Elementary Enrichment: Camp Invention

"My son has learned all about solutions, mixtures, rockets, x-rays, space, and so many other activities. His little face lights up when he knows he is going to camp to learn about another exciting project. I love how enthusiastic he is about science all thanks to this camp."

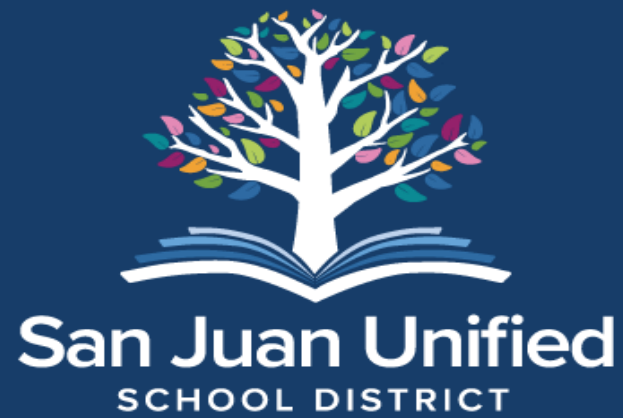

Students
Participating

1,400
students

Jump Start Math

2 high schools
3 middle schools
89 students

Focus: grades 6-9
Algebra readiness

Emphasis on problem-solving,
relevant and rich tasks,
collaboration and critical thinking

Curriculum: Mindsets Learning

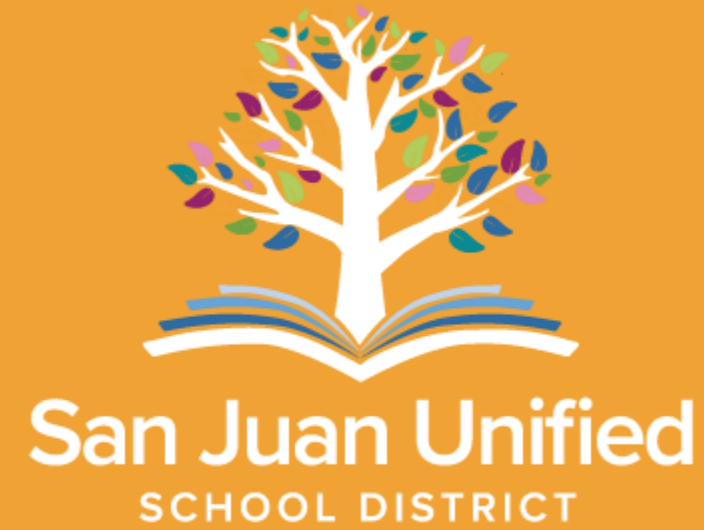

"I liked the hands-on activities, being able to design things, and learning about life experiences."

"I liked that I felt more prepared transitioning into high school grade math and the time was used well."

"As a parent, I thought the subject matter was very relevant and applicable to everyday adult life."

High School Credit Recovery

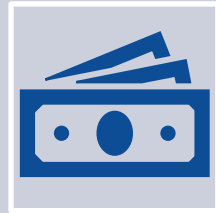

Seat Based:
Del Campo High
School

Summer session	Students enrolled	Courses completed	Credits earned
1	647	560	2,800

Total	1,176	1,034	5,170

Independent Study:
Will Rogers Middle
School

Summer session	Students enrolled	Courses completed	Credits earned
1	764	603	3,015
2	470	315	1,575
Total	1,234	918	4,590

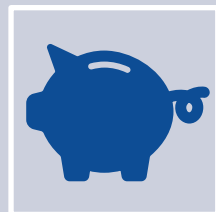

Planning for Summer 2024-25

Assess current budget allocations and strategize for the summer 2024-25 programs

Gather feedback on high leverage programs to continue

Elimination of one-time funds will reduce summer enrichment offerings

Thank
you!
