

Dorseyville Elementary School
Virtual Learning Plan

In the event of an unexpected disruption to regular, in-person instruction, we have prepared the following plan to meet the needs of our students remotely.

Short Term Closure:

- 1-10 instructional days
- Student work Packets: Students will complete work from emergency packets that were prepared by the IPSB school district and sent home with your child. These packets should be kept in a safe place for use ONLY when instructed to do so based on the closure.

Long Term Closure:

- 11 or more instructional days
- Students will be given access to their curriculum resources to bring home as needed for online instruction.
- IPSB will provide a device and charger for online learning access.
- DES teachers and staff will provide online, real-time instruction during regular school hours.

PK
