BEYOND READY

We equip youth with skills for the future while meeting them where they are today. Through 4-H, we offer opportunities & experiences that shape youth into their full, authentic selves, enabling them to shine both now & in the future. 4-H is a community that provides experiences where young people learn by doing. Kids complete hands-on projects in areas like health, science, agriculture, citizenship, & more in a positive environment where they receive guidance from adults mentors & are encouraged to take on active leadership roles.
