

The Mercymount *Way*

EDUCATION. VALUES. TRADITION. COMMUNITY.

Mercymount
Country Day School

Sponsored *by* the Sisters *of* Mercy

Faithful to Catholic educational tradition, Mercymount Country Day School ensures the development of strong academic skills, nurtures creative abilities, creates a sense of community, and promotes social responsibility. In the spirit of Catherine McAuley, we affirm that each child is a unique gift of a loving God, open to God's presence in others and in all creation.

Mercymount prides itself on challenging students to reach beyond their current capacity for learning and setting goals that surpass state standards, all while integrating the Sisters of Mercy Mission throughout the learning process.

Mercymount admits students of any race, creed, gender, nationality, or ethnic origin to all the rights, privileges, programs, and activities generally accorded, or made available, to students in this school.

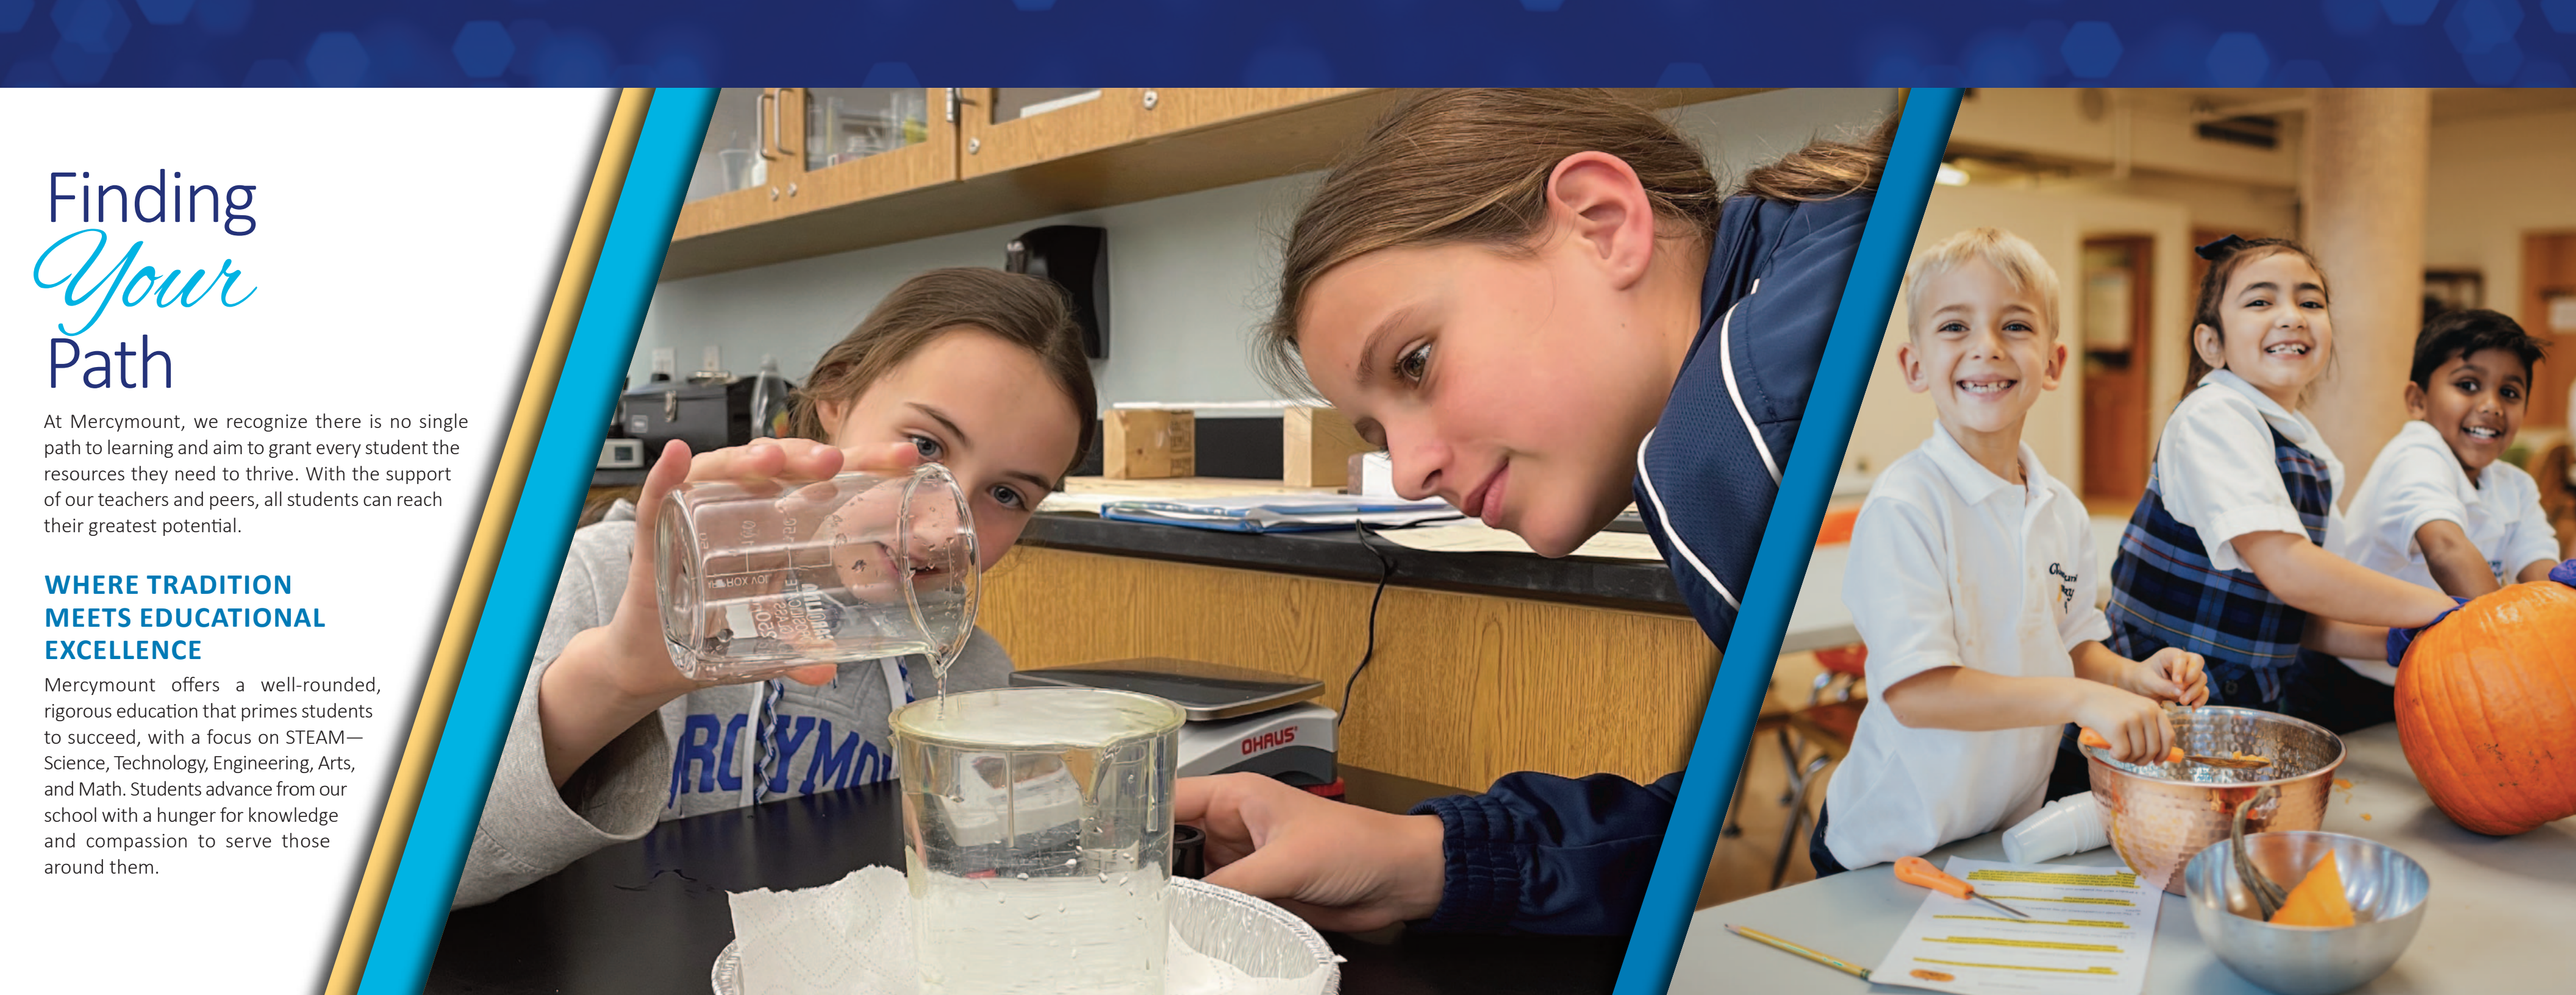

Celebrating over 75 years of educational excellence, Mercymount Country Day School offers preschool through eighth-grade students the chance to flourish and grow in their love for knowledge. Every student is empowered to discover their interests and unique abilities, so they can become the best version of themselves.

Welcome *to* the Mercymount *Way*

EDUCATION. VALUES. TRADITION. COMMUNITY.

CORE VALUES

Our Core Values are the hallmarks of a Mercy Education—the ideals we uphold as an institution, a community, and individuals. Each value is interconnected and necessary as we take Mercy into the world. Our students are **Compelled by Mercy** to empathize and understand the struggles, circumstances, and perspectives of others. They learn to have **A Voice for Dignity and Respect** as they honor each person as made in the image and likeness of God because, at the heart of a Mercy education, students are **Inspired by Faith**. Mercymount students are supported in discovering their interests to develop **Educational Courage**. By gaining real-world skills and growing in **Principled Leadership**, students graduate prepared to handle the ethical and moral dilemmas of the world.

Finding *Your* Path

At Mercymount, we recognize there is no single path to learning and aim to grant every student the resources they need to thrive. With the support of our teachers and peers, all students can reach their greatest potential.

WHERE TRADITION MEETS EDUCATIONAL EXCELLENCE

Mercymount offers a well-rounded, rigorous education that primes students to succeed, with a focus on STEAM—Science, Technology, Engineering, Arts, and Math. Students advance from our school with a hunger for knowledge and compassion to serve those around them.

STEAM Ahead

As part of Mercymount’s commitment to a well-rounded education, every grade offers specials multiple times per week. We believe art, music, and technology are critical to childhood development and encourage a sense of social responsibility, service, and personal integrity. With the addition of the robotics program, students can take advantage of our state-of-the-art Mac Lab to cultivate their interests and discover the wonders of science and engineering hands-on.

Creativity Welcome

Mercymount offers a variety of specials that encourage interests across many disciplines.

WEEKLY SPECIALS

Instructional Soccer-Fall
Biddyball-Winter
All sports-Spring

Catholic Athletic League Sports (Grades 4 and up)

Soccer
Tennis (Middle School)
Basketball
Volleyball (Middle School)
Cross Country
Baseball (Middle School)

“I remember the life lessons I gained from my middle school years—all thanks to the teachers at Mercymount. As a child brought up Hindu, I was given an appreciation for Catholicism from Sr. Rayleen and encouraged to grow spiritually. She was a great mentor. MCDS gave me opportunities to reach out of my comfort zone and try new things, such as knitting, archery, and robotics. My favorite part of school was our annual field trip to the W. Alton Jones Campus, where we dove into nature for a few days. I believe those trips ignited my spark to pursue environmental conservation. MCDS challenged, shaped, and prepared me for my high school education. I would not trade my middle school experience for any other.”

— **Rashi Gupta**, Manager, Impact-Directed Environmental Accounts (IDEA)
