WHAT TO DO IF YOU NOTICE SIGNS

1 Take All Threats Seriously

It is a myth that people talk about suicide to get attention; it is safest to assume your friend means what they say.

2 Let Them Know You are There for Them

Do not shy away from the conversation, you can say something like: **"that sounds really hard, how can I help?"**

3 Inform a Trusted Adult

It is important that professional help is received. Encourage them to tell a trusted adult. If they don't trust anyone, tell an adult you trust. **If you know something, say something.**
