

# Helping students experience the joy of learning!

Wayne Township Education Foundation (WTEF) helps students experience the world through cultural programs, hands-on experiences, trips to places outside their neighborhood, and mentorship. We believe teacher ideas should be embraced, encouraged and funded and we strive to inspire community support of our local public schools.

## What your support means to teachers...

"The generous donors to WTEF probably don't understand how much their contribution means to us. WTEF has made it clear, time and time again, that not only are we supported and heard, but there are people eager to help."

"WTEF took a chance on a technology that was not proven. Their belief in my vision has made a difference."

"This program has completely changed the dynamics of independent learning. It has inspired the children to guide their own learning and seek additional information to transfer understanding."

"WTEF is a game changer in my classroom. The support they provide allows me to add to our curriculum in ways that engage our students and takes their learning to a higher level."
