## Welcome students & staff!

My name is Theresa Sanchez, Job Developer here at Patino School of Entrepreneurship. I am available for students to assist with their career readiness needs in order to achieve career success.

The 2024 - 2025 school year is off to a great start. Students have been updating and creating resumes to include in their portfolios in preparation for employment. Job Searching continues as students have been applying for positions ranging from fast-food restaurants to after-school programs from Fresno Metro Ministry and Black Rocket. October kicks-off our "Career Prep Workshops." Students will have the opportunity to attend Career Prep Workshops during the student lunch period. Students are welcome to bring their lunch during workshop sessions. Career Prep Workshop offerings will be offered throughout the school-year. Topics will include: "Career Exploration", "Create Your Resume", "Interview Preparation", and "Job Search/Work Permit."

Students can learn more about Career Prep Workshops by emailing Job Developer, Theresa Sanchez at [theresa.sanchez@fresnounified.org](mailto:theresa.sanchez@fresnounified.org) Ms. Sanchez is available 8am - 430pm, Mondays, Tuesdays, Thursdays, and Fridays and is located in the main-office.

---

## Fresno Art Museum

### DESIGN CHALLENGE!

Seniors visited the Fresno Art Museum and received valuable information from museum tour guides in preparation for their upcoming Design Challenge project. When students arrived back to campus, they pitched their project ideas to Education Director, Susan Yost-Filgate.

# Fresno City College Registration

## STUDENTS PREPARE FOR SUCCESS

Fresno City College representatives were on campus informing seniors of the registration process and many course offerings available.

With several offerings to choose from, students focused on registration forms and asking questions related to financial aid, deadlines to meet, transfer requirements, course schedules, and degree options.

## Application Workshop
