

Geometry Semester 2 Syllabus Spring 2025

Instructor

Mrs. Molivigny

Email

JMOLIVIGNY@west-fargo.k12.nd.us

Office Location

Rm. 220H

Classroom

Rm. 201K

Course Overview

In this course, you will learn about different aspects of Geometry through direct instruction and inquiry-based learning. There will be times you will work collaboratively with classmates or independently. This is a learning environment, which means that we are respectful to others throughout the learning process. Everyone learns in their own way, in their own time.

Course Materials

- Notes and Homework Papers
- iPad charged and ready to go when needed for class activities.
- Writing Utensil
- Calculator (during class, a calculator will be provided. At home, you can use your own or the ones provided on your iPad)

Resources – If you need extra help or have questions, here are some resources.

- WIN Sessions
- Class Notes are essential resources; make sure you get those completed.
- Email Me (Mrs. Molivigny)

Course Schedule

Quarter 3	Subject
Unit 7	Similar Figures
Unit 8	Right Triangles
Unit 9	Area and Perimeter of Polygons
Quarter 3 Final Exam	Unit 7 – Unit 9
Quarter 4	Subject
Unit 10	Volume and Surface Area of Polygons
Unit 11	Properties of Circles
Unit 12	Segments with Circles
Quarter 4 Final Exam	Unit 10 – Unit 12

Homework Policy

Homework. Homework. Homework. I understand your time outside of school is full of other activities that you want or need to do. I will always keep this in mind when creating homework assignments. This means I will limit the number of problems you are assigned. I will assign you important problems to practice with and ask questions about. If you skip them, you won't know what will be assessed on quizzes and tests.

Turn In: To turn in your homework, everyone will need to upload a picture of their work to the corresponding Schoology assignment. For paper copies, you will need to take a picture of **all pages** with your iPad and upload them to Schoology.

Due Dates: At midnight, every assignment will be due the next day your class meets. What if you miss the due date? I understand sometimes you won't have time after school to get all your homework done or you will have questions. I will still accept assignments up to the day of the test. This doesn't mean waiting till the night before the test to complete your homework that wouldn't benefit you. The sooner you turn in your homework, the sooner I can grade it. You need feedback to improve your math skills, which will help you succeed in class.

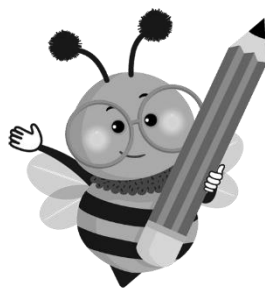

If you fall behind with the homework, I will send an email home.

Additional Information

Grades: The time to improve your grade is during class throughout the quarter and semester. The last week of the quarter is not the time to come and ask how to fix your grade. Each day is when you should work towards learning and achieving your goal for the class. Below is the breakdown of how your grades are calculated each quarter:

Tests	65%
Homework	5%
Quizzes	10%
Quarter Final	20%

I am looking forward to a great semester with you! Feel free to reach out with any questions.
