# Overfunded Districts Form Alliance

## SOS = Support Our Students

Overfunded school districts and the education groups listed below partnered together to challenge S2. Their goals are:

- Pause the cuts or extend the adjustment period to 15 years rather than seven.
- Obtain the funding formula from NJDOE to discover how schools are actually funded. Their objective is to “expose the hidden math.”
- Establish a commission to review the existing funding formula.

# Federal DOE Prevents Overfunded Districts from Losing Adjustment Aid

- US Department of Education ordered NJ to increase Adjustment Aid to 80 “high need” districts that were being weaned off by S2.
- Lowering these districts’ aid would violate the conditions attached to school stimulus funds in the American Rescue Plan.
