

# Thompson Falls High School

## Campus Evacuation Drill

**Date: Friday, October 11, 2024**

**Time: 1:55 pm**

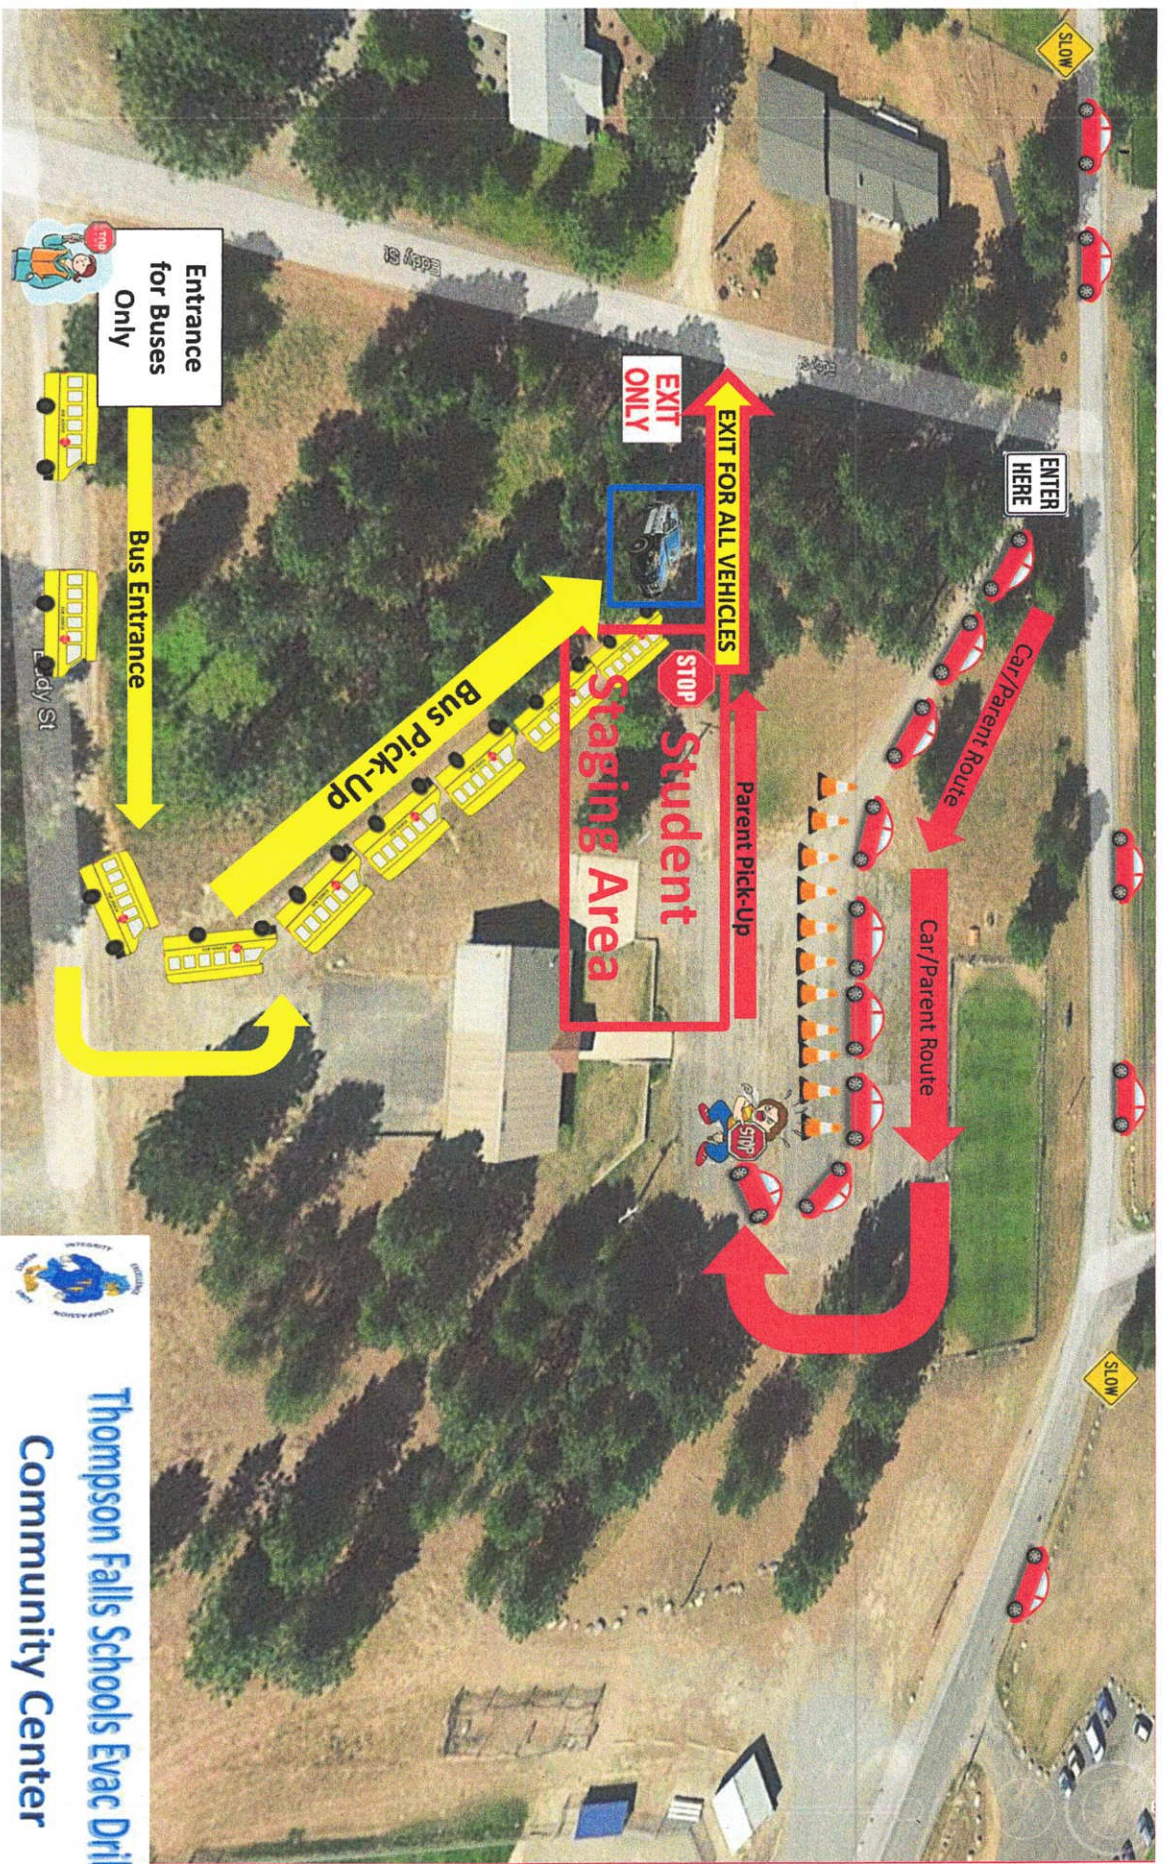

All students and staff will be practicing an evacuation drill as part of our efforts to keep a safe school environment. At approximately **1:55 pm** on **Friday, October 11, 2024**, all high school staff and students will be evacuating the high school. Our designated evacuation area is the Thompson Falls Community Center's outside area just across the street from the high school. Staff will lead students to the safety zone where students will then board their regular school buses. Parents will also pick up their students from this area.

Please refer to the map for entrance of cars. Local police and staff will direct traffic as parents enter the safety zone for pickup. As buses depart for their routes, parent vehicles will also proceed and depart through the pick-up area. Students will be loaded into cars in an orderly manner. We ask that adults do not get out of cars to take their students. This will ensure that staff can keep track of all students leaving with those people they are supposed to be leaving with. Once students who are regularly picked up by parents have left, all walkers, bike riders, and drivers will be escorted by school staff back to campus where they will be dismissed as usual.

Please do not hesitate to call the school if you have questions or concerns. We are confident this drill will be completed in a very short amount of time, if all involved follow the plan. We do not expect parents or students to change their normal dismissal plans. The only change is that students will leave on buses and with parents from the Community Center rather than from the school. Some staff will stay back at school for those that may forget about the drill or have a last minute change in plans for their child. Please see the map to understand how students will be gathered and dismissed. Thank you in advance for helping make this school safety drill a success!

Respectfully,

Jodi Morgan, TFHS Principal
