

Funding the Future of MANTECA SCHOOLS

MANTECA UNIFIED SCHOOL DISTRICT

Great communities make great schools, and great schools make great communities!

Thank you for investing in local schools! Your contributions play an important role in maintaining safe and secure campuses, improving access, and updating aging facilities across Manteca Unified.

Our district uses local funding through bond measures and special taxes, such as Mello-Roos, which allows MUSD to invest in the future of local education by modernizing existing campuses and constructing new facilities.

From new playgrounds and roofing to full school modernizations, MUSD spent **\$30 million** last year improving school campuses.

- Kindergarten Classroom Expansions

District Wide Modernizations & Updates

New Playgrounds: Expanding Equity & Access

Fun is for everyone! MUSD has installed new playgrounds across the district that feature a variety of accessible play elements that cater to all students, regardless of ability.

HVAC Replacements

To provide comfortable and healthy learning environments, MUSD is installing new and more efficient heating, ventilation, and air conditioning units, accessories, and controls at 16 school sites.

Coming Soon: Early Education Centers

By 2025-26, California will require public schools to provide universal transitional kindergarten (UTK) to all 4-year-old children.

In preparation for an influx of young learners, MUSD's Board of Education has approved two Early Education Centers (EECs), one in Lathrop and one in Manteca.

EECs will create a central location for UTK and kindergarten classes in a nurturing learning environment designed just for young learners. EECs will also maximize classroom space at nearby elementary schools in developing areas.

New Playgrounds: Expanding Equity & Access

Fun is for everyone! New playgrounds at George Komure and Great Valley Elementary Schools feature a variety of accessible play elements that cater to all students, regardless of ability.

WRHS Pool Renovation

Weston Ranch High School will have a new swimming pool for the 2024-25 school year! Improvements include a new concrete pool deck, upgraded pool equipment, accessibility updates, and a new pool finish.

August Knodt Campus Modernization

August Knodt Elementary is the next Weston Ranch area school to receive a full school modernization. As part of MUSD's elementary modernization process, the school will receive secured perimeter fencing, new roofing and flooring, as well as fire alarm and paging system replacements.
