*"I wanted to create a school where talent - in whatever field - could be nurtured through the best facilities, teaching, coaching & opportunities for young people to exercise & explore their abilities." - Jack 'Boss' Meyer*

## HISTORY

## OUR STORY

Millfield was founded by Jack Meyer in 1935, following his return from India with six princes. Millfield House was used as the original Millfield School and is now one of the school's boarding houses, standing as a landmark in memory of the visionary Jack Meyer.

Today Millfield is one of the leading UK independent schools for boys and girls, aged 2-18 years and spans from Pre-Prep and Prep, to Senior and Sixth Form. Although it is best-known for its sport, Millfield is highly regarded for academic learning and the multiple fields in the creative arts.

Millfield has been running Holiday Courses and Camps for international young people for over 50 years, starting in 1970, meaning we are one of the longest running Holiday Courses in the United Kingdom. Millfield Enterprises also offers a range of Activity & Sports Courses and hosts events and camps at both a national and international level.

## OUR OLYMPIC LEGACY

Millfield's commitment to helping young people discover their brilliance has resulted in an outstanding Olympic legacy, with 82 Olympians to date. Since 1956, a Millfield athlete has competed in every Olympic Games, collectively earning 26 medals. At the Paris 2024 Games, our alumni—fondly known as Old Millfieldians—and coaches brought home an impressive seven medals. If Millfield were a country, it would have placed 18th on the medal table.

Millfield's main aim is to provide participants with an engaging learning experience suitable to their ability.

All materials are provided and are included in the cost of the option. On successful completion of the camp, all participants will receive a certificate and a report which will include their own reflection, as well as feedback from their session leaders and houseparent.

The programme, centred around the Millfield values, is designed to help participants develop their brilliance by increasing their self-awareness, understanding of their place in the world and how they can bring about positive change. The sessions will include project work, discussions, debates and lectures. Participants will also explore some community projects enabling them to become positive disruptors by applying their experiences to real life situations.

Alongside this, participants will have the opportunity to explore specific topics such as English language and literature, media studies, history, geography, biology, chemistry, physics, maths, economics and business studies. These sessions will be taught by Millfield School Subject Specialists to provide a taste of the Millfield academic programme.
