

PLEASE KEEP THE FOLLOWING IN MIND WHEN SETTING UP YOUR LOCKERS

- Use masking tape only. No contact paper, double-sided tape, etc. Nothing that sticks permanently.
- Please use locker ladders that fit inside the locker, so they are not bending the front of the locker door.
- No glass mirrors. Use mirrors with magnets only – no mirrors with stickers on back.
- School locks are highly recommended and can be purchased from your house office. If there is a problem with the lock it can be opened with a key rather than cut off and they seem to have a longer duration.
- Do not write on the inside or outside of lockers (this includes dry-erase markers.)
