OLENTANGY ‘BRIDGING THE FUTURE’ THROUGH WORK-BASED LEARNING

Lewis Center, OH – As a leader in creating work-based learning and career pathway opportunities, Olentangy Schools will feature offerings available to students and staff at the Olentangy:BridgED ‘Bridging the Future’ event on Wednesday, October 16 at 7pm at Olentangy High School.

‘Bridging the Future’ aims to educate about emerging workforce trends, how local businesses are adapting to these changes, and what it means for today’s students. The evening will begin with a presentation and messages from state representatives and the Ohio Department of Education and Workforce, followed by a partner showcase with the following business leaders: Delaware County Emergency Services, Elford Construction, Honda, Intel, JPMorgan Chase, Kokosing, KSM Sports, OhioHealth, OSU Wexner Medical Center, Roberston Construction, Vaughn Industries, and Worthington Steel.

“Our responsibility as K-12 educators culminates in preparing students for life after graduation. I am proud that Olentangy Schools has been a leader in workforce readiness and career pathways, connecting educators and our students with businesses to create impactful opportunities, internships, scholarships, and employment,” said Superintendent Todd R. Meyer.

Olentangy Schools has partnered with over 15 business partners to date. By collaborating with the Olentangy:BridgED partners, our curriculum is tailored to align with the demands of emerging sectors, providing students with the tools and resources necessary to meet the evolving needs of the workforce. This work-based learning program immerses students in real-world experiences and provides them with hands-on skills to enter the workforce successfully.

For more information on the ‘Bridging the Future’ event or to register to attend, visit www.olentangy.k12.oh.us/students/olentangy-bridged.
