

# BCPS CREST

formerly known as LEEO

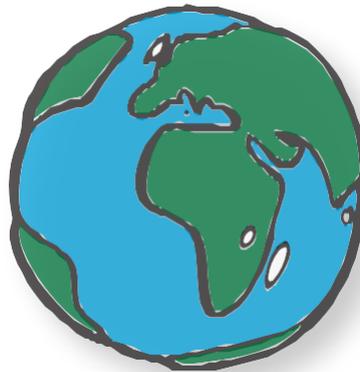

## COMMUNITY PARTNERSHIPS

*"Tell me and I forget. Show me and I remember. Let me do and I understand." - Confucius*

**OUR MISSION:** to inspire minds to think, learn, and grow while helping to better the future through community-based and civic-minded educational programming.

Civically Relevant Experiences for Students and Teachers strives to provide engaging, hands-on experiences, outside of the classroom, that provide Broward Public Schools teachers and students with tools for meaningful engagement with the community.

CREST programs provide opportunities to explore local industries and potential career paths, to engage in a safe space about community issues, and to collaborate on finding solutions to real-world problems.

BCPS CREST is actively seeking community businesses and/or organizations to partner with our schools to provide mentorship opportunities, hands-on skills training, and soft skills experience to succeed in any career.
