

The mission of the **Resource Centers** is to help students thrive academically, socially, and emotionally by supporting them and their families through strategic partnerships. Each Resource Center is designed to provide a variety of services and programs to improve student outcomes such as: access to healthy food, job training, safe streets and public spaces, and access to mental health and wellness. These services and programs are provided by partnering with organizations that have the capability to meet the needs of students and families in each community. The first location, Resource Center South (Lincoln feeder pattern), began operation in February 2024.

survey respondents enjoyed their experience at the Resource Center
(N = 283; Goal: 85%)
