

THE WILDCAT WEEKLY

A Note from Dr. G

Volume 4 Issue 6

Superintendent's Corner

Many of our elementary math classrooms have shifted to a Guided Math Classroom approach where the student drives much of the learning and is an active participant in each part of the lesson. In Guided Math, after a short teacher-led lesson, the class breaks up into small groups and begins to work in one of four stations: game, fluency, technology, and teacher. Students who are struggling with a concept may get more direct instruction and support with the problem set whereas the children who mastered the concept quickly, will be enriched with challenging situations and problems that extend their thinking beyond the lesson.

The photos above show elementary students across the district engaged in different Guided Math stations. At our Board of Education Appreciation celebration on Wednesday night, District Math Specialist Anna Nazaruk, with the help of our math students, will participate in a Guided Math lesson with Board Members and Administrators. There will also be a musical performance and some treats prepared by our WMS students.

Finally, congratulations to our teams and athletes recognized Lohud in weekly contests Nick DiNapoli and the Varsity Football Team and Adriana Georgette. #wildcatpride

Noticing the Good

October is National Principals Month, and we want to express our heartfelt gratitude to the amazing principals who lead our schools Anne Stern at Hawthorne, Michael Cunzio at Columbus, Anthony Mungoli at WMS, and Keith Schenker at WHS.

Their dedication, passion, and commitment shape the educational experiences of our students and foster positive school cultures.

Every day, our principals inspire teachers, staff, and students to strive for their best.

They navigate challenges with grace and create environments where every student can thrive. This month, join us in recognizing and thanking these remarkable leaders.

To our wonderful principals, thank you for all that you do. Your leadership and tireless efforts make a profound difference. Let's all take a moment to #ThankAPrincipal and show our appreciation for their invaluable contributions to our schools and communities.
