- Highlighted portions at right signal changes made to funding.
- Line 87 shows carryover from 22-23 (approved late 2023 by the board)
- Line 88 shows carryover for Health Academy
- Line 89 shows computer lab charge to CTEIG
- Line 90 shows reduction in Title 1 funds due to change in enrollment
- Line 91 shows reduction in Prop 28 due to change in enrollment
- Lines 92-93 No change to LCAP funding
- Because not schoolwide Title 1 this year, likely to have carryover next year. District may not allow us to use all of this carryover.
- I Govea wants to use \$ to train more teachers in AP/IB with special focus on supporting Title 1 students in these classes. Also build up “bench” of trained teachers in these programs to allow more flexibility in master schedule. Not far off in access - got AP access award from CollegeBoard. Want to help students develop more success in these classes. Needs Ed Services approval for this use of funds.

E Thorson motions to approve, B Schuetz seconds, motion passes

2. Preview: [24-25 SPSA](#), select appropriate tab at the bottom

- Change in LCAP goals. Three LCAP goals this year. Change from this year, which had four.
- Added language = red. Removed language = strikethrough.
- Changes to ELPAC funding:
 - \$144,000 projected for Title I funds next year, despite Title I enrollment going up.
 - District is funding at 100% next year, whereas this year it was 125%
 - General fund a little less because district lowered per pupil rate
 - Prop 28 projected to be about the same
 - Haven’t gotten LCAP yet. Last year, LCAP funds distributed specifically for PBIS and EL. EL per pupil, PBIS as needed. Next three year cycle, Board considering changing that. Still has to be approved. Money will be allocated based on how principals present what needs are at each site. EL money unlikely to go away, given site’s needs. May look different on SPSA doc.

I Govea will survey stakeholders.
