Educational Specifications
Roof Replacement Agricultural Education Building (aka Vo-Ag)
100 Battistoni Drive
Winsted, CT 06098

December 13, 2023

1. **Project Rational:**
   The proposed roof project consists primarily of the replacement of the roofing on the main portion of the Agricultural Education Building. This includes the complete removal of the existing asphalt shingles The re-roofing project is to prevent roof leaks and interior damage. The roof being addressed is approximately 21 years old.
2. **Long Range Plan:**
   The long-range plan of the Board of Education is to maintain the facility as their Agricultural Education program. Therefore, the project to insure the health and safety of the students and staff, plays an important role in the plan.
3. **The Project:**
   The Northwestern Regional School District No. 7 Board of Education proposes roof replacement at the Agricultural Education Building. The existing roofing consists of two layers of asphalt shingles.

The primary components for this project are as follows:

- Identify all areas of work and the existing roofing system.
- Remove all roofing materials down to the existing decking.
- Inspect existing plywood decking on pre-fabricated wood trusses.
- Replace deteriorating deck if needed.
- Install high-temperature ice and water shield membrane.
- Additional thermal insulation where appropriate including adding to the attic insulation will aid in reducing the heating load and increase the energy efficiency of the mechanical systems.
- Install a new 24 gauge metal standing seam roofing system, including metal furring, support clips and snow retention system.
- Replacement of roofing, wall and edge flashings, and associated work as needed are an integral part of this project. Re-roofing and new siding for the ventilation cupola will be addressed.
- Replace gutters and downspouts with new metal to match roofing color.
- Replacement of fascia and rake trim and associated masonry repointing, including control and expansion joint sealing are an integral part of this project.

4. **BUILDING SYSTEMS:**
    - Remove existing and install all new rooftop mechanical vents/exhaust fans, boiler stacks and plumbing vents in conjunction with the installation of new roofing.
    - Security, technology, public address and phone systems will not be addressed in this project.

5. **Interior Building Environment:**

    - Selective replacement of ceiling and/or painting will be part of this project due to water leaks and new construction.
    - Lighting, windows and doors are not applicable to this project.
    - Existing plumbing roof drains leaders to be cleaned as needed.
    - HVAC: (see Building Systems)
