

SWLA Health Center Now Open!

SWLA Health Services has added a new location! This clinic is located in Southeast Lake Charles at 301 Tekel Road and is open to the public. The health care providers are here Monday-Friday from 8:00am - 4:30pm. for any healthcare and counseling needs. ALL children can be seen here and there is NO CO-PAY REQUIRED. Check-ups, shots, strep tests, flu tests, covid tests, glucose checks, physicals, referrals, counseling, etc. can all be done here.

>Is the clinic located inside the school? No. The clinic is on the west side of campus with a private entrance and parking area.

>Have transportation issues and trouble getting to the pharmacy to pick up prescriptions each month? They will deliver your medications to your work or home.

>Is your child diagnosed with ADHD and required to go to regular appointments for medication refills? Our health care providers can manage their appointments and refills for you. If you would like to have your child evaluated for ADHD or anything else, they can do that too!

>Do you bring your child for yearly checkups? Our health center does this too. Children grow so fast, and it is important not to skip these visits. Our Pediatric NP will check their height, weight, hearing, vision, vital signs, update shot records, and complete behavior/social screenings.

***If you would like to make an appointment or have any questions about what services are offered at our clinic, you can contact the clinic directly at 337-439-9983.**
