

MORE listening...

MORE understanding...

MORE success...

MORE compassion...

...for each and every student.

What
MORE
can we
achieve
with your
support?

West End
Day School

more than
a school

At West End Day School, we have a relentless commitment to doing **MORE** for our students.

MORE listening. We listen, intently, to our students, to our staff, and to our families. We want to hear what's working, what could use some work, and how we can do better to meet their needs.

Listening fosters an environment that is **MORE understanding.** We get to know every one of our students on the deepest academic and social-emotional level: their strengths, challenges, learning styles, and interests.

Understanding drives **MORE compassion.** We approach every student and every situation with thoughtful kindness and care.

All of these principles add up to **MORE success.** We believe in our students. We know they are capable of achieving success inside—and outside—of the classroom. Our job is to help them see that ability in themselves and help them achieve more than they imagined.

With our expansion into the 7th and 8th grades, we will do **MORE** for **MORE** students than ever before.

What **MORE** will we achieve with your support?

Every single gift impacts the daily lives of our students and their families. Your gift will allow students to learn, grow, and thrive for even longer in the supportive WEDS environment with our expansion into middle school. Your gift will go towards hiring additional staff to help individualize your students' education even further. Your gift will help our physical space be the welcoming, adaptive environment that students are excited to come to every morning. Your gift will help us support our incredible children **MORE** in every way.

Let's achieve **MORE**, together.
