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of
  unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

# **Action Tables**

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word "input" has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

# **Total Planned Expenditures Table**

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- LCAP Year: Identify the applicable LCAP Year.
- 1. Projected LCFF Base Grant: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- 2. Projected LCFF Supplemental and/or Concentration Grants: Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- 3. Projected Percentage to Increase or Improve Services for the Coming School Year: This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- LCFF Carryover Percentage: Specify the LCFF Carryover Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- Total Percentage to Increase or Improve Services for the Coming School Year: This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.
- **Goal #**: Enter the LCAP Goal number for the action.
- Action #: Enter the action's number as indicated in the LCAP Goal.
- Action Title: Provide a title of the action.
- Student Group(s): Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- Contributing to Increased or Improved Services?: Type "Yes" if the action is included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - Scope: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- Unduplicated Student Group(s): Regardless of scope, contributing actions serve one or more unduplicated student groups.
   Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- Location: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- LCFF Funds: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - Note: For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
  - Note: Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- Local Funds: Enter the total amount of Local Funds utilized to implement this action, if any.
- Federal Funds: Enter the total amount of Federal Funds utilized to implement this action, if any.
- Total Funds: This amount is automatically calculated based on amounts entered in the previous four columns.
- Planned Percentage of Improved Services: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as 2024-25 Local Control and Accountability Plan for Modesto City Schools Page 159 of 163

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

 As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

# **Contributing Actions Table**

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

# Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

• Estimated Actual Expenditures: Enter the total estimated actual expenditures to implement this action, if any.

# **Contributing Actions Annual Update Table**

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- 6. Estimated Actual LCFF Supplemental and/or Concentration Grants: Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- Estimated Actual Expenditures for Contributing Actions: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- Estimated Actual Percentage of Improved Services: For any action identified as contributing, being provided on a Limited basis only to
  unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for
  the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

# LCFF Carryover Table

- 9. Estimated Actual LCFF Base Grant: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- 10. Total Percentage to Increase or Improve Services for the Current School Year: This percentage will not be entered. The
  percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF
  Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover Percentage from the
  prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services
  provided to all students in the current LCAP year.

# **Calculations in the Action Tables**

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

## **Contributing Actions Table**

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- 5. Total Planned Percentage of Improved Services
  - This percentage is the total of the Planned Percentage of Improved Services column.
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)

• This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### **Contributing Actions Annual Update Table**

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services.

#### • 6. Estimated Actual LCFF Supplemental and Concentration Grants

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

#### • 7. Total Estimated Actual Expenditures for Contributing Actions

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- 5. Total Planned Percentage of Improved Services (%)
  - This amount is the total of the Planned Percentage of Improved Services column.
- 8. Total Estimated Actual Percentage of Improved Services (%)
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

### LCFF Carryover Table

• 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)

• This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

#### • 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)

• This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

#### • 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)

 If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

#### • 13. LCFF Carryover — Percentage (12 divided by 9)

• This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
