Rendering of New Addition

PROJECT UPDATE 10/01/2024

The scope of the project includes building a new Multipurpose room, to include a 3,000 sf PE space, PE office, PE Storage, After School Program Director office and storage, Raised performance platform and storage, and enclosing the existing covered connector to serve as an indoor connection between the new space and existing cafeteria and main building. This project will also include upgrading the existing group bathrooms near the cafeteria.

Permitting efforts are close to the final stages, with anticipated final approvals in late November. Pre-Qualified General Contractors have been notified and will be receiving the Bid Documents soon. Bid Date is currently early November.
